The "Lily of France" Corset

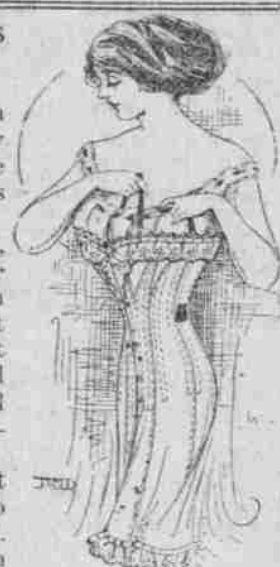

Presents in Advance the Best Features for Spring, 1910.

The "Lily of France" Corsets, known by women throughout the East as the embodiment of beauty and grace, are rapidly attaining favor with the women of this vicinity. The great variety of models enables us to correctly fit any figure.

The "Trecot" Corset, for the slight figure, through the art of designing, has made it possible for round curves and graceful lines so much desired in the newest gowns, to be brought out to the very best effect without the aid of boning. This model is cut extra long and gives lines which cannot be attained in any other model. A brassiere of soft satin attached to the corset serves to hold the bust in perfect condition.

Another model, designed especially for the stout figure, is cut in two separate sections, enabling it to do away with any fullness through the abdomen. The bust is medium high, tapering gradually from the waist line, giving perfect comfort to the wearer from the fact that the bust falls gracefully into the corset. These corsets are boned throughout with Walohn, and range in price from \$5.00 up.

The new Spring models in the "Modart" Corsets are arriving and we invite you to visit our Corset Section and acquaint yourself with what is most up-to-date and correct in corsets. Advice cheerfully given.
