

EXTRADITION IS DEBATED IN SENATE

Grand Jury and "Information" Methods of Charging Crime Compared.

PILES DEFENDS MEASURE

Aldrich Bill for Commission to Investigate Government Expenditures Goes Over on Objection From Elkins.

WASHINGTON, Feb. 5.—The question whether the Governor of one state shall be required to extradite a person, under charge of crime, on the information process, as well as the indictment process, was under discussion in the Senate more than two hours today. No action was taken on the bill under consideration, which would compel recognition of the information process.

Senator Piles, in charge of the measure, said it had originated in the fact that some Governors had refused to grant extradition in cases of prosecution by the process of "information."

The bill was opposed vigorously by Senators Rogers and Hepburn, who contended that it was a violation of the Federal Constitution.

Mr. Piles said the information process had been copied by many Western states for economy, but in fact, if there should not be a change in the Federal law, that it would be necessary for them to make general law of the grand jury system, which would entail much greater expense.

Senators Clark of Wyoming and Bailey of Idaho, who introduced the bill, declared their own methods of prosecuting criminals. "It takes far clearer vision than mine to see in the bill any violation of the Constitution or of the rights of states," declared Mr. Clark.

Aldrich Would Save Waste. In an effort to put an end to Government extravagance and waste, Senator Aldrich today reported from the committee on public expenditures a bill providing for the appointment of a commission to make investigation and suggest needed reforms.

The commission will consist of nine members, three from the Senate and three from the House and three to be appointed by the President.

Senator Aldrich said that the bill had the unanimous sanction of the expenditures committee and sought to obtain immediate consideration. In this regard he was antagonized by Senator Elkins, who said he desired opportunity to determine whether the committee would interfere with the functions of Congressional committees.

Senator Elkins, accordingly, the bill went over, but Mr. Aldrich gave notice that he would call it up again.

Senator Elkins supported the report of a bill providing for the establishment of a sub-treasury and assay office at Los Angeles, California, and for the construction of a million-dollar building for the sub-treasury.

STOKES IS REAR ADMIRAL

Senate Confirms Nomination of Surgeon-General of Navy. WASHINGTON, D. C., Feb. 5.—Surgeon Charles F. Stokes was today confirmed by the Senate to be Surgeon-General in the Navy Department, with the rank of Rear Admiral, the appointment to take effect today. He becomes the successor of Medical Director Risley.

RELENTLESS WAR PLANNED

(Continued From First Page.) elately with the fight against the Lords. "It is impossible as yet to forecast with certainty how the fight will go. The Tories will make no movement and bitter resistance, especially after their many victories in the recent elections, and still more if some bye-elections should further increase their strength. The position of the King has become quite as delicate as he apprehended, and justifies his wisdom in trying to induce the House of Lords not to reject the budget. On the other hand the Liberal Ministers must proceed with some wariness so far as the King is concerned, as the nation, which admires the King, would resent any appearance of undue pressure upon him.

LIBERAL PROGRAMME SECRET

Aquith Remains Silent—Plans of Attack on Lords Stated. LONDON, Feb. 5.—Of even greater interest than possible changes in the Cabinet is the course the Government is likely to pursue upon the reassembling of Parliament. Premier Asquith has kept his own counsel, and the views of the Liberals vary according to their shade of radicalism.

Extreme Liberals strongly favor an immediate attack upon the veto power of the House of Lords, leaving the budget and all other legislation until the party has settled its accounts with the peers. The Irish members, too, are believed to support this view.

More moderate Liberals are urging the Government first to introduce the budget, which the Lords, accepting the result of the election as an endorsement of the government's financial condition, are already pledged to pass.

On the question of the future status of the House of Lords opinions differ almost as widely. Laborers and extreme Radicals are for the absolute abolition of the upper chamber, which hardly comes within the realm of practical politics. Another section of the Ministry, however, demands the abolition of the Lords' right to veto on financial legislation and the curtailment of their veto in other legislation. Views of the moderates are, thus expressed by Sir Edward Grey, Foreign Secretary:

"No reform of the House of Lords can be a real reform unless it provides for the abolition of the hereditary principle and the substitution of popular elections." The Spectator follows this up with a suggestion that the Upper House be modeled after the American Senate, the House to consist of 20 members chosen under a system of proportional representation from equal electoral districts.

Meanwhile the Unionists, with the exception of a few peers, who under no circumstances would find a place in the reformed chamber, are practically unanimous for a change in the constitution of the House of Lords.

Many schemes are being put forward, the most popular probably being that embodied in the report of the Rosebery committee, which provides for the election by the hereditary peers 20 of their own members, together with 120 peers qualified by service to the nation, 10 bishops, five judges and 40 life peers.

11 MEMBERS ARE DEAD

Explosion in Pennsylvania Mine Latest Disaster.

BODIES ALL ARE FOUND

Rescue Party Works All Day in Hunt for Entombed Men or Their Bodies and Returns With Corpses—Gas May Be Cause.

FOUR MINE EXPLOSIONS IN ONE WEEK ARE FATAL TO 185 MEN.

During the week just past 185 men have lost their lives in four mine disasters which have occurred in the United States and Mexico. Nearly as many more have been burned and otherwise injured.

Monday, January 31, at Primero, Colo., an explosion brought death to 73, two men escaping alive from the mine.

Tuesday, February 1, at Drakesville, Ky., 33 men were killed and many injured in an explosion.

Wednesday, February 2, a gas explosion in a coal mine at Las Campanas, Mexico, killed 68 and injured a great many.

Saturday, February 3, 11 men were entombed in a mine at Indiana, Pa., after an explosion of gas, all being dead when found.

INDIANA, Pa., Feb. 5.—Ten Hungarians and one American met death in a gas explosion today in the numerous stopes of the Ernest mine of the Jefferson & Clearfield Coal Company.

The explosion occurred in a heading where 12 men were working. One of these, Andrew Kravetz, escaped, carrying a quarter of a mile on his stomach to evade the noxious gases.

One hundred and ten men working in the same stope escaped through other headings, although they were held back for 16 hours by the black damp until a rescue party reached them.

One thousand other men, working in adjoining mines within a radius of three miles, who heard the concussion, paid no heed to it.

The rescue party of 12 mine bosses went into the mine at 9:30 o'clock this morning, soon after the accident.

At 5 o'clock this afternoon they brought back with them the dead bodies and announced there was no one else in the mine.

State mine inspectors will investigate the accident.

CERTIFICATE PLAN WINS

SENATE COMMITTEE DECIDES AGAINST IRRIGATION BONDS Method of Expanding Money Not Settled, but President May Be Made Arbitrator.

OREGONIAN NEWS BUREAU, Washington, Feb. 5.—The proposal to raise funds to complete Government irrigation works was considered by the ways and means committee of the House and the irrigation committee of the Senate today, neither committee reaching a definite conclusion or reporting upon the measure considered.

The Senate committee virtually has decided to report favorably on the certificate plan of raising funds, but has not reached a conclusion relative to the plan of the President to issue \$20,000,000 in bonds. It is expected that provision will be incorporated in the measure placing the final approval of projects to be completed from the special fund in the hands of the President and permitting the completion of extensions to projects when the best public interests may be so served.

Attention was once in committee to the proposed expenditure from the fund the Elephant Buttes project in New Mexico, involving \$3,000,000.

Secretary Ballinger and A. P. Davis, Chief Engineer of the Reclamation Service, appeared before the House committee in support of the bond plan.

DISTRICT PYTHIANS DINE

Convention, With Initiation, Opens With Banquet. EUGENE, Or., Feb. 5.—(Special.)—A convention of the Knights of Pythias of what is known as District 1, convened here this evening, including members from Junction City, Roseburg, Cottage Grove and various other points in the district. Grand Vice-Chief of D. E. Yorav of this city had the matter in charge. He had automobiles at the ready to take to meet the initiators and give them a trip "Seeing Eugene."

A team of the Dramatic Order Knights of Korrasan, a side degree of the order, from Portland, arrived on the afternoon train and put on the work tonight in the initiation of a class of 40. Before the initiation, however, the assembly partook of a banquet served by the women of the Guild of the Episcopal Church at the Parish house.

DUDLEY DU BOSE IS DEAD

Alaska Lawyer Had Served Sentence for Contempt of Court. SEATTLE, Feb. 5.—Judge Dudley, who served prominently in the Nome, Alaska, mining scandals and who was Alaska attorney for big Eastern corporations, died in a hospital here today. He was said to have been the original of a character in the novel and drama "The Spoilers."

With Federal Judge Arthur Noyes, United States District Attorney J. K. Wood and Alexander McKinnis, he was found guilty of contempt of court in the mining litigation at Nome several years ago and served a sentence in jail.

MAYBRAY'S 'STEERER' FREE

Jury Acquits Member of Alleged Gang of Swindlers. COUNCIL BLUFFS, Ia., Feb. 5.—The second trial of Scott of Pender, Neb., charged with acting as a "steerer" for the alleged swindling band of which J. C. Maybray is said to have been the head, ended today with the acquittal of Scott on a charge of aiding in the robbery of John Harnelbracht of 2000.

Supporters of the accused were said to have suggested members of the society of the "swindlers' syndicate" before the state courts of Iowa.

Swedish Leger Drowns

RAYMOND, Wash., Feb. 5.—(Special.)—Nels Oberg, a Swede, single and aged 48, fell into the river at Owens' camp and was drowned yesterday afternoon. His body was found two hours later.

"7"

Eugene Gets Another Garage. EUGENE, Or., Feb. 5.—(Special.)—Excavation work has just been commenced on a lot at the corner of Oak and East Eleventh streets for a large automobile garage. This is the second automobile establishment to be erected here in the new year, and there is a prospect for another. All the various dealers of Eugene are anticipating a sale of automobiles this season of at least 100 per cent greater than last year.

The forest fire fighting service of New York state costs \$40,000 a year and is worth the cost.

Humphreys' Seventy-Seven Famous Remedy for Colds & GRIP

LA GRIPPE, INFLUENZA is known by a general sense of illness, pain or soreness over the entire system or in the Head, Back or Limbs; Sore Throat or Cough, sometimes very obstinate, hoarseness, and often pain in the breast or side, sneezing, running from the nose, or weeping, itching, and redness of the eyelids. In some cases the sense of general soreness at some particular part; in others, the cough and hoarseness or the sore throat, or again, the profuse catarrh or flowing from the eyes and nose are most prominent. The appetite is impaired, the whole nervous system involved, and much depressed and run down, recovery is slow, and after effects continue, in many cases, to show themselves for a considerable time. It is, therefore, desirable that the disease should be promptly taken in hand. "Everything is Grippe while Grippe prevails."

TREATMENT—"Seventy-seven" is the remedy and cure. It means the entire condition and is the cure for all its manifestations. Taken early it cuts it short promptly. Taken during its prevalence it prevents its invasion, taken while suffering from it, a relief is speedily realized. It may be continued up to entire cure. Six pellets every two hours, or in extreme cases every hour, is the rule.

"Seventy-seven" breaks up hard stubborn Colds that cling. Handy to carry, fits the vest pocket. All Drug Stores, 25 Cents.

Humphreys' Homeopathic Co., Cor. William and Ann Streets, New York.
