

RECORD SALES OF AUTOS ARE MADE

Early Orders Portend Heavy Spring Business for Dealers in Portland.

AGENTS ARE ALL ACTIVE

News Notes of Local Houses Indicate Big Demand in City and Throughout the Entire State. Changes Are Reported.

Two days of fair weather maintained the high spirits of Portland automobile dealers last week. During those two

tries from the Lloyd Auto Company. The former has a coupe and the latter a victoria.

"E-M-Fa" were sold by the Studebaker Company last week as follows: T. G. Condon, D. A. Howe and A. E. McKenna.

An electric that is attracting a great deal of attention is that received last week by the Studebaker Company. It is known as the 17-K model and is now on display in the salesrooms.

Unless there is a reconsideration, the Portland automobile road races will not be held during the Rose Festival. The dealers passed a resolution last Monday night which forbids any member entering.

The Northwest agency for the Parry car, of Indianapolis, was closed last week by Henry Punk. The Parry car is a 1909 product and expects to make a sensation among cheap automobiles.

Roy Wilson, manager of the Western Auto Company, is in Eastern Oregon this week visiting subagencies for the Moline and Knox.

DEALERS EXPECT NO BENEFIT

Road Races Not Upheld by Automobile Merchants.

At a meeting of the Portland Automobile Dealers' Association last Monday night in the convention hall of the Commercial Club, the road races scheduled for Portland during the Rose Festival, re-

take their case to the Appellate Division and from there to the Court of Appeals. The final decision is seldom reached in less than eight months. So there is plenty of time for Johnson to be tried and convicted, train and battle for the championship, before the "last call for stripes" is heard from the highest tribunal of the state.
—Call for Bail Possible.

In case of conviction bail would be fixed at around \$10,000, and it would be up to Rickard and Gleason to furnish it. If they want their black star to perform on July 4.
Of course, as soon as the battle is over, they could surrender their man, although it would probably mean another fight, and one without articles or prize money.
For Johnson decidedly objects to do-

AIRSHIPS ON EXHIBITION

PURE FOOD SHOW. TO SEE MACHINES.

Numerous Interesting Features Are Scheduled for Display During Next Two Weeks.

Starting tomorrow and continuing for a period of two weeks, Portland will be given an opportunity for a rare educational exhibit of airships and airship models. This exhibit, to be shown free of charge, will be given in connection with the Pure Food Show on the fourth floor of the Meier & Frank store.

There will be numerous interesting features to the big aviation exhibit, not the least of which will be a large Farman biplane, which will be brought here by M. Lawrence Dure, the French aviator, and demonstrated by him.

This Farman biplane is an exact replica of the machine with which Farman once established a world's record for height at the Rheims, France, exhibit, with a mark of 755 feet, and which later attained a height of over 3000 feet. The car measures 30 feet from tip to tip and may probably be used for an actual flight by Monsieur Dure, should the weather permit.

The real airship will be exhibited in conjunction with seven other models of airships, which will be demonstrated hourly by Monsieur Dure and two assistants, who will accompany him here. These consist of a Blériot machine of the cross-channel type, an Antoinette monoplane, a Santos Dumont monoplane, a Langley monoplane, a Sommer double monoplane, a Wright biplane and a Chanute glider.

The exhibit will be continued for a period of two weeks and will be open to the public at all times. It will be held in the room which has been set aside for showing the Curtiss biplane recently purchased by Henry Womme.

Toy balloons, far above the usual size, will be released every few minutes from the top of the Meier & Frank building all week. These balloons will carry an "aerogram" bearing a message to the finder, which will be redeemable at one of the booths in the Pure Food Show. The balloons will be large, four-foot spheres, which will be released every few minutes during the remaining two weeks of the show. This will be done as an added attraction to the Pure Food Show.

The exhibitors at the Pure Food Show all declare that this, the fifth annual exhibit, has been by far the most successful of the several shows held in Portland. As in the opening weeks, every booth continues giving away some sample of the material which has been on display and for the last three days, the attendance at the booths where sweetmeats and cookies have been handed out, has been noticeably increased.

days, it is safe to say, more inquiries concerning cars were received by local dealers and more demonstrations were made than during any period of the same length in the history of Portland. Dealers were generally surprised at the large number of inquiries made and for this reason are expecting the Spring season to be remarkably active.

Demonstration cars, filled with prospective purchasers, whizzed through Portland streets during those two days as never before. Many sales were recorded and hundreds more were started on the road to final consummation.

H. A. Burgess, of the Crow Automobile Company, is in Southern Oregon visiting sub-agents.

Fred A. Bennett, a well-known Northwest agent with headquarters in Portland, is now in the East visiting the factories.

William Jenkins, who was sent to Portland by the Thomas Company, of Buffalo, makers of the Thomas Flyer, to attend the automobile show, has gone to San Francisco.

J. S. M. Eley, formerly with the Thomas factory and later with a Seattle automobile firm, has come to Portland and will hereafter be a salesman with the Crow Automobile Company.

Three carloads of automobiles, consisting of Marions, Oldsmobiles and Overlands, were delivered to the Crowe Automobile Company this week.

An effort is being made by some of the established dealers to discontinue the practice of publishing a list of individual firm sales.

W. S. Moon is the new agent of the Winton Six at Eugene, Or. Six cars were purchased last week by Mr. Moon and one was sold by him before leaving the city.

Dr. G. Lee Woo, a Chinese physician, is the first Chinese in Portland to purchase a motor car. Dr. Woo bought a seven-passenger Winton Six. It will be delivered by March 1.

Motorcycles are being sold in greater numbers than ever before in the history of the industry on the Pacific Coast, according to Ballou & Wright, Northwest agents for the Indian Motorcycles.

Three carloads of Mitchell will leave the factory February 15 for the Barnes Auto Company. These cars are to be delivered to purchasers of the past few days.

The greatest single consignment of motor-cars ever shipped to the Pacific Coast was received last week by the Mitchell agency in San Francisco. There were 135 cars in the shipment.

J. J. Rieg is the latest purchaser of a Hupmobile from Forrest Smithson, local agent.

The C. M. Menzies Motor-Car Company is now housed in its new offices, at Seventh and Davis streets. The old offices immediately in the rear are being used as a garage and repair room.

The H. L. Keats Auto Company has delivered 19 Chalmers automobiles since the show closed January 23. Five Chalmers are now en route from the factory. Two of these are for Portland, one for Lewiston and two for Boise, Idaho.

The 1910 Lenzler demonstrator for the Keats Auto Company has arrived.

B. J. Clark, formerly with Frank C. Riggs in the sale of the Packard, will soon establish headquarters at Fourteenth and Washington streets, where he will sell the "E-M-F."

Frank C. Riggs, local Packard agent, is now in the East visiting the factory.

The Keats Auto Company expects three of its new Gramm-Logan trucks this week. Many orders for these trucks have been taken.

Dr. R. H. Rand and A. C. Ruby are the latest purchasers of Columbus elec-

celved a "knock." The dealers said they could not see where they came in on these races from a business standpoint. "I do not see where we will be benefited any locally by these local races," said a prominent dealer last night. "I think we should let the National races decide the merits of our cars."

The manufacturer bears the expense in the National races, while it falls on the dealer in local races.

The schedule of Pacific Coast road races this year under authority of the American Automobile Association is as follows:

Santa Rosa, May 9.
Portland Rose Carnival, Portland Auto Club, June 11.
Santa Monica, Licensed Motor Car Dealers' Association of Los Angeles, July 4.
St. Hilda, September 10.
San Francisco-Portland, Auto Club of California, October 23.
Los Angeles-Phoenix, Maricopa Auto Club, November 24.

Ashlands Defeat Tillamucs.

VANCOUVER, Wash., Feb. 12.—(Special.)—In one of the fastest basketball games played in Vancouver this season, the five from Ashland defeated the Tillamucs by the score of 27 to 14. Two preliminary games were played, in which the Vancouver High School girls defeated the girls of the Felida Athletic Club, 15 to 5, and the High School second team defeated the Felida Club, 22 to 9.

sent to prison, but his troubles with the law are not likely to cause a postponement of the big fight.

Johnson is now under indictment on a charge of assault in the second degree, the allegation being that he broke a chair over the countenance of a small negro named Pinder. If convicted he can be sent to state's prison for not more than five years.

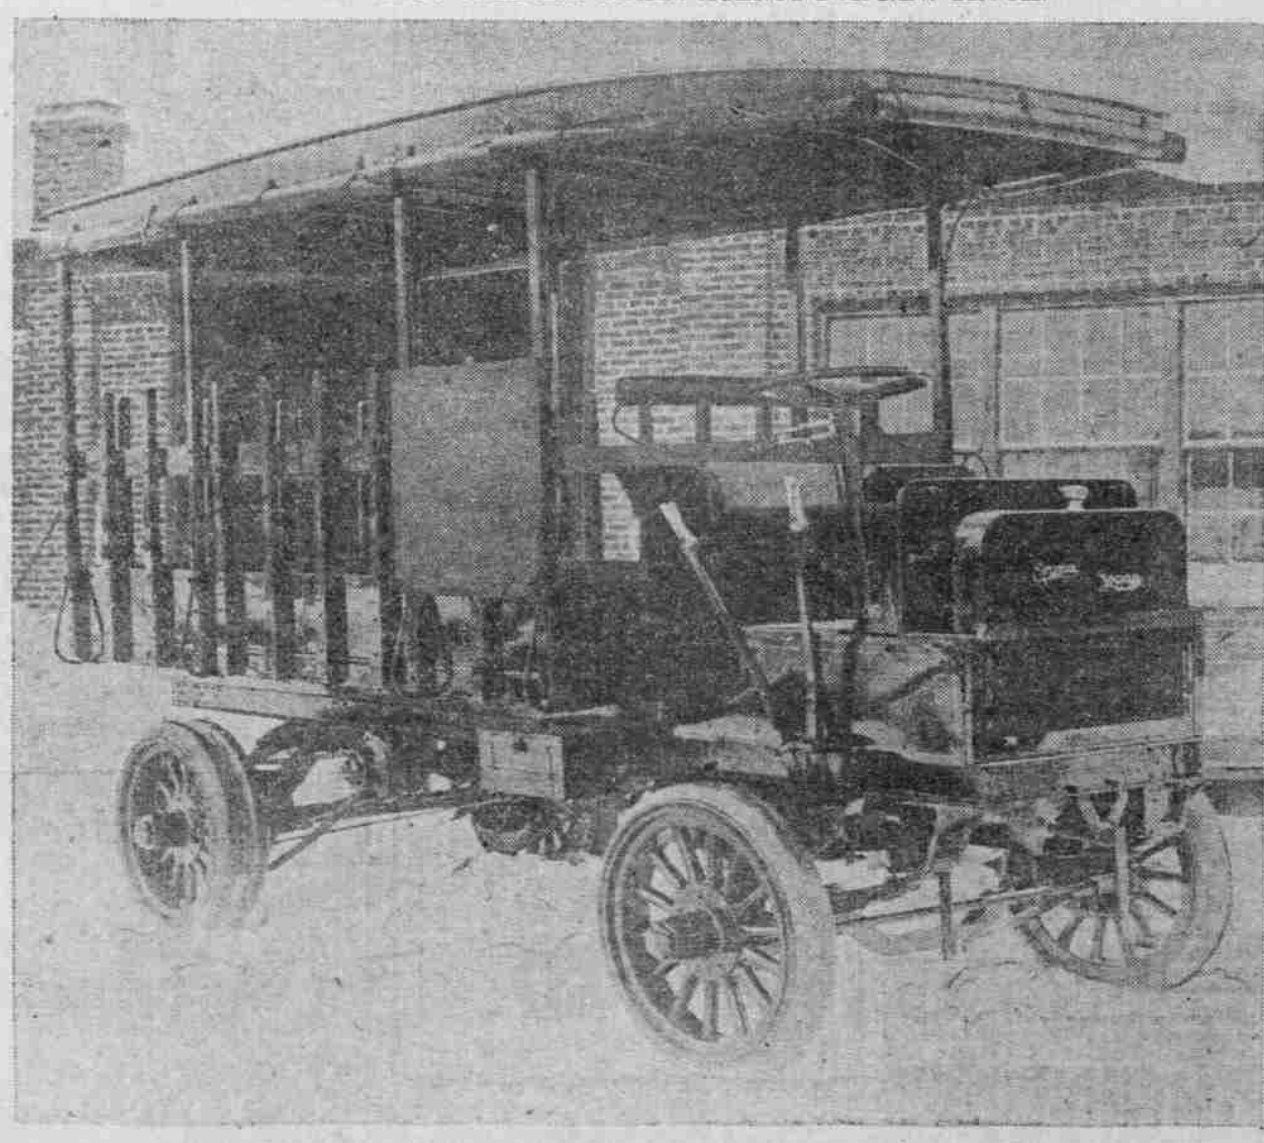

Although the general feeling in New York is that Johnson should be escorted from the arena to the rockpile, sports do not want anything to interfere with the set-to with Jeffries. Under ordinary circumstances, Johnson's case would not have been reached until September. District Attorney Whitman, however, has honored the prizefighter by transferring his case to the criminal branch of the Supreme Court. This means that the trial will take place within a few weeks.

Case Will Be Pressed.

From inquiries made at the Criminal Courts building, it was learned that the District Attorney is determined to press the case. It can be said unofficially, however, that he will not over exert himself to save Johnson from having his "block knocked off" by Jeffries.

According to the court procedure, any person convicted of crime (except it be murder) can be released on bail, pending appeal. If a justice of the Supreme Court will sign a certificate of reasonable doubt, Persons convicted can
