TIMBER SUPPLY GOING FAST

Off foot, Finch, in National Forester, says that at the present rate of cutting this country will soon face a timber famine.

TAKE YOUR CUE FROM WEYERHAUSEN

And get hold of timber while it is cheap. Mr. Weyerhaeuser is reputed to be richer than Rockefeller, by reason of his vast timber holdings. He is buying up stumpage all the time, because he knows the supply is limited and the future profits certain. Timber has made his fortune, as well as many others. Let it make yours.

Eastern stumpage is now selling from $12 to $15 a thousand, and the Pacific Coast timber will advance to this figure in the future.

Do you want to share in the advance?
