PORTLAND CRIMES MAY BE EXPLATED

Gang Arrested in Spokane Believed to Be Perpetrators of Many.

BUCHNER IDENTIFIES TWO

Bush and Howard Declared to Have Held Up His Automobile-Confession of "Jobs" Said to Have Been Obtained by Police.

From advices received yesterday by Sheriff Stevens and Deputy Sheriff Leonard it is thought that the perpetration of nearly 50 burgiaries, holdups and other crimes committed in Portland were the work of the Eddie Bush gang now under arrest in Spokane. Diamonds valued at \$8000 and other loot were found in their

Through the ceaseless efforts of the Sheriff and his chief deputy, Mr. Leonard, since the night of October 15, when Philip Buchner and his family were held up and robbed one-half mile this side of the Twelve-Mile House, information has been gleaned and clews followed showing without a doubt that this gang perpetrated this and other crimes in this city.

Strengthening the suspicions of Deputy-Sheriff Leonard in this regard have been the positive identification of the photographs of two of the men by Mr. Buchner and his daughter and information in a nd his daughter and information in a

long-distance telephone message to Mr. Leonard yesterday from Chief Deputy Sheriff Long, of Spokane, that a confession had been wrong from one of the sus-pects in which it had been said that the "gang" had cleaned up 50 to 60 "jobs" in Portland and that this city had been the scene of their most extensive opera-

The two men identified positively from the two men identified positively from photographs as being part of the crowd which held up the Buehner party are Eddle Bush, who was known in this city as Thomas Howard, alies Eddle Johnson. alias Rogers, and Harry Dewey, alfar Harry Bell, alias "Silm" Brown, alian Henry Brown. Bush knocked out the lights of the Buchner sutomobile with part of a railroad air-brake coupling while Dewey held the revolver on them.

Gang Taken to Scattle.

Deputy Sheriff Leonard and Mr. Bueh-ner will leave for Seattle today on the Shasta Limited for the purpose of mak-ing further identification, the entire Bush

ing further identification, the entire Bush gang. It is said, having been removed yesterday from Spokane to Scattle, where they are also wanted for crimes. Captain of Detectives Tenant, of Scattle, sent this information to Deputy Sheriff Leonard by long-distance telephone.

Only four members of the gang, it is known, were seen by any of the local officers. These criminals first broke into the light in a pistol skirmish engaged in with Patrolman Tom Swennes, one night about 1 o'clock at Lucretia and Washington streets, and throughout King's Heights. Three men were in the party. One is supposed to have been shot in the log and to have made his escape. Eddle Bush and Walter Brennan were captured, and were senienced to 30 days at Kelly's Butte.

at Kelly's Butte. Immediately following their release from the Butte, the Buehner holdup occurred. From Harry Spencer, the night operator at Troutdale, information was had the next day that four men were seen who answered to the description of Bush, Dewey, Brennan and Moore, Later, these men were traced across the Van-couver ferry and to Tacoma. On October 19, four days after the Buehner hold-up, the party was caught on the line of the Interurban beating their, way between Tacoma and Seattle. Brennan had evi-dently abandoned the gang and a man named Miller taken his place. They were taken to Seattle, their photographs ob-tained and were ordered out of town. In two nights an automobile holdup similar to the Buelner robbery took place in Seattle. Dewey has been identified as one of the Seattle holdup men.

Dewey Sentenced to Pen.

Dewey was caught in a holdup at Green Lake. Washington, a short time ago, but the others were allowed to go, their vic-tims being unable to identify them. Contime being tradie to identify takin. Con-victed of this charge, Dewey was sen-tenced to an indeterminate period yes-terday of from five to 25 years in the Walla Walla penitentiary. He is an ex-convict from San Quentin penitentiary, California. He confessed this fact to Captain of Detectives Tenant in Seattle when held under arrest there on sus-

Brennan is an ex-convict out of the penitentiary in Utah, and Eddle Bush, the leader, has served a term in the Walla Walla prison. Little of the crimiof the party now in custody. It is be-lieved that he was with the gang in this From the incomplete information received of the other men in the gang it is not known whether Brennan left them at Tacoma or is one of the party now in

The holdup of Buehner and his party and the one in Seattle were both accom-plished by felling several small fir trees across the roadway, thus putting an obstacle in the way of the car.

Men May Be Brought Here.

The tracing of the men was done by Deputy Sheriff Leonard in several trips to Seattle and by correspondence. When Deputy Sheriff Leonard arrives in Seattle he will, in conjunction with the Seattle officers, determine whether the more im-portant cases are against the men in Seattle or in Portland, and if it appears greater in this city they will be returned

The full details of the confession of the boy. Eddie Curtis, are not known; but, from the information received from Spokane, it is thought that Portland will have first call on them. The capture of the gang is heralded as one of the most important arrests ever made among this class of criminals on the Pacific Coast.

EMPLOYERS TO DRAW BILL

Mean Between Present Liability Act and Labor Measure Sought.

M. C. Banfield, president of the Ore-gon Employers' Association, will ap-point, Monday morning, a committee to draw up a measure that may be re-ferred to the people by means of the initiative at the Fall elections to strike a mean between the law asked by the State Federation of Labor and the

act in existence.

The measure to be asked by the State
Federation of Labor will be a drastic one in fixing on the employer the measure of responsibility and liability for an employe's accidents. While it is felt the present act is unfair to labor, the association contends the one asked by the labor unions -as to the FOUR MEN, CAPTURED IN SPOKANE, SAID TO HAVE COM-MITTED MORE THAN FIFTY CRIMES IN PORTLAND.

SEES A GREAT CITY

Head of Realty Board Pictures Portland in 1935.

COUNT WILL BE 1,250,000

Quarter Century Will Bring Tubes, Tunnels, Double-Decked Streets and 35-Story Buildings, Says Killingsworth at Banquet.

At an enthusiastic gathering of the Realty Board around the banquet taing the feature was an address by W. M. Killingsworth, who drew a picture bold relief before the gaze of those

Eastern Oregon Trip Proposed.

Mr. Killingsworth, the newly-elected president of the board, had the opening address of the evening. He spoke of the growing real estate business in Portland, of the development as he had seen it in the last 30 years and drew a strong comparative picture of the beginnings of Portland and other great cities of the country. He then told of a trip which he had taken into Eastern Oregon and dwelt at length on the great upbuilding and development of that section and of the sure effect which it must have on the development of Port-land. In picturesque language he out-lined the wonders of the great empire to the east of the Cascades and sug-gested a trip in the near future of the entire Realty Board to this district. He promised to take the matter up with Mr. McMurray upon his return to Portland. Continuing, Mr. Killingsworth said:

said:

"I tell you gentlemen, Oregon has a progressive movement on as never before in her history. Lock at the extension of electric lines in the choicest garden spot of the world, the Willametts Valley. All things being considered, it means an additional population of millions of happy, prosperous men and women, a backing most needful and essential to the building of a Greater Portland. "Portiand, since the Lewis and Clark Exposition, is on the map. Portland is a railroad center. Portland is the natural gateway to the Orient. Fortland has the finest freshwater harbor on earth, Portland holds the world's record as the safest harbor, for there has been less insurance puid, based on actual business transacted on the Columbia bar, than any bar in the world. Portland has only started growing, from the fact she is located where railroad, ocean and rivers meet. Portland in time must and will become a manufacturing city of great magnitude, caused not only by her envisable position as a distributing center, but from the fact that millions of electrical horsepower can be centered here, thereby turning cheapity the spindles of industrial life, so when I place the population of Portland 25 years hence at 1,250,000 of happy, prosperous, contented people, I consider I speak conservatively.

"Now, gentlemen, for the coloring of the picture—Portland Twenty-five Years Hence.

Tubes Will Be Needed.

Tubes Will Be Needed.

"You will see a solid-built city from St. Johns on the north, Troutdale on the east, Clackamas River on the south, and at least five miles west of the Willamette River. You will see Portland Heights and surrounding hills, entirely covered by elegant, palatial homes; a hotel covering at least five acres of ground will be located thereon, giving all guests a view unsurpassed on earth. The tourists of the world will flock to this hotel, called the 'Scenic Castle,' for it will be known wide-world as the beauty spot of earth. The southe west side of the Willamette to the foothills a large district on the East side, and all the lands located west of Union avenue between the rivers to St. Johns will be used for business, and will be covered by the beat modern, fire-proof buildings, ranging in height from 10 to 35 stories. Tubes and tunnels must be built for rapid transit, not only under rivers, but there will be a large tunnel constructed in the center of the land between the rivers, starting near the present eastern boundary line of the city, running west to St. Johns. The car lines of the city will be changed, no double-track anywhere, especially in the business district on the West Side. The only practical solution, in my judgment, to relieve the ever-increasing congested condition caused by the narrow 90-foot streets. I now claim the honor of first calling public attention thereto.

Streets Will Be Double-Decked. "You will see double-decked streets, the present streets will be used for cars and heavy

brilliancy than it is now shining and will ever continue to shine on Portland, the New York of the Pacific."

Advertising Cost \$338,000.

The second speaker of the evening was C. C. Chapman, who spoke at length on the methods of advertising, telling the real estate men of the fabnious rewards to be gained therefrom telling that no set rule could be out-lined, but holding that above all the M. Killingsworth, who drew a picture of Portland 25 years hence, which was warmly applauded by the members of the board present. The speaker outlined what was coming in Portland. He spoke first of the past, then of the present and finally of the future, and so convincing were his remarks that the greater Portland seemed to stand in bold relief before the gaze of those would be and has been returned many would be and has been returned many fold. "Constant hammering until re-sults are achieved," was the crux of the

speaker's remarks.

Following Mr. Chapman, Ben Ries-land spoke on the future prosperity of Portland, telling of the difficulties which are presenting themselves daily in the growth of a metropolis, and asking that these difficulties be met now, while Fortland is in its infancy. estate men against clamoring for more

B. Lee Sigler, County Assessor, was the last speaker. He warned the real bond issues, which he said could only result in far greater taxation, and pointed out that Portland was ad-vancing rapidly enough and should not attempt to do everything in the way of development at once and so overburden

ELECTS JAMES PRESIDENT

United Metal Trades Association's Convention Ends With Elections.

The concluding day of the annual meeting of the United Metal Trades Association was held yesterday at the Commercial Club, when the following officers were elected: George James, Variety Iron Works, Seattle, president; W. H. Corbett, Willamette Iron & Steel Works, first vice-president; Gilbert Hunt, Walls Walla, second vice-president; Mr. Roberts, Puget Sound Iron & Steel Works, third vice-president; H. S. Hastings, Independent Iron Works, secretary-treasurer.

The retiring officers were O. E. Heintz, president, and Albert Smith, of Smith & Watson Iron Works, secretary-treasurer.

or Smith & Watson from Works, sec-retary-treasurer.

A banquet was held last night at the Commercial Club, at which covers for 60 were laid. Mr. Hamilton spoke on the works of the trade school and Colonel Sumner, of Everett, and Mr. Corbett gave addresses.

A new city in the heart of a rich, prosperous country. A division point of a great Rallway System. Roundhouses and machine shops already established; trains running on schedule time. No guesswork about this.

LAND IN OREGON

Is everyone's talk by day and dream by night. The capitalist, the investor, the merchant, the mechanic, and even for the day laborer working for wages, talks, dreams

LAND IN OREGON

Everybody knows that there is no safer investment on earth than earth itself, and everyone is convinced that land prices will double and triple in the next three years IN OREGON. There is an immense profit in Oregon land for the next three

years. Don't wait until Eastern capitalists take away from you the profits, while you are dreaming. WAKE UP AND TAKE YOUR SHARE. It is not a question of how large or small are your means. You can take your share in it.

We Want to Form a Syndicate

To buy 15,000 acres of the best selected fruit and wheat lands in the State of Oregon. No hills, no rocks, no waste land, every acre tillable, located in Yamhill, Sherman, Gilliam and Morrow Counties, from 2 to 10 miles from towns and railroad station, on excellent county roads, with running creeks and springs on the land, 30 per cent of this tract in crop, 65 per cent cleared and under cultivation, 5 per cent in fir, oak and ash timber, which will cut 15 cords of wood per acre.

We can buy this land for an average price of \$19.00 per acre, and resell inside of two years in small farms and fruit orchards for from \$30 to \$50 per acre.

We offer in this syndicate to rich and poor, to men and women units at \$25 per unit. You can buy 1, 5, 10, 25, or as many units as you want. Your money will be secured by first mortgage on the land, which will bear 6 per cent interest, besides the profits, which we will pay you according to sales every six months.

Wake up, Oregonians, don't give away all the profits to Eastern capitalists. They have already made millions and millions of dollars on Oregon land.

Come at once; we will show you that we can sell land and make money for you. Our books concerning sales of these lands will always be

open for inspection to members of this Syndicate, Don't wait. Come at once. Here is your chance.
