The results of this old-approved system will go before the people, and the people will judge them in the primary, accept them if they are good and reject them if they are otherwise.

PUBLIC DOCKS AND PRIVATE INTEREST

Agitation for a policy that would commit the city hastily and unadvisedly to the sale of parcels of bonds for public use is doing more than anything else to the efforts of a small steamship company which wishes to compel the city to furnish a dock for its use, at the public expense.

landhunters that this region has ever known. It is the presence of this great empire entirely undeveloped in fact, except in its oldest and most thickly settled regions, that has attracted the attention of Mr. Hill, one of the most prominent industrial figures of the country.

NORMAL SCHOOL TROUBLES REVIVING

Neither will electors of Oregon gain satisfactory solution of the normal school trouble through direct legislation. Bills are being initiated for re-organization of the institution at Weston, Monmouth and Ashland.

This is also a magic number. Thus there are four gods of the wind, four ideas to the celestial city, three times four tribes of Israel and exactly as many disciples, as well as four seasons of the year, four weeks in the month and four quarts in a gallon.

REDMOND'S JUST PROTEST

A strong protest has been made by John Redmond, the Irish Nationalist leader, to Premier Asquith against the proposed bill to be taken by the King before Parliament.

electric wires. Reckoning each dwelling fifty feet long, a road town of a hundred miles length would house 10,000 families, and if in each family there were five members, the entire population of the structure would be 50,000 persons.

SOMETHING NEW IN DWELLINGS

The thought of living in a house a hundred years old is not new. But, first, but within a few years it is likely to take place among other commonplace wonders of the times.

had been hardly enough to make it. But ludicrous or not, it has come true. Mr. Roosevelt is not unaware of the parallel between the present condition of the separate nation and that of pioneer roughs living without much law on the frontier.

BE NOT TOO BOLD

It is not wise to believe too confidently that the comet as it draws near the earth will exercise no influence upon our affairs. The opinion is that it is a huge ball of gas shaped like a globe.

MR. HILL AND CENTRAL OREGON. Why He Will Develop the Great Valley in Oregon.

THE VANISHING LEGION

New York Mail. With the approach of Memorial day there is a renewal of the suggestion that the veterans of the Civil War should be given a day of rest.

NON-PARTISAN HUMBUNG

The Multnomah Bar Association has made the ludicrous announcement that lawyers should choose the people's judge and that name of the people's political parties should name candidates for the judiciary.

RECURRING TROUBLES IN CUBA

Matters in Cuba are falling into such bad mess again that it is becoming plain the United States made a second mistake when it withdrew its troops from the island the second time.

HILL THE TRAFFIC-MAKER

The earnings of the Harriman property in the Oregon have always ranked high among the country's. The enormous grain crops formerly moved to tide-water from the Willamette Valley formed the original traffic.

IMPROVING OREGON'S SYSTEM

That "speech" of Senator Bourne's told wonders of the Oregon "system," that made its auditors marvel yet again. It displayed the fine fruits of the system—two Senators, one a Democrat and one a Republican.

SPokane's Back-Doubt

Yakima Register. The Spokane City Council, in deference to the wishes of the people, has reversed itself on the question of giving the National League & Minor Leagues the right to come into the town.

Reason for Jealousy

Kansas City Star. Federal proclamation of George V as King of the United Kingdom today by the "York Herald." This will be sure to make Mr. Pulitzer and Mr. Hearst sore.

Room for More

St. Louis Post-Dispatch. Hell may be full of politicians, as Dr. Parkhurst says, but doubtless there is room for one or two more.

REPUBLICAN HUMBUNG

But men chosen for judges will be either Democrats or Republicans, their principles or purposes will be those of one of the parties or the other; and it would be a sorry time if they should ever be guided by the principles or purposes of lawyers in meeting out justice to the people.
