UNION RUNS DOWN AGENT C. M. Haybl, Accused of Theft, Arrested in Nevada City.

Cecil M. Haybi, business agent of the time ago, after having cashed a check for \$775 belonging to the labor organi-ization, has been arrested at Nevada City, Cal., according to advices received

by the Portland union Three years ago Haybl was sent here o superintend a strike instituted by to superintend a strike instituted by the Portland painters, and while in the capacity of their agent, it is charged, made away with numerous sums of money, though the count on which he has been arrested is based on the cashing of the \$775 check. He was traced to Nevada some time ago, but managed to disappear from there before he could be arrested. His capture at Nevada City is the result of persistent efforts of the Portland union to apprehend him. He is said to have deserted his wife and family in San Francisco, after leaving Portland. Arrangements are now being made for his return to Portland for trial.

Others Change Places.

There were two shakeups yesterday in the order of things. Don Tarpley and Harold Meier exchanged places, young Meler going into third place and Tarpley, for whom the voting was strong on Fri-day, going back to the fourth position Save for these changes there were no reversals in the order of the eight leaders, but the ninth man is a dark horse whose sudden advent to that position from 33d place has caused a commotion in the ranks. He is Frederick Porter, who kept in the background until yesterday. He held 125 votes on Friday night and now comes forward with 1976 votes. Porter's rise has put Clymer Noble down to tenth place and has forced Crosby Shevelin clear out of the list of leaders. The voting to last night was as follows:

GUILD ARRANGES FOR BOND

New Receiver at Vale Prepares to Take Office July 1.

H. G. Guild, who was recently appointed receiver of the land office at Vale, Or. a newly-created land district, has been spending the past few days in Portland awaiting the arrival of his bond from Washington, D. C. Receiver Guild expects to leave about the middle of the week in order to assume charge of the

office about July 1. The district of which he will have charge has been created out of the old La Grande and Harney districts, and comprises, for the most part, arid land which can be improved by irrigation. As there are several good-sized rivers in that section of the state, the already numerous irrigation projects will be increased ex-tensively. Much of this land can be taken up as desert land, and many settlers are commencing to realize the advantages of irrigation and irrigated lands as well as what is known as "dry farm-

What \$100 Buys at Lake Lytle, Portland's **Nearest Beach Resort**

LOCATION

Stop and think what made Coney Island, Atlantic City and Manhattan Beach, the popular watering places of the Atlantic Coast. There is only one answer-their accessibility to the large cities.

That's what makes Lake Lytle popular, but that's not all. The above sketch shows just where the P. R. & N. R. R. crosses Lake Lytle. It's right where the railroad and all the roads of Tillamook County meet at the Pacific

Mr. Lytle, president of the P. R. & N., in going over the survey of the road to Tillamook City, realized the many advantages of the Ocean, a beautiful fresh-water lake with magnificent Garibaldi Beach between them. It afforded every attraction which resort patrons could command. He at once acquired the property, including the lake, had the beach platted, and it is now offered to the public as beautiful Lake Lytle.

A Large Lake

It is 1300 feet wide and 2600 feet long. It lies about 1000 feet back from the ocean. Lake Lytle lots are platted on this 1000 feet of beach. Can you paint a prettier picture? The ground around the Lake is covered with beautiful spruce and pine trees, which offer ideal building sites for cottages.

The Lake is pure mountain water, has a hard sand bottom and is warm in the shallow inlets. Being protected as it is from the winds, it is ideal for bathing, safe for boating and fishing-just the place for the women and children.

WHAT \$100 BUYS

A lot 50x100 feet, covered with beautiful shade trees, graded streets, pure mountain water, all within a few minutes' walk of a railroad depot on the property. Sold on very easy terms.

If you want one of these lots write or call this week. The railroad will shortly be in operation between Portland and Tillamook. Before it is, Lake Lytle will be sold out. Now is the time to buy. Leave it for two months and you cannot buy without paying a speculator something on top of present prices for his foresight.

If you knew that an investment of \$25 now would buy you a \$100 lot, which in one year, say next Summer, with the railroad carrying thousands of tourists into Lake Lytle, would command a price of \$300, would you buy? That's what you may expect of Lake Lytle. Call upon us for a plat, a price list and particulars.
