Bristow Says Issue Is Joined Between Interests and People in Congress.

CORPORATE GREED FOUGHT

Kansas Insurgent Senator Sounds Slogan and Exults Over Defeat of Cannon-Calls on Kansas to Strengthen Insurgents.

WINFIELD, Kan., July 9.—Emphatic-illy declaring that the fight of the progressives" had only just begun, United States Senator Joseph L. Bristow, of Salina, delivered here his first public utterance since his visit, Saturday last, with Representatives Murdock and Madison to Oyster Bay to confer with Colonel Theodore Roosevelt. "The House 'progressives,' " sa

Senator, "have made great progress. They have practically overthrown the domination of Cannon and the men who surrounded him. But," he added significantly, "the great work is but

fairly begun."

Mr. Bristow's speech was delivered at

Mr. Bristow's speech was delivered at the Winfield Chautauqua. He analyzed the tariff and sketched the work of the "progressive" Republicans in amending The railroad bill. There never had been a time in American distory, he said, the average citizen than today. The country had never faced problems more perplexing. The fundamental question to be determined by when greater responsibility rested upon to be determined, he asserted, was 'should this Government be adminis-tered in the interests of the average man, or for the benefit of special priv-

*Conflict Is Fundamental. The conflict in American politics today," argued Mr. Bristow, "Is based upon the same fundamental principle:

as was that which preceded the Civil War. The corporate interests of the country have dominated the affairs of The Nation as completely as did the glave interests in the days of its greatest strength. Just as every effort made for the restriction of slavery was resisted by the slave trade, so every effort to protect the people from the injustice of corporate greed is resisted the great corporations of this coun-

"The representatives of the slave power had seats in the halls of Con-gress and contended for the perpetuity of slavery because of their financial interest in the institution. And now the gigantic monopolies of this day have representatives in the halls of Congress, whose sole purpose is to promote their interests and keep open the opportunity which they have now to bind the the American public. under the American public.

Tariff Illustrates Issue.

this was forcibly demonstrated in the tariff fight a year ago. The Republican party, in its National convention, declared for a revision of the tariff maintaining the principle of protection ind further stated that tariffs should be based upon the difference in the cost of production at home and abroad, plus sonable profit to the home manu-

the fight, and I believe that nine-tenths of the Republicans throughout the land expected the pledge to be carried out in good faith. This, I believe, would have been done had it not been for the perfidy and selfishness of certain designing legislators who were more desirous of favoring special interests than of promot-

ing the welfare of the people.
"Under the leadership of these men, instead of revising the tariff as was promised, duties were fixed not with a view of protecting legitimate American industries or of securing revenue for the Government, but for the purpose of promoting the financial interests of certain andividuals or concerns.

Great Work Only Begun.

The great work before us is but fairly begun. This year we had to fight as hard to hold what had been secured in years past as we did to get additional legisla-tion. To hold what we now have and secure these other necessary provisions is the fight for the future. It cannot be won without the determined support of

the people.

"Our hope is in the intelligent and pairlotic purposes of the people themselves. The combined influences of criminal selfishness and greed are great. Their means are unlimited, but if the people will select as their representatives in Congress men with not only the inclina-tion but the courage to stand against the powers of greed and evil, right will triumph; and as a Republican I want it to triumph under the banner of the old Republican party.

Appeal Made to Kansas.

"I appeal to my fellow-Republicans and ito all good citizens to give us their aid. The responsibility is with you and the results are in your hands, and I have an abiding confidence in a trium-

"Let Kansas in the coming primary declare for progress and reform, and let that declaration be made with such emphasis that it will be heard from ocean to ocean and from the Lakes to the Gulf. You should not only uphold the hands of the men who have fought the good fight, but add a goodly number of sturdy re-cruits to their ranks and by so doing you will have rendered a patriotic service to your country."

NORRIS SCORES JOE CANNON

"He Will Never Be Speaker Again," Nebraskan Tells Chautaugua.

LAS ANIMAS, Colo., July 9 .- "Joe Cannon is 20 years behind the times. He will never be elected Speaker again," declared Congressman George W. Norris, of Nebraska, in a talk here today at the local Chautauqua.

Mr. Norris declared that an effort would

be made to elect as the next Speaker a man who will "act as Speaker and servant of the House insteads of its master." He declared that Cannon would rather see a Democratic House elected than a "progressive" Republican House; that the true-blue Republicans of the House are the progressives, and that party pledges were fulfilled because the progressives held the balance of power,

Discussion of Reorganization of Supreme Court Is Avoided by Judges at Chicago--Funeral Exigencies Are Peculiar.

CHICAGO, July 9 .- (Special.) -- Important information concerning the rocess of re-organization that the Suundergo as a result of the death of Chief Justice Fuller was brought to light today through the presence in Chicago of five associate judges, who came to attend the funeral of their late chief.

Although none of the justices was willing to discuss the subject, they are said to be aware that the choice for the chair of Chief Justice will not fall upon any of them unless time-honored custom is abandoned. The situation as now seen, is as follows: The new Chief Justice probably will be the control of the chief that it is not below the control of the chief that is not below the chief that is not below the control of the chief that is not below the chief that the chief that the chief that the choice for the chair of the chief that the choice for the chair of the chief that the choice for the chair of the chief that the choice for the chair of the chief that the choice for the chair of the chief that the choice for the chief that the chie Chief Justice probably will not be one of the men who now are associate justices. To Keep Up With Growth, Raymond Company Gets New Machinery.

RAYMOND, Wash., July 9.—(Special.)— To keep pace with the growth of Ray-mond, the South Bend-Raymond Electric Company has installed a new 1100-horse-power General Electric turbine genera-tor of improved pattern. The problem of how to procure wood fuel in sizes suitable for purpose of power generation has been solved by putting in a 'liog chip-ping' machine for chopping slab wood to chips. This reduces the force by 15 men and, in consequence, the expenses, and increases the capacity of the plant by more than twice its former output. The company has also put up a com-plete conveyor system, connecting the plant with the Siler Mill Company, thus receiving fuel without loss of time in transportation. These improvements makes this one of the most complete of the small plants in Washington.
