

REPUBLICANS ENTHUSE; NAME STRONG TICKET

Open Assembly Finds Favor and Unites Party in Multnomah.

DETRACTORS PUT TO ROUT

Platform Affirms Accord With True Principles of Direct Primary.

ADMINISTRATION IS INDORSED

C. N. McArthur and Louis G. Clarke Favored as Senators

SOME CONTESTS DEVELOP

Counting of Ballots for Representatives Proves Long Task and Adjournment Is Taken Until Monday Night.

THE TICKET INDORSED BY MULTNOMAH REPUBLICAN COUNTY ASSEMBLY
State Senator, Multnomah County—C. N. McArthur.
Joint State Senator, Multnomah, Clackamas and Columbia Counties—Louis G. Clarke.
Joint Representative, Multnomah and Clackamas Counties—John B. Latourrette.

Representatives of Multnomah County's Republican electors met yesterday in assembly at the Masonic Temple Hall in a magnificent response to the general awakening of party loyalty and held the foundations of renewed party success and achievement.

ASIDE FROM INDICATING A HEAVY ACCORD WITH THE FUNDAMENTAL PRINCIPLES OF THE DIRECT PRIMARY LAW IN OREGON AND ENUNCIATING THE PRINCIPLES FOR WHICH THE REPUBLICAN PARTY STANDS, THE ASSEMBLY DISCUSSED A LONG LIST OF MEN PRESENTED FOR THE VARIOUS COUNTY OFFICES AND RECOMMENDED THOSE DECIDED UPON AS FITTEST.

THE PRESENT INTERESTING POLITICAL SITUATION GIVES HARRY MURPHY AN OPPORTUNITY TO DRAW A FEW LIVELY PICTURES.
POLITICAL BOSS, PRIMARY STUFFER, INEFFICIENT OFFICE-HOLDER.

PORTLAND SECOND IN WHEAT EXPORTS

NEW YORK ALONE SURPASSED ROSE CITY LAST YEAR.

Though Aggregate Decreases It Stands Higher in Rank—Puget Sound Leads in Flour.

OREGONIAN NEWS BUREAU, Washington, July 16.—Portland rounded out the fiscal year ended June 30, 1910, with heavier wheat exports than any other city or customs district in the United States, except New York, according to figures made public today by the Department of Commerce and Labor.

Portland's total wheat export for the year just closed amounted to 5,770,219 bushels, valued at \$5,592,765, which, while lower than that of the year previous, permitted her to move into second place, where a year ago she stood fifth, though her total shipments to foreign lands that year were 6,250,223 bushels.

Puget Sound ports collectively exported during the year just closed 4,566,951 bushels of wheat, valued at \$4,524,271, as against 4,830,174 bushels in the year previous, being one of the few districts showing greater exports this year than last.

On flour exports Puget Sound far distances Portland, having exported last year 1,280,681 barrels, or 250,000 barrels more than in 1909. Portland's flour exports for the past 12 months was but 217,469 barrels, as against 552,423 barrels a year ago.

MONORAIL TRAIN WRECKED

New Interurban Service Proves Failure on First Trip.

NEW YORK, July 16.—Twenty persons were injured, only one seriously, in the first commercial trip this afternoon of the new monorail service between City Island and Barlow, in the suburbs of the Bronx.

Howard Tunis, the inventor, who was motorman, broke a rib and one passenger broke a leg. The latter was taken to a hospital.

Although described as a monorail, the only car the company yet owns did not depend for its stability on a gyroscope. For support and traction it ran on a single rail, but twin guide rails overlaid hung between two pillars and lateral braces on either side of the right of way held it in balance.

While the car was running 30 miles an hour one of these guide rails worked loose and the car tilted 40 degrees, pitching the frightened passengers in the lower angle. The pillars at either side of the car prevented it from toppling entirely.

YOUTHFUL HERO REWARDED

Louis Spreckels Will Take Lifesaver Into Sugar Business.

NEW YORK, July 16.—Louis Spreckels, head of the Federal Retailing Company of New York, N. Y., has taken under his care William Schoelmeyer, 15 years old, who nearly lost his life in May by saving a 10-year-old boy from drowning in the Hudson River at the Federal Refinery dock. The boy will be schooled in every branch of the sugar business.

Young Schoelmeyer accomplished the rescue while a dozen men stood helplessly by. It was the fourth rescue from drowning the boy had made in as many years, and Mr. Spreckels was so impressed by the lad's heroism that he gave him employment in the refinery and brought his deed to the attention of the Life-Saving Benevolent Association of New York.

Schoelmeyer made his first rescue when only 11 years old. Then he saved the life of a companion, who had been seized with cramps while swimming. The following year he rescued his brother and another boy, who had broken through the ice while skating.

FILM FIGHT STATE WIDE

Salem Organizations Call on Attorney-General for Opinion.

SALEM, Or., July 16.—(Special).—The Good Government League and the Ministerial Association of Salem will call upon Attorney-General A. M. Crawford for an opinion on stopping the exhibition of Jeffries-Johnson fight pictures, not only in Salem, but all over Oregon. They have just reached the decision that they will endeavor to make a state-wide campaign. They will call on the Attorney-General to ascertain whether showing the fight pictures is not in contravention to section 1235 of the code, in which it is set down as a crime to give any exhibitions of pictures which are of an indecent or an immoral nature.

DOUGLAS COUNTY HOLDS ASSEMBLY

County Ticket to Be Put in Field

BEST MEN FORWARD IS IDEA

Party Will Support Nominees of State Meeting.

ROUSING SPEECHES MADE

Gathering of Republicans Is Most Enthusiastic Ever Seen in Roseburg—County Nominees to Be Named July 30.

ROSEBURG, Or., July 16.—(Special).—Declaring its intention to support candidates for state offices who are in sympathy with the assembly plan, and endorsing the Administration of President Taft, the Republican county assembly, which convened in Roseburg this afternoon, proved the most harmonious and enthusiastic political meeting ever held in Douglas County.

In the neighborhood of 100 delegates were in attendance, as were hundreds of spectators who joined in making the occasion one of special prominence.

F. E. Alley Presides.

The assembly was called to order by Frank E. Alley, chairman of the Republican county central committee, while B. F. Steele, a local attorney, acted as secretary. Both men were later elected permanent officers of the assembly.

Upon affecting a permanent organization, committees on credentials, resolutions, platform, and the nominating of delegates to the state convention, were appointed by the chairman, and immediately assumed their respective tasks.

The committee on credentials reported 39 delegates entitled to seats on the floor at the opening of the session, but later in the afternoon, that number was swelled to 100.

42 State Delegates Chosen.

The committee selected to nominate the 42 delegates to the state assembly reported, after two hours' deliberation, and recommended that the following men be elected as delegates:

- Roy Smick, R. A. Preston, John E. Love, A. L. Aikens, F. W. Meyers, J. B. Riddle, R. R. Booth, Ben Huntington, Sr., A. F. Stearns, Dwight Reed, Benton Mires, Warren Reed, A. C. Marsters, J. H. Booth, B. W. Bates, J. D. Zurcher, J. F. Barker, A. T. Marshall, E. B. Hermann, George M. Brown, A. N. Orcutt, George Neuner, A. C. Seely, F. E. Alley, E. L. Parrott, K. L. Miller, S. S. Josephson, George E. Houck, W. T. Emory, A. L. Butler, W. L. Nichols, Roy Griggs, John Alexander, E. W. Kuykendall, C. S. Jackson, James Cole, R. W. Marsters, R. T. Blakeley, Rafe Dixon, Phil Huntington, J. W. Perkins and W. W. Cardwell.

Unit Vote Is Opposed.

The nominating committee also made recommendations they be instructed by the assembly to vote as a unit at the state assembly, but this request was turned down, after a prolonged discussion, in which nearly every delegate assumed an active part. The delegates named by the committee were confirmed by the unanimous vote of the assembly.

The committee on resolutions submitted but one resolution, which was adopted, as follows:

"Be it resolved by the delegates representing the Republican voters of the various precincts in the county that it is for the best interests of the Republican party that careful consideration be given at the primary election to the placing in nomination of the best possible candidates for the various offices, and that such candidates be placed before the people of the county as the representatives of the Republican party. Therefore, be it further resolved, That the assembly, when it adjourns, shall adjourn to meet at the Courthouse (Concluded on Page 5.)"

ALFALFA IS SHOWN AS NEW CURE-ALL

CONDENSED HEALING ELEMENT SOOTHS TIRED NERVES.

Los Angeles Doctor Puts Essence of Haystack in Tablet and Cures Delirium Tremens.

LOS ANGELES, Cal., July 16.—(Special).—Alfalfa, hitherto holder of a plebeian place in the food scheme, is destined to become a comprehensive medicative and remedial element that will put all others in the shade, according to Dr. Marlan N. Clark, who announces the discovery of remarkable curative properties in the plant and blossoms.

His idea, already carried out on a small scale and suggested by the method industry, is to electrolyze the alfalfa and condense its healing elements to vest-pocket size—a haystack of medicine in a tiny tablet.

Dr. Clark proudly recounts many instances of curing with the condensed alfalfa juice many nervous ailments, from delirium tremens to "that tired feeling."

One of these was the aggravated case of Reno sport, who bet on Jeffries and drowned his sorrow in so many tail ones that the cobra came to get him. The condensed-hay expert beat 'em to it and cured the victim so effectively that now he shudders at sight of even a dog, if the dog is a growler.

Tobacco chewing, gloomy thoughts of suicide, insomnia and a host of other undesirable things fade away like the mists of the morning under the soothing influence of a few forkfuls of alfalfa done up in a tablet.

CUPID ACTS IN A HURRY

Civil War Veteran and Widow of Old Soldier to Marry.

ANACORTES, July 16.—A pretty romance will have culminated on July 26 in this city, when Mrs. Marion Brown will be married to Henry Clay MacFarland, Mr. MacFarland is a veteran of the Civil War, and an old pioneer of Oregon. He is also a prominent business man of Moscow, Idaho.

During the last winter he was spending a vacation in Los Angeles and local friends asked him to come here to assist in the musical portion of the Decoration day program rendered by Emory Post, G. A. R. It was while on this trip he became acquainted with Mrs. Brown, herself one of the most popular women in this city, and a widow of a Civil War veteran.

It was evidently a case of love at first sight, as within the last few days close personal friends received cards announcing the wedding. Mr. MacFarland is 68 years of age and was the first man to enlist in the Company A, First Oregon Infantry, in the Civil War.

BRIDE'S NAME FORGOTTEN

Missourian Has to Be Shown When He Asks for Marriage License.

SALEM, Or., July 16.—(Special).—When J. J. Stransburg, 48 years old, appeared at the County Clerk's office this afternoon to secure a marriage license, things went swimmingly until he forgot the prospective bride's name. It was several minutes before he could muster his memory sufficiently to give a full answer to the deputy's query.

He finally remembered that she is Mrs. Lida M. Carter, 35, a resident of Salem. Stransburg came here from Missouri purposely to claim his bride. When they were young they were sweethearts, but were separated by some trivial lovers' quarrel and each of them married, passing from one another's sight. Not long ago Stransburg learned Mrs. Carter's whereabouts and as they had lost, respectively, wife and husband by death, he came to Oregon to renew the old affection.

SHOT IN PLAY MURDERS

Oklahoma Men Arrested; Charge "Knew Gun Was Loaded."

MUSKIGEE, Okla., July 16.—E. D. Booker and Everett Olden were arrested here today, charged with conspiracy to kill Jacob Winkler at Stone Bluff, in a literary play last Tuesday.

In the play Olden pointed a revolver at Winkler, and it was discharged, killing him. The weapon had been handed to Olden by Booker, and both say they thought it was not loaded.

Winkler's father swore out a warrant charging that Booker placed a loaded cartridge in the revolver an hour before Olden used it and that Olden knew the weapon was loaded.

CANNON COLLAPSES FROM GREAT HEAT

"Uncle Joe" Sinks Down While Giving Speech.

THERMOMETER STANDS AT 105

Speaker Suddenly Grows Pale, Totters to Chair.

RECOVERY COMES QUICKLY

Venerable Statesman Is Delivering Address to Chautauqua at Winfield When Attack Comes—Insists on Continuing Tour.

WINFIELD, Kan., July 16.—In the middle of an address he was making before the Winfield Chautauqua here this afternoon Speaker Joseph G. Cannon, of the House of Representatives, suddenly suffered a temporary collapse and was compelled to stop speaking.

The speaker had been speaking for an hour and a half under a broiling sun, with the thermometer at 105 degrees, and had just taken up the Payne tariff bill when he grew suddenly pale and his head sank to his chest. He reached back and took the ice from a pitcher and placed it to his head. Finally he was able to say: "Excuse me, I am overcome," and tottered to a chair.

Heat Is Too Much.

Within a few seconds he had recovered sufficiently to arise and apologize briefly to the audience.

"I cannot talk longer," he almost gasped. "There are many things I should like to have said, but I cannot. I am overcome with the heat."

Friends rushed forward to him and an electric fan was turned on the speaker. Water and ice were procured and the platform was cleared of the curious. The audience remained intently quiet. Finally "Uncle Joe" and a friend on either side of him said: "I am sorry I can't continue, but I have been through three years of hard work and worry, and this intense heat has been more than I can stand. I am better now. It is nothing serious. I thank you." He sank back.

Speaker Himself in Hour.

Within a few minutes he was driven in an automobile to the home of J. T. Rafferty, whose guest he is. An hour later Speaker Cannon had so recovered that he was greeting several gentlemen who had called to see him and seemed to be himself again.

Accompanied by Congressman Phillip Campbell and declaring he was "not a bit sick," Speaker Cannon left here tonight for Arkansas City, where Campbell was scheduled to spend the night. The speaker had recovered from his collapse and insisted upon making the trip.

Physicians Urge Rest.

Speaker Cannon's physicians urged him tonight to abandon his Kansas speaking tour. The speaker, however, seems determined to continue it, and to interviewers he said he would decide tomorrow. Mr. Cannon feels that he is strong enough to continue his tour, and that today's collapse was due to the excessively warm weather, which he was not used to.

Mr. Cannon had sufficiently recovered by the time he had reached the home of Mr. Rafferty to say a few words to his friends and the newspapermen.

"It's all right," he said. "Nothing to it, boys."

Cannon Tired Before Collapse.

Speaker Cannon appeared tired when he reached here today. His all-night ride from Kansas City and the excitement incident to his debate with Clifford Hitchcock before the Knife and Fork Club at Kansas City last night, together with the hot weather, seemed to unnerve him. It (Concluded on Page 2.)

ALASKAN VOLCANO BECOMES VIOLENT

UNIMAK ISLAND MOUNTAIN IS MASS OF FLAME.

Only White Men at Place Are Two Lighthouse Keepers—Eruption Seen for Great Distance.

SEATTLE, July 16.—Mount Shishaldin, Alaska, on the eastern end of Unimak Island, has lighted its gigantic torch again, according to news brought by the steamer Montara, which arrived from Nome today. The Montara first sighted the burning mountain on the morning of the ninth when the steamer entered Unimak Pass. The sea was turbulent as it disturbed by some seismic movement.

A clear column of flame hundreds of feet high, without smoke, blazed from the volcano's crater. After passing through Unimak pass, Captain J. O. Farria turned the Montara east so as to pass along the south side of the island.

When 50 miles away from the volcano the officers of the ship could see through the glasses that there was snow to within a few feet of the edge of the flames, and that torrents of water made by the rapidly melting snow, were tearing channels in the steep sides of the mountain. Later in the day smoke began to belch forth with the flames. The snow became blackened from the deposit.

Aside from a few Indian fishermen, the only men on Unimak Island are two lighthouse keepers at Scotch Cap. The lighthouse tender America will not bring news from them for a month.

Mount Shishaldin is a snow-capped mountain of volcanic form, over 6000 feet high. On the one end of the island is the Pogromni Mountain, which is always in partial eruption. The Montara saw no activity on Pogromni.

A cable dispatch from Valdez, Alaska, to the Associated Press says that a volcanic sand island has arisen in the lagoon formed last year when the Aleutian volcano Bugosof threw up a reef enclosing a portion of the sea.

BOY FALLS INTO BALLOON

Youth Breaks All Records by Dropping Clear Through Gasbag.

LOS ANGELES, July 16.—(Special).—Within 20 seconds and 50 feet, Roy Field, an amateur, broke all balloon records of the kind today. He fell in at the top of an immense captive gasbag and was taken out of the appendix nearly asphyxiated, but not otherwise injured.

Incidentally he liberated 80,000 cubic feet of lifting fluid, which cost his employer, J. M. Burns, \$4. He landed in such a way, too, after his long tumble, that the balloon had to be cut to extricate him.

This is supposedly the first time a man has been clearly through a balloon. Field had climbed to the top of the rigging to straighten out a wrinkle in the silken envelope. His foot slipped and made a rent, and down he went through it. The rushing gas affected him so quickly that he could not reach to the cordage. It was like falling on a feather bed, however, for when he struck the silk had not broken. He was limp for an hour.

FORMOSA IS UNDERRATED

Japanese Losses Reported Heavy in War of Subjugation.

VICTORIA, B. C., July 16.—That the recent fighting between Japan and Formosa in the Hsin districts of Formosa was heavy and that the enemy was underrated is shown by details brought by the Empress of China today.

Japanese newspaper state that on June 21 the Japanese forces succeeded in extricating the van of the subjugation army which had been cut off and surrounded on Mount Bonhom. Captain Kawada, commanding the Japanese advance, was killed as was also Lieutenant Nawa. Several other Japanese officers and 100 of the rank and file were killed. The fighting was at close quarters and most of the Formosans killed were slain with the bayonet.

The engagements are fought in mountain districts. Major-General Chara has been sent with reinforcements from Japan and a larger campaign of subjugation will be undertaken, which is expected to occupy five years.

Negro Blood Vexes Aristocrats.

ELIZABETH, N. J., July 16.—The appointment of Mary Malson, a girl of negro and Indian blood, as teacher in primary school No. 7, has agitated the white residents and protests are being made to the members of the board of education. She will teach a class of white children. The school is located in an aristocratic neighborhood. Miss Malson is almost white and is very prepossessing.

DEATH TOLL HEAVY IN BURNING EAST

Heat Crowds Hospitals in New York City.

SEVEN DIE IN 24 HOURS

Scores Prostrated and Exodus From City Results.

LITTLE RELIEF PROMISED

Period of 27 Days of Sweltering Weather Results in Record-Breaking Mortality—Poorer People Camp on Sands.

NEW YORK, July 16.—(Special).—The hot weather continues to take its toll of death in this city. Seven persons were reported to have died within the 24 hours ending at 8 o'clock tonight, while the prostrations exceeded 40. Hospitals were crowded with sufferers from the heat or from ailments due to the heat, and the report of the bureau of vital statistics told of a record-breaking mortality among very young children. It exceeded the same period of last year by nearly 200.

New York City suffered its 57th day without a cooling rain today. There had been spurts of rain in distant parts of the city during this time, but not one earth-cooling shower.

The weather bureau could not promise any relief until some time Monday, although it said there might be thunder showers Sunday. But Monday a slightly cooler area which formed a week ago in the Rocky Mountain region, it was thought, would arrive and send down the temperature, while reducing the humidity.

The exodus from the city today was exceeded only by the holiday rush on July 4. Families who were unable to afford hotel bills were departing with preparations made to camp all night in the sands.

The more prosperous were bound for all points of the compass.

SPOKANE HAS HOTTEST DAY

Temperature Saturday Goes to 97 Degrees in Inland City.

SPOKANE, July 16.—This was the hottest day of the season here. The temperature between 4 and 5 o'clock this afternoon was 97 degrees.

MRS. YERKES WINS SUIT

Chicago Traction Directors Liable for Payment of \$5,669,530.

CHICAGO, July 16.—Chicago's traction middle yesterday assumed a new aspect when the nine directors of the Chicago Railway Company were informed by attorneys for Mrs. Mary Adelaide Yerkes, that they are fully liable for the \$5,669,530 indebtedness to the estate of the late Charles T. Yerkes.

This coup was sprung by Mrs. Yerkes' attorney at a hearing before the Probate Court for the withdrawal of the consolidated bonds of the Yerkes estate from the reorganization committee of the Chicago Railway Company.

In addition, the prediction was made in open court by Mrs. Yerkes' lawyer that the Chicago Railway Company will never dare carry the so-called Hartly judgment, recently returned by Judge Ball in favor of Consolidated bondholders, to the Supreme Court. Instead, it was declared, full value would be paid to the bondholders.

"The Chicago Railway Company is capitalized for \$100,000," said Attorney Levi Mayer, representing Mrs. Yerkes. "It has acquired a bonded indebtedness of \$62,000,000. The company is a solvent property and is worth \$75,000,000. Under the laws of Illinois, directors are personally and individually responsible for this \$60,000,000. If the company is not solvent and cannot pay judgment on \$6,750,000 the directors are liable."
