

FRAUD IN DIVORGE BASIS OF CHARGE

Former Wife Sues Louis Lang That Decree May Be Set Aside.

TROUBLES ARE REVIEWED

Mrs. Lang Accuses Former Husband of Conspiracy and Wrongdoing in Legal Proceedings for Separation.

OREGON CITY, Or., July 16.—Charging conspiracy and fraud on the part of her husband, Louis Lang, and his brother, L. Lang, both prominent business men of Portland, Mrs. Alice Marie Lang this morning filed a suit in the Circuit Court of Clackamas County to set aside the decree of divorce obtained by Louis Lang in Oregon City May 21 last, to restrain Lang from claiming that by virtue of the decree of divorce he is not her lawful husband, that the marriage settlement contract of property rights be declared fraudulent and void, and that Alice Marie Lang be decreed the wife of Louis Lang, Otto Irving Wiles, of San Francisco, and Henry E. McGinn and R. Citron, of Portland, appear for Mrs. Lang in the case.

Twenty-six pages of the complaint, accompanied by affidavits and exhibits, were filed here today by Mr. Citron, Mr. and Mrs. Lang were married in San Francisco, January 12, 1910. Less than a month afterwards they came to Portland to live and after spending a few days at the home of Lang's parents, they went to the Portland Hotel to reside. Mrs. Lang charges that immediately after their marriage her husband became wickedly and purposely possessed with the idea that she was not a good woman and made her most unhappy through a series of unmerited and unfounded suspicions.

Marital Troubles Begin Soon.

She says he urged her to return to her parents at San Francisco, which she refused to do, and the various members of his family aided him in bringing about the destruction of their marital happiness. On April 29 Lang began insisting upon a divorce, which she objected to at first, but he continued to annoy her, she says, and threatened to humiliate and bring public shame and disgrace upon her, and told her they would obtain a temporary divorce and she would arrange for her to go to Europe for a year and at the end of that time they could remarry.

By reason of his importunities Mrs. Lang says she was unable to sleep, was rendered sick, unhappy and sorely distressed in body and mind and she was not able to defend herself against the combined schemes and efforts of Lang and his family. Broken in health and spirit, in order to bring peace to herself and cessation of the dreadful agony, she claims she was forced, against her will and consent, to give no opposition to Lang's suit for divorce.

Papers Were Signed, Fraud Charged.

Saying she was entirely under the control of Lang, she implicitly followed his orders and directions, and on May 12 Lang's attorney called on her at the Portland Hotel and offered a verbal agreement to answer and accept service. No one was present except Lang and his attorney, besides herself, and Mrs. Lang says she did not know the true import of the papers she signed, and that her husband and his attorney took an unfair advantage of her.

Money Question Enters.

Mrs. Lang says she also signed a marriage contract, believing that \$20,000 in cash was set aside for her, and that the purpose of the marriage was to restore the marriage relation which she was led to believe would be restored between her husband and herself after her one year's absence in Europe. She affirms that she affixed her name to this contract at the same time she signed the other papers, but she never received the money, or any part of it, except a small part of the interest. That four notes for \$500 each were never returned to her, and she does not know their nature, nor which of the defendants gave them. Further, she says after Lang obtained his decree he gave her \$300 for her expenses and maintenance while abroad, and at the same time directed her to write on the back of each of the said notes, "Interest paid to January 1, 1911."

Mrs. Lang says her husband is worth \$20,000 and upwards; that she has no means of her own, and is using the money he paid her for her maintenance.

FARMERS GET QUOTATIONS

Grain Growers of Inland Empire to Be Independent of Buyers.

PENDLETON, Or., July 16.—(Special.)—Growers of grain in the Inland Empire do not propose to be dependent upon grain buyers for their market quotations this season. Representative members of the Farmers' Union in Eastern Oregon, Southern Idaho and all that part of Eastern Oregon south of the Snake River have just formed a district organization within the union and made arrangements to secure grain quotations daily direct from the market centers.

An agency is to be maintained at Walla Walla and a subagency at The Dalles. Both are to be under supervision of the Oregon division. The significance of The Dalles agency lies in the fact that this is the first step toward establishment of a firm step toward warehouses at the head of "lower river" navigation.

JUDGE GALLOWAY SAYS NO Jurist Declines to Consider Nomination for Governor.

SALEM, Or., July 16.—(Special.)—Judge William Galloway, of McMinnville, on the Circuit Bench in this district, has said positively that he will not be a candidate for governor on the Democratic ticket.

A small intrigue has been under way for several weeks and letters have been passing back and forth among various members of the bar, relative to Judge

Galloway. To a number of attorneys, it is said, he has not been altogether satisfactory on the bench and a plan was arranged to put him up as a gubernatorial candidate.

He has been recipient of several letters offering him, in flattering terms, the support of many attorneys if he should decide to announce himself as desirous of securing the office.

MILK TO BE DISCUSSED

Visit of Danish Expert to Result in Probe of Dairy Question.

SALEM, Or., July 16.—(Special.)—Arrangements have been completed by the Salem Board of Trade and Secretary Carl Abrams, of the State Dairyman's Association, for the entertainment of Professor Bernhard Boegsgaard, the Danish dairy expert, when he arrives in Salem. He will reach here Monday morning at 11 o'clock in an automobile from Portland. He will be accompanied by his wife and by T. S. Townsend and Phillip Bates, of Portland, named by the Commercial Club of that city to act as his escort.

Luncheon will be served at the Board of Trade rooms at noon and at 1 o'clock a meeting of the dairymen will be held. Professor E. A. Kent and Dr. James Withycombe, of Corvallis, have been invited to act as his escort.

POPULAR ROSEBURG COUPLE MARRIED.

Fred E. Raymond. Mrs. Raymond. ROSEBURG, Or., July 16.—A pretty wedding, in which two of Roseburg's popular young people were the principals, took place at the home of Melton Gordon, on South Rose street, at 8 o'clock Thursday evening, when Miss Katherine Gordon and Fred E. Raymond were married. The ceremony was performed by Rev. W. H. Eaton, pastor of the Roseburg Baptist Church, in the presence of the immediate family and a few invited guests.

The wedding feast followed the ceremony, after which the couple were escorted to their new home by a host of friends, who awaited to extend congratulations. They will reside in Roseburg permanently. Both Mr. and Mrs. Raymond are well known in Roseburg and throughout Douglas County. The bride has resided here since birth. She is a favorite among the younger set and assumes an active part in all social events. The bridegroom is connected with the Douglas County Abstract Company, and has resided in Roseburg for four years.

Notice is being sent to all of the leading dairymen of Polk County and Marion County asking them to be on hand and indications point to an exceptionally good meeting. After meeting with the Salem people, Professor Boegsgaard will be taken by automobile to the Asylum Farm to inspect the model dairy barns there and will then leave for cities up the Valley.

Union Gets New Bridge.

ELGIN, Or., July 16.—(Special.)—The County Court of Union County has made an order providing for several new steel bridges to be built this year. New structures are to be erected across the Grand Ronde River at Cove, over the big ditch between La Grande and Imbler, over Willow Creek, near Imbler, and the wooden span which spans across the Grand Ronde east of Elgin will be replaced with an 80-foot steel span. In addition to being the bridge over Wallawa River is being raised three feet.

Wilhelmina Has Big Cargo.

NEWPORT, Or., July 16.—(Special.)—The Wilhelmina, Captain Tyler, arrived yesterday with the heaviest cargo in her history. It included several tons of steel rails for the Fir & Spruce Lumber Company's railroad, which runs from Depot Slough, near Toledo, to the Sitka.

GRANDMOTHER DROPS DEAD, GRIEVING OVER DEATH OF JOHN MCCURT'S CHILD.

LITTLE WILBUR MCCURT, Who Died in Denver.

SALEM, Or., July 16.—(Special.)—Grieving over the body of Little Wilbur, 4-year-old son of the United States District Attorney McCourt, the child's grandmother, Mrs. W. F. Boothby, dropped dead of heart failure at her home at 9:15 o'clock tonight.

The body of the McCourt child arrived here at 3 o'clock this afternoon from Denver, where he died. Mrs. Boothby was 68 years of age. She had been subject to attacks of heart failure, but they never became aggravated. Mrs. Boothby was the wife of a well-known local property-owner.

The funeral will be held at 10 o'clock A. M. and at 2 o'clock in the afternoon there will be a reception in the rooms of the Albany Commercial Club and the Missourians will then escort him to Chautauqua Park.

At a meeting of the Missourians last evening a committee, consisting of J. K. Weatherford, chairman, W. E. Blaney, George W. Wright, W. B. Stevens,

CASTLE ROCK MILL BURNS

Insurance Policies Lapse Before \$20,000 Plant Is Destroyed.

CASTLE ROCK, Wash., July 16.—Fire destroyed the largest mill in this city at an early hour this morning, the mill and contents, save the boilers, being a total loss. Owing to the absence of insurance, the owners were unable to confine the flames to the mill and save the adjoining buildings. An iron roof aided them and the absence of shingles probably saved many residences from burning.

The loss is at least \$20,000, which is total, as the owners, the Cowell Shingle Company, are in bonded security allowed the insurance policies to lapse. It is stated officially that the mill will be rebuilt at once, in a more substantial manner. Meanwhile, many men are thrown out of employment for two or three months.

The boilers were encased in brick and are almost unharmed and the engine can be placed in condition at a moderate cost. The other machinery was ruined by water. The boiler, but experts think the steam was low.

EMPLOYERS ASK REFORM

Liability Law Would Save to Men Money Now Wasted.

SEATTLE, Wash., July 16.—Lumbermen of Western Washington, through the legislative committee, Committee Coast Lumber Manufacturers Association, yesterday launched a campaign for the enactment by the Legislature of an employers' liability law whereby employees of all kinds shall be paid for injuries received, and without the costly litigation now prevalent.

The lumber companies now propose to arrange for a state-wide conference of employers, employees, representatives of labor and others to shape the legislation desired. "We desire to do away, so far as possible, with the animus of personal damage suits and take out of the hands of the unscrupulous attorneys a business which deprives the injured of what is rightfully theirs," said Paul Page, of the Lumber Manufacturers Association. "We want the men injured in the mills, logging camps, on the railroads, in the shops and elsewhere to receive every penny due them and not the pittance they now so often receive in case they are injured."

"We believe that the amount of money spent in litigation, in the payment of legal bills, together with the large sums paid by employers to Employers' liability insurance companies, would go far toward making every injured workman comfortable."

Brick Company Incorporates.

ELGIN, Or., July 16.—(Special.)—Incorporation of the Slits Fire Brick & Manufacturing Company has been completed and officers have been elected. President, J. W. Robinson; secretary and treasurer, L. Denham; directors, J. W. Robinson, John Klinghammer, Charles Klinghammer and Hugo Klinghammer. This company is incorporated at \$10,000. Plans are being drawn for the erection of a plant at Elgin.

Vicious Dogs Ordered Killed.

VANCOUVER, Wash., July 16.—(Special.)—Orders to kill any and every dog that bites any person have been given by John Seelie, Chief of Police, to his officers. "Ask no questions, but if you find a dog that has bitten a person, shoot the dog," said the Chief. During the past two days four reports have been received at police headquarters of dogs biting persons.

CHAUTAUQUA DRAWS NEAR END

Albany Gathering Closes Today, After Successful Session.

ALBANY, Or., July 16.—(Special.)—J. J. Johnson, of Portland, ex-lecturer of the Oregon State Grange, was one of the leading speakers at the Albany Chautauqua assembly today. This was the farmers' day and the programme included addresses on agricultural and horticultural topics. Johnson spoke this forenoon on "The Grange, Its Principles and Work." This afternoon Professor Cole, of the Oregon Agricultural College, discussed horticultural subjects. H. V. Adams, of the Chicago Chautauqua Bureau, delivered an address at the evening's session on "Grapes of Gold." Rev. E. L. House, D. D., of Spokane, talked to the Bible school class both forenoon and afternoon. At this forenoon's session of the Summer school Mrs. Viola P. Franklin, of Albany, delivered a lecture on "The Holy Bible." This afternoon Mrs. Bleg, of Portland, conducted her class in domestic science.

The closing day of the Chautauqua. Excursions will be run from all surrounding points, bringing a crowd to hear Joseph W. Polk, ex-governor of Missouri, who will speak in the big auditorium tomorrow afternoon on "The Era of Conscience." The Missourians of Albany will hold an informal reception in honor of Polk preceding his lecture. A committee of them will meet him when he reaches the city at 4:15 o'clock A. M. and at 2 o'clock in the afternoon there will be a reception in the rooms of the Albany Commercial Club and the Missourians will then escort him to Chautauqua Park.

At a meeting of the Missourians last evening a committee, consisting of J. K. Weatherford, chairman, W. E. Blaney, George W. Wright, W. B. Stevens,

S. S. Gilbert and S. C. Worrell, was named to have charge of this reception.

TEMPERANCE TODAY'S TOPIC

W. C. T. U. Day to Be Observed Appropriately by Chautauqua.

Today is W. C. T. U. day at the Chautauqua. As strong a temperance programme is offered as has ever been known upon the Chautauqua platform. In the morning Colonel George W. Bain, of Kentucky, will speak upon the subject, "Our Country, Our Homes Our Duties." Roscoe, an impressive lecturer, cartoonist and entertainer, will appear.

Of all the Chautauqua favorites in this country, Colonel Bain seems to hold the record in the number of times he has been chosen. At Ocean Grove alone Colonel Bain has lectured 36 times. He has delivered 250 lectures. It is said of this Kentucky orator that financial gain has less to do with his Chautauqua work than his convictions. He not only believes in his work, but lives it in his everyday life.

Ross Crane sings, plays, talks with an inexhaustible fund of humor, adapts himself quickly to conditions, and the minute he appears upon the platform has a friend in every one who listens to him.

In addition to these two numbers on the programme there will be a band concert at 4 P. M. by the Chemawa Indian School band. This band has won peculiar favor among those who visited Chautauqua this year. Although familiar in the meetings of the past, they have advanced considerably in musical education during the past year than ever before.

Other music will be included in the evening programme, making of the best Chautauqua day of the season.

CASTLE ROCK MILL BURNS

Insurance Policies Lapse Before \$20,000 Plant Is Destroyed.

CASTLE ROCK, Wash., July 16.—Fire destroyed the largest mill in this city at an early hour this morning, the mill and contents, save the boilers, being a total loss. Owing to the absence of insurance, the owners were unable to confine the flames to the mill and save the adjoining buildings. An iron roof aided them and the absence of shingles probably saved many residences from burning.

The loss is at least \$20,000, which is total, as the owners, the Cowell Shingle Company, are in bonded security allowed the insurance policies to lapse. It is stated officially that the mill will be rebuilt at once, in a more substantial manner. Meanwhile, many men are thrown out of employment for two or three months.

The boilers were encased in brick and are almost unharmed and the engine can be placed in condition at a moderate cost. The other machinery was ruined by water. The boiler, but experts think the steam was low.

COOS SPENDS \$200,000

GOOD ROADS ENTHUSIASM RAPIDLY GROWS ON COAST.

Increased Number of Automobiles Leads to Improved Work on Various Highways.

MARSHFIELD, Or., July 16.—(Special.)—About \$200,000 will be expended this year on road improvements in Coos County. The general appropriation from the county for the year is \$120,000 and special assessments in different districts will bring the amount up to \$200,000. So anxious are the people in the rural districts to have good roads during the past year that they have in many cases assessed themselves in order to have the work done.

The fact that the number of automobiles in the city has greatly increased has done much toward the road improvement and some of the most important pieces of road work and one which affects the autos on the stage road, is from Myrtle Point to Roseburg. Between Myrtle Point and the county about \$30,000 will be spent this year. The whole road has been resurveyed and the bad grades changed and by next year the road will be a first-class one for autos and most of it will be fit to travel over at all times of the year. The road even now is in good shape for automobile travel and some of the worst places are being fixed so that the highway will be in good shape by the time the carnival is held in August, when many tourists by auto are expected.

Another important piece of road work which has been in progress for a year is the building of a new highway through the Loon Lake country. Formerly this country was reached only by a mountain trail but the road which was constructed, with much difficulty, opens a fine farming country to the markets and also affords a shorter route from the Coos Bay country to the railroad.

Many thousands of dollars have been spent on the old Coos Bay wagon road from Roseburg to Marshfield over which the mail is now being brought. The hilly part has been planked and when the work is finished it will be a good auto route.

A new bridge is being completed at a cost of \$11,000 over South Slough at the lower end of the bay. This connects the county road out of the bay cities with the road down the coast to Bandon,

Wastebasket Not Good Safe.

SPRINGFIELD, Or., July 16.—(Special.)—Alex Grey, keeper of a cigar store and soft drink parlor here, has learned that a wastebasket is not a good substitute for a steel safe in which to keep his cash. A thief, who entered through a window in the rear of the store, found the hiding place and stole the money on hand, \$24.55.

Branded Salmon Comes Home.

ASTORIA, Or., July 16.—(Special.)—The salmon was delivered at the Bear Cliff station this morning, bearing marks similar to those on fry which were released from the Clackamas river hatchery 17 years ago. The fish weighed 25 pounds.
