Murder of Oriental Merchant in Southern Republic Calls for Reply - Rebels Losing Ground. Word From Scene of War.

WASHINGTON, July 23. - Protest against the action of the State Department of the United States in refusing to recognize as binding under international law the order of Dr. Madriz, provisional President of Nicaragua, declaring Bluefields a closed port, and in refusing further to take serious ly Norway's recognition of this order, was made today by Corry M. Stadden. Counsel here for the titular government in Nicaragua.

Report was received by Mr. Stadden from Madriz of the routing at Cotalpa, after nine hours of fighting, of 100 insurgents and of the capture of many prisoners. Mr. Stadden's statement concludes with the observation that "If the State Department will diligently observe international obligations due to a friendly state, the insurrection will oon be suppressed, with due care for the preservation of American lives and property.

Unfriendly Acts Denied. The statement in part says:

"King Haakon, having recognized President Madriz as the de jure, as well s de facto government of Nicaragua, as all other powers with the exception of the United States having doplomatic relations with Nicaragua have done, it was eminently proper for him to recognize the decree closing the port of Bluefields. This action was based upon a formal protest that vessels flying the Norwegian flag had committed hostile acts toward a friendly government

thereby incurring liability to seizure. "It should be beneath the dignity of the State Department to quibble over the character of the gunboat Venus which was publicly purchased in the United States for the titular govern-ment of Nicaragua. If she is operating unlawfully, she may be seized as a It she has not been seized, it must be presumed that she is operating entirely within the law, and she should not have been driven away from Bluefields by the American commander.

Quibble Undignified, Is Retort.

'All of the official acts of President Madriz since he assumed office have stamped the lie upon the evil reports issuing from insurgent sources that he is not sympathetic toward the United States and American interests in Nicaragua. President Madriz has neither sym-

pathy for, nor affiliation with ex-President Zelaya." Protest against the murder by th

revolutionists of Chichow, a Chinese merchant at San Pedro Del Norte, has been made by Chinese residents Nicaragua to the representative here of their government.

Relatives of Dead Railroad President Still Say He Was Slain by Burglar - Chief of Police Washes Hands of Case.

CHICAGO, July 23 .- (Special.)-With the release this afternoon of Ernest Stevens, negro chauffeur, formerly employed by Ira G. Rawn, and held on suspicion of having slain him for re renge, the mystery surrounding the death of the Monon Rallway president practically stands where it did when

Stevens was released on orders from Assistant Chief Schuettler. The police have returned to the theory of suicide as the only explanation of the shooting It was also established today that Mr. Rawn carried no insurance taken out later than several years ago. All his accident insurance, according to the one who handled all these policies for Rawn, had been in force so long that various accumulated dividends will net the estate something more than \$25,000 additional to the face of the policies, if they finally are paid. HOP SING CHINESE ARE MADE PARIAHS

CHINESE TONGS IN SAN FRAN-CISCO UNITE AGAINST THEM.

Strongest of Clubs Is Ishmaelite Because It Did Not Divide Gambling Profits Fairly.

SAN FRANCISCO, July 23.—(Special.) The Chinese tong war, which it was predicted would result from efforts of the police to close the gambling houses in the Chinese quarter, broke out early this morning when Jew Sing, a Hop Sing highbinder, was fired upon by some ur known Chinese.

Jew Sing was not armed when arrested, out he is noted as a highbinder, and his society, which ran the Siberia Club, is greatly wrought up over the closing of this gambling headquarters and attri-butes it to the influence of rival tongs.

It seems the Hop Sings refused to keep to the terms of a contract by which the profits of the various gambling house were to be evenly divided among various tongs. They retained the lion's share of the profits and it was this perfidy which caused some of the other tongs to betray the Siberia Club to the police.

Hop Sing, the strongest tong in Chinatown, is now an Ishmaelite, with every other highbinder society against it, and bloodshed is sure to follow.

The gunmen of the Hop Sing Tong, em ployed by the On Tick Tong during its recent war with the Yee family, did most of the killing. The news of the shooting traveled like wildfire through Chinatown and the streets this morning were deserted.

Tradesman Boycotted Plends Relationship Is Far Removed.

NEW YORK, July 23 .- Charles Miller, a Brooklyn tradesman who keeps a stationery store in the basement of an old brown-stone house, is much incensed because the newspapers discovered that his father, William E. Miller, who died of heart disease this week, was related to John D. Rockefeller.

feller.

"If you must publish that fact," he exclaimed to a reporter, "at least explain that it is but a very distant relationship. That kinship cost my father thousands of dollars and it will probably cost me thousands more.

"When the newspapers published stories of how Rockefeller made his money, many people in this neighborhood became very indignant. Some of them learned that my father was distantly related to the oil king and forthwith boycotted us. In vain we insisted that the kinship was so far removed that even my father did not moved that even my father did not know just how it started. People would not believe us, and whenever they passed our store they pointed to it and said: There's Rockefeller's cousin. My father grew so enraged that he for-bade us ever to speak of the relation-ship."

PRESS AGENTS TO RESCUE

Notice Served on Ballinger Investigating Committee to Favor Pinchot Crowd or Have Case Revived in Fall Campaign.

OREGONIAN NEWS BUREAU, Washington, July 23 .- The Pinchot-Garfield press agents, who are also press agents of the insurgent leaders of the Repub-Hean party, have served notice on the Pinchot-Ballinger investigating committee that they must return a verdiet unfavorable to the Secretary of the Interior, and favorable to Messrs Pinchot, Garfield, Glavis, Newell, et al., or there will be a renewal of hostilities and a revival of last Summer's scandal. In other words, nothing thert of a vindication of Pinchot and his partisans

Ever since the investigation closed, It has been well understood that a majority of the investigating committee was convinced no case had been made out against the Secertary of the Interior, and the general belief has been that the report of the majority would sustain the Secretary and probably condemn the men who instigated and promoted the attack upon him, over his head attacked the President. Senator Nelson, chairman of the committee, has made no concealment his disgust with the tactics of the Pinchot-Glavis crowd, and Senators Itoot, Flint and Sutherland are as readily counted with the majority, as are Rep-resentatives McCall, Denby and Olm-

Both sides feel that he will be with them when the report is brought up for adoption, and Mr. Madison may join the majority or may join with the Democrats, or may file an independent report of his own. Of the three, the latter plan seems the more probable.

But if the committee is properly sized up, and the seven Senators and Representatives named are convinced there is nothing to the Pinchot-Glavis charges, the vote of Mr. Madison will not sway the result, no matter how he may stand.

FOREIGN HOOK IN FISH MYSTIFIES

FROM MEXICAN COAST.

Barb in Cheek, of Peculiar Manufacture, Gives Evidence of Long Travel in Water.

ASTORIA, Or., July 23 .- (Special.)-A few days ago Chartes McPherson, who is buying fish for the Warren Packing Company at its Tongue Point station, received a 23-pound Chinook salmon which had in its mouth a large steel book, that s not only a curiosity in itself, but indicates the long distances which the salmo

travel during their migrations at sea.

The hook was fastened in the cheek of the fish and as the wound around it had entirely healed, it had probably been there for six months or more. It was very large, of a peculiar pattern and ex-ceptionally well made.

A. G. Spexarth, who is considered the pest local authority on all fishing tackle, was shown the hook and says it is not of American make, as none of the manufacturers in this country turn out any thing like it. He believes it is a hand-made affair, probably the work of a Mexican or an Indian, although there i an English company which manufacturers a hook similar to it. The line, a small plece of which was attached, is also peculiar in its make.

The line itself is of fiber while it is reinforced with twine pleated in a style handwork. He believes the salmon got the book, which was apparently used for trolling, while in the waters off some port along the South Coast and probably in the vicinity of the Catalina Islands.

The unusual amount of money in the state's cash box has come about through the successful settlement of cases which have netted the commonwealth large sums of money. The largest of these items came from the settlement of the lumber cases, the gross earning tax cases, the Kennedy inheritance tax cases, and others. Not only have large sums of money come into the treasury, but they will result in constantly augmenting streams of in constantly augmenting streams of gold in the direction of the state's coffers, so that Minnesota bids fair to become a state unique in the history of taxation—a state that may find it not necessary to tax its people one cent for the general maintenance of state government.

BARCELONA. July Maura, leader of the Conservative party, who, as Premier, put down the Barcelona riots and brought about the execution of Dr. Francisco Ferrer a year ago, owes his escape from probable death last night to the courage of his youthful girl cousin, who threw herself upon the assailant.
