# FIRE BURNS MILL: CITY IN DARKNESS

Electric Plant and Sawmill Near Coquille Are Destroyed.

OVER \$100,000

Entire Payroll of Town Wiped Out, With No Insurance-Railway Trestle Also Burns, With Large Quantity of Fine Timber.

COQUILLE Or., Aug. 6. - (Special.)-Fire last evening totally destroyed the sawmill of the Johnson Lumber Company, three miles above this city. The electric plant which furnishes light for electric plant which turnishes light for this city and Myrtle Point was located at the mill and as a result this city is in darkness tonight. The loss in the saw-mill will be \$50,000 and the light plant will add \$50,000 more. In addition to the loss of the mill, over 1,000,000 feet of ium-ber and nearly a quarter of a mile of trestie of the local railway was de-

#### WEBER'S BAND AT OAKS

Fine Company of Musicians Gives Pleasing Opening Concert.

John C. Weber and his prize band John C. Weber and his prize band from Cincinnati, O., now en tour to the Pacific Coast for the first time, began a three weeks engagement at the Dalm Friday, and played two programmes of classic and popular music to enthusiastic audiences. The band is known as the "prize" band of American Lake camp, making the first third of the 70 miles of horseback riding. Army officers are required to make the distance within three days each year.

played at the Pan American Exposition held at Buffalo, N. Y., the Louisiana Purchase Exposition at St. Louis, Mo., and similar events. It won a prize of \$1800 at the Elks' reunion held at Bal-timore, Md. In 1904 and has also re-ceived other marks of esteem from the Elks.

Weber's band numbers about 46. The ensemble effect is melodious, well balanced, and musically appealing. Its fine choral tone is like that of the Innes band, and every man in it is a musician. Most of the players are of German descent, are experienced bandsmen, and are recruited from such organizations as the Cincinnati and Pittsburg Symphony Orchestras. A magnificent rendition was given of the "Tannhacuser" overture, and unusually good work was done in excerpts from Strauss' The Chocolate Solder," selections from Puccini's "La Boheme," along with lively presentations of

Mr. Weber, wearing a dazzling white uniform, conducts with first-class shility, dash and resource. His cornet soloist, Frank Simon, is a clever young artist who excels in brilliant execution, and his tene is pleasing. The soprane soloist, Miss Blanche Mehaffy, of Cincinnatt, is a dramatic soprane, with a wide compass. Her voice has plenty of volume with sparkling quality.

MESSAGES TO CRIPPEN.

Local Police Resent Assumption of Prerogatives by Scotland Yard Inspector.

QUEBEC, Aug. 6.— A conflict between inspector Dew, of Scotland Yard, and the Quebec provincial authorities may follow the action of the latter today in discontinuing the privilege the inspector has heretofore enjoyed—that of supervising personally the delivery of cable messages to Dr. Crippen and Ethel Leneve. The local authorities took this action today in the absence from the city of Inspector Dew.

It was learned by Premier Gouin that two messages, one addressed to Crippen and the other to Miss Leneve, were held at the jail, not to be delivered until the inspector could first censor them. Orders immediately were issued to Governor Morin, of the jail, to deliver the messages to the prisoners at once.

There seems to be a disposition on the part of the local authorities to resent the prerogatives the Scotland Yard men have assumed.

The messages delivered to the prisoners tonight were supposed to be from friends in London. That these friends continue their interest was shown today by the receipt at the local telegraph office of intructions from London to accept from Crippen and Miss Leneve messages to be paid for by the receivers in England.

City Officials Believe Work Will Begin in Few Months.

#### BOND SALE GIVES IMPETUS

Litigation Not Considered Serious by Woodmen Who Take \$50,000 of Bonds-\$100,000 More Needed by August 29.

That all obstacles to construction the Broadway bridge will be eliminated in a reasonably short time and that work will be started on the mammoth structure before the end of the year is the belief of Mayor Simon, City Attorney Grant and other city officials.

Action of the head camp of the Woodmen of the World in subscribing

Action of the Morid in subscribing for \$50,000 worth of bonds this week is taken that the litigation against the bridge bond issue is not considered seriously by such careful men as the head camp officers, and that if any appeal of the case to the higher courts be taken, the decision of the lower court will be sustained, resulting in a complete victory for the city.

"There is no doubt in my mind that the city will win every point contended for in the present litigation over the bond insue," said City Attorney Grant yesterday. "Those opposing the proposition are merely grasping at straws to defeat the will of the people, in order to further their own private interests. The grounds for attacking the measure were based upon the validity of the bond issue and the alleged illegal numbering of the ballots when the matter was voted upon by the people. matter was voted upon by the people. We won our case before Judge Burnett of the Circuit Court and we will feel no apprehension at all if the case is taken before the State Supreme Court.

The entire bond issue represents \$1,250,096, to be divided into equal installments of \$250,000 each, Of the first installment, \$100,000 was subscribed for by private citizens of Portland, and a block of \$50,000 was bid in this week by the Woodmen of the World, leaving \$100,000 to be taken up by August 29. by the Woodmen of the World, leaving \$190,090 to be taken up by August 29. In discussing the matter yesterday City Auditor Barbur said that the sale of the bonds had been greatly hampered by reason of the Kiernan-Duniway suit, and that it was up to the people of Portland who sanctioned the bond issue by their ballots to assist in securing a market for the remainder of the first installment.

"It will reflect upon the good busi-

of the first installment.

"It will reflect upon the good business name of Portland if we fail to sell the rest of the bonds by August 29," said Mr. Barbur, "and I join with the other city officials in urging cooperation in the matter. The sale of the bonds has been advertised three times and the results have been anything but satisfactory. It is gratifying to me that the head camp of the Woodmen of the World subscribed for a goodly share of the installment. # PRIEST AND MONEY GONE

ACTING PASTOR OF ST. STANIS-LAUS CHURCH DISAPPEARS.

Regular Minister Returns to Find Funds for Parochial School Have Been Taken.

Father John Brzoza, substitute paster at St. Stanishus Polish Catholic Church, Maryland end Failing streets, has been mysteriously missing since July 25 and more than \$1500 belonging to the parish has also surreptitiously disappeared. Individuals of the clergy and laily under whose jurisdiction the missing priest worked emphatically refused to discuss the matter last night. They contend that Archbishop Alexander Christie will judicially determine the course of procedure in the case upon his return to the city in a few days.

Father Charles Scroski, the regular pastor, was installed in the pastorate several years ago, at a time when Folish

communicants in the city were few. Since his installation and by earnest effort in upbuilding his parish. Father Seroski realized the fruit of his ambitions two years ago with the erection of a 10,000 edifice. Two months ago he was granted a leave of absence for the purpose of relaxation. He spent the time in travel through Eastern states. Immediately following his departure from the city Father Bracka, the missing priest, was appointed to fill the vacancy caused by Father Berockis' absence.

While presiding as pastor Father Bracka continued to collect funds for a perochial school started by his predecessor. Considerable money paid in by subscribing parishioners tended to inflate the fund on hand. The wayward pastor is said to have had access to all the money and donations contributed by members of his flock. The aggregate amount of the funds on hand was in excess of \$1500.

During his stay in the parish Bracka occupied apartments in the home of Mrs. Chambers, at \$55 Minnesota avenue. He left his apartments without leaving an address where he might be found.

Father Scroski arrived in Portland a few days ago. Neighborhood gossip revealed the fact to him that his substitute had left his flock without the conventional ceremony. Divining that all was not right, Father Seroski began an examination into the records of the parish. The funds which he had already collected for the crection of a paracchial school were missing, along with the additional moneys he was told were remitted by parishioners. Despite the fact that he was in possession of sufficient evidence to convict his successor, Father Scroski maintained silence concerning the matter and as yet the authorities have not been consulted. and as yet the authorities have not been

In no other aliment peculiar to men is a prompt and thorough cure so essential. Contracted aliments tend to work backward until the most vital nerve centers become involved in the infiammation. Then follows a chronic stage that stubbornly resists all ordinary treatment. Safety demands that every vestige of infection be eradicated at the carliest possible moment. My treatment is thorough. The remedies employed have a more positive action than has ever before been attained, and so perfect is my method of application that even chronic cases yield completely.

Varicose Veins

Under my treatment the most aggravated cases of varicose veins are cured in a short time. There is no pain and it is seldom necessary that the patient be detained from his occupation. Normal circulation is at once restored throughout all the organs, and their natural processes of waste and repair are again established. If you are afflicted with varicose veins consult me at once. Delay can but bring on aggravated conditions that will impair the vital functions and involve the general health.

There's no drawing the line between curable and incurable aliments. Each individual case must be considered. Most doctors claim that among the class of aliments peculiar to men one or two are incurable. The idea is wrong. I have demonstrated that, it is wrong, for I cure all aliments of men. The truth is that some cases of curable aliments of men. The truth is that some cases of curable aliments are easily curable by the right methods. I by no means, claim the ability to cure any and every case that may come to my office, but I claim to cure most of the cases that others cannot cure, and I always refuse treatment where conditions indicate that I will be unable to obtain thorough and lasting results.

Nerve Weakness

My success in permanently curing that condition commonly known as "weakness" filly demanstrates the absolute correctness of my method of treatment, which is a method employed by he self alone. I do not stimulate the factions to temporary activity by the use of strong internal tonics. This is a course commonly pursued by both general practitioners and specialists, and is a treatment that can not possibly result in a permanent cure. "Weakness" is merely; a symptom of chronic inflammation brought on by improper treatment of some aliment. A complete and radical cure is accomplished promptly and completely without the use of internal remedies. My treatment is a local one entirely. It is original and scientific, and has been proved absolutely effective by thousands of tests. I am convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.
