

ROOSEVELT FEELS WEST STILL RAVE

Colonel Enters Heartily Into Spirit of Wild West Day at Cheyenne.

INDIANS HOLD RECEPTION

Reference to "Dead Game Man," Whom Colonel Extols, Catches Popular Fancy — Cheyenne Shows Frontier Spirit.

(Continued From First Page.)

mile track, and set up a wild yell. The crowd joined in and gave the Colonel the warmest welcome he has received since he left New York. Captain Hardy, who, according to the megaphone man who made the announcements, is the champion marksman of the world, was just drawing a picture of Colonel Roosevelt by firing bullets at a white target when the Colonel appeared. The Colonel took his place in a reviewing stand just across the track from the grandstand and watched the captain's fancy shots.

Cowgirl Catches Fancy.

Four cowgirls had a half-mile race on horseback next. Joella Irwin, who is 13 years old, appeared in short white trousers on the back of Brownie, and she caught the Colonel's fancy. Before the race began he beckoned to her and shook her hand. She had two bad falls from her mount yesterday and was badly shaken up, but refused to withdraw. She won the race today, and Colonel Roosevelt called her back to him to tell her how glad he was. Then a dozen cowboys stepped up to the reviewing stand, after Colonel Roosevelt had descended from it, and carried it across the track, so that the crowd might hear the Colonel's speech, which came next.

Governor Brooks introduced him and for a half hour he talked to the crowd. He spoke of the old West, now passing away, and of the men it developed. He told the people of the new West that they must preserve those same characteristics if the Nation is to endure. He urged them to be progressive and to remember that, whether he be from the East or West, every man must be a true American.

"Dead Game Men" Wanted.

"It will be a bad day for America—the end of America—if the average American loses the quality of being a 'dead game man,'" he said. That caught the fancy of the cowboys, who cheered him wildly. Of the Westerner, he said: "He is an American first and foremost, for that is all we need to learn and to keep. The lesson that it is unimportant whether a man lives North or South or West, provided he is genuinely and in good faith an American, that he feels every part of the United States as his own, and that he is honestly desirous to uphold the honor of all other Americans in whatever sections of the country they may dwell."

A hundred years ago, when men spoke of the West, they meant the land between the Alleghenies and the Mississippi. Fifty years ago the white man's West took in Minnesota, Iowa, Kansas, then slipped across to California and Oregon. The country of the great plains and the Rockies, the country in which the cowboy lives, was a new thing, a new thing that was being created by the hands of the pioneer and his son. It was a new thing, a new thing that was being created by the hands of the pioneer and his son. It was a new thing, a new thing that was being created by the hands of the pioneer and his son.

I have used the word progress. The West stands for progress. It is the only part of the whole American people stand. A great democracy must be progressive or it will soon cease to be either great or democratic. No nation, no state, no party, can stand still. It must either go forward or go backward. Therefore, I greet you, men of the West, and I stand for progress as all men must stand who are part of the progress of mankind.

Pioneers' Virtues Lauded.

The speaker lauded the pioneers, and their "great, virile virtues of strength, courage, energy and undaunted and unwavering resolution." He said that with the passing of the pioneer days, there was need to encourage new virtues to meet new conditions, but there was none the less a need for the same pioneer virtues. He continued:

Now, so far as possible these qualities of the conditions that bring about these qualities should be kept in the great states which are growing out of the old frontier. We need to strive for the old virtues, the old virtues of the pioneer, the old virtues of the pioneer, the old virtues of the pioneer. We need to strive for the old virtues, the old virtues of the pioneer, the old virtues of the pioneer. We need to strive for the old virtues, the old virtues of the pioneer, the old virtues of the pioneer.

Mrs. Remington There.

Colonel Roosevelt closed with a tribute to Frederic Remington, to whose memory, he said, a great monument should be erected. The sentiment was greeted with cheers. Mrs. Remington, widow of the artist, occupied a seat on the reviewing stand. The "broncho busting" was the most interesting of all to Colonel Roosevelt. While Al Whitney was having his tussocks, Mrs. Remington was watching from his seat in his excitement and watched every move by man and horse. Sand Creek is a small brown, graceful horse of demure appearance, but the cowpunchers say he has had eyes. He allowed a cowboy to lead him down the track without a struggle, but when an attempt was made to get the saddle on him there was trouble. The cowboys held him by the hackamore, as the bridles without bit, are called, and tried to blindfold him. Sand Creek reared and struck out with his front feet. The cowboys dodged, but held on. For 15 minutes they tried in vain to blindfold

Call and investigate now. Also a complete assortment of Medical Batteries at reduced prices. M. J. WALSH CO. 311 STARK STREET

TALKS on 'TEETH' BY THE REX DENTAL CO. ALVEOLAR TEETH SATISFY. One of the many cases that came to us, which seemed all but hopeless, was that of an old gentleman who came to our office long ago to have a set of ALVEOLAR Teeth put in his mouth. We require two or more teeth in the jaw before we will undertake the work and guarantee it. We don't ask that they be sound or even firm in the sockets, but that they were the work of ALVEOLAR Teeth put in his mouth. We made him this proposition, viz.: That we would put in the ALVEOLAR teeth, and if they were not successful we would remove them and make him a gold plate free of charge at any time in the future. He was delighted with the proposal, and agreed to it instantly, remarking that he was the "white-st" people he had ever come across in the dental business. The latest report from him is that we don't need to worry about the gold plate, for his new teeth are as firm as a rock, and he is giving us all the good free advertising he possibly can. The reason we mention this case is to show that we are just as strong believers in the "square deal" as Theodore Roosevelt, and just as particular about giving satisfaction as any merchant. When we sell you a set of teeth we guarantee that they are everything we claim them to be, the guarantee is backed by ample capital. We are perfectly safe in making it, and always do make it. The ALVEOLAR METHOD is a new departure, a change from old methods of supplying missing teeth. The old way was by means of a burdensome partial plate, or a bridge, or a denture, generally giving us a set of teeth from the time they were put in until they destroyed or loosened what teeth by your own use had left, and had to come out. Both methods are now supplanted by the ALVEOLAR METHOD, which supplies all the missing teeth and gives the one who has them a set of teeth that are as satisfactory as nature's. The work is painless and permanent. We will examine your teeth, without charge. If you can't come for an examination now, do the next best thing: Send for our free book, "ALVEOLAR DENTISTRY," which explains the method in detail. This is the most valuable book on the teeth ever written and it is yours for the asking. In addition to our specialty of Alveolar Dentistry (Restoring Lost Teeth) we are experts in every branch of dental work, viz.: Porcelain, gold and silver settings, Crown, Plate Work, correcting irregularities, etc., etc. Specialists in each branch of dentistry at your service. There is no disputing the fact that the best in Dentistry is the cheapest. THE REX DENTAL CO., DENTISTS, 311 to 314 Abington Bldg., 196 1/2 3d St.

After Vacation. there is generally "something doing" in the way of sorting over the wardrobe, cleaning, pressing and putting the good garments away for the next season. Send them to us and we will put them in the finest shape for you at little cost. We will save you all the time and trouble and make a far better job of it than you could yourself. Mail Orders Receive Prompt Attention. THE VIENNA STEAM CLEANING and DYEING WORKS. PHONES—MAIN 1456, & 3456. 224-226 THIRD ST., PORTLAND, OR.
