COLLEGE ADDS 21 FACULTY MEMBERS

Four New Buildings, With Increased Equipment, Ready at Corvallis.

YEAR OPENS SEPTEMBER 23

Oregon Agricultural College Has Expended \$134,000 in Added Facilities - Instructors Are Called From East.

OREGON AGRICULTURAL COL-LEGE, Corvallis, Or., Sept. 10 .- (Special.)-21 new members on the faculty roll, four new buildings on the campus, and much additional equipment for the laboratories and classrooms have been made necessary this year at the Oregon Agricultural College, which will register the students for the Fall semester, September 23.

Among the new men on the faculty, a notable addition is that of Dr. E. G. Peterson, of Cornell, to fill the chair of bacteriology left vacant by the

chair of bacteriology left vacant by the resignation of Professor E. F. Pernot. Abother appointment of interest is that of Mrs. Anna Z. Crayne, a graduate of the University of Virginia and of the St. Louis Medical College, as Dean of Women, to have charge of the social activities, discipline and health of the girl students of the college.

Dr. J. F. Morel, of the Universities of Belgium and Paris, will have charge of the new department of veterinary schence, and G. R. Samson, of the United States Department of Agriculture, will be instructor in animal hushandry. H. S. Marks, also a Cornell man, will fill an instructorship in mechanical engineering, while J. F. Meister, a graduate of the same institution, will be instructor in ejectrical tution, will be instructor in electrical

Nine Assistants Named.

A Brown University man, Dr. G. F. Sykes, has been appointed to fill an instructorship in zoology and physicalogy. Samuel Dolan, who graduated from Notre Dame last June, was called to a civil engineering instructorship. In the department of mathematics Miss Grace Campbell, Iowa State College, will be instructor. Miss Edith Kuney, of Willamette University, will be added to the modern language department as instructor. Brown University man, Dr. G. F.

The nine new assistants appointed The nine new assistants appointed for the various departments include H. F. Wilson, University of Illinois and the Colerado Agricultural Cellege, research in entomology; Dr. H. H. Severin, University of Wisconsin, research in botany; F. E. Rowland, O. A. C. '07, chemistry; F. R. Brown, O. A. C. '10, horticulture; R. W. Rees, O. A. C. '10, research in horticulture; F. E. Pernot, O. A. C. '10, electrical engineering; Mrs. Ida R. Moore, commerce; F. E. Ewart, O. A. C. '10, electrical engineering; and O. A. C. '10, electrical engineering; and Bertha E. Herse, O. A. C. '10, library

Miss Annabelle Lee, University of Michigan, will be general secretary of the college Young Women's Christian Association, and Miss Annie Pettingell, of Simmons College, Boston, will have charge of the business management of the women's dormitory.

Four New Buildings Ready.

occupancy at the opening of the t semester. Their construction, in aggregate, has cost some fixed as the aggregate, has cost some \$124,000 and has added greatly to the facilities for instruction and scientific research.

The agricultural hall, a \$40,000 brick and stone structure of four stories, containing 42 classrooms, laboratories and

partment will ocupy a portion of the south side of the new agricultural building, which will also ho'd the de-partments of botany and plant pathology, poultry husbandry, art, zoology and entomology, industrial pedagogy, and the offices of the dean of the ol of agriculture and the director of the experiment station.

Armory Is Vast Structure.

it collections are stored or some \$7900, will give the hor-liculture department a total area of some \$790 square feet under glass. The buildings are thoroughly modern in all respects, and are constructed with one central two-story building and five glass houses, three of which are \$9020 feet, and two \$3320 feet. Hot water heating apparatus is below. heating apparatus is being installed, with arrangements for keeping each of the houses at any desired temperature. The \$48,000 armory, the largest building of its kind in the United States, is

a steel reinforced concrete structure, 35x126 feet, with a drill hall which furnishes an unobstructed area of 36,000 square feet. Facilities for 1000 men are furnished in the drill hall, arms-room and offices.

A heating plant for the buildings of the south side of the campus, construct-ed of reinforced concrete and containing a 250 horsepower boller, has been esected at a cost of \$35,000, and is near-

ing completion.

A considerable amount of new equipment for the various departments will greatly facilitate instruction during the coming year.

Woman's Aim Is Good.

WALLA WALLA, Wash. Sept. 10.— The ability of a woman coshoot in the dark was demonstrated here this morn-ing when Mrs. Frank E. Dell, wife of a linetype operator, fired at Lawrence Weigand, the bullet striking him in the head, inflicting a scalp wound. Weigand, it is said, was attempting to gain ance to a neighbor's house when Dell awoke and used the gun with telling effect. Weigand was arrested shortly after the shooting. His

OREGON DELEGATE AND HIS WIFE LEAVE TO ATTEND ODD-FELLOWS' SESSION AT ATLANTA, GA.

MR. AND MRS. FRANK G. MICELLI.

ROSEBURG, Or., Sept. 10.—Mr. and Mrs. Frank G. Micelli left this afternoon for Atlanta, Ga., where Mr. Micelli goes to attend the sovereign grand lodge of Oddfellows, as a delegate from Oregon.

Mr. Micelli has been a member of the Oddfellows nearly 30 years, and has held various offices of trust. He instituted Rising Star Lodge in this city seven years ago, and through his efforts the lodge has enjoyed a steady growth until today it has a total membership of 200 to good standing.

in good standing. At the conclusion of the sovereign grand lodge sessions, Mr. and Mrs. Micelli will visit many Eastern cities, including New York, Wash-ington, Pittsburg, Detroit and Chicago. They expect to be gone for

It will be observed that the Republican members have not pledged themselves to vote for the "Republican" reserved the highest number of votes in ceiving the highest number of votes in the primaries, but for the one who receives the highest number of votes upo their party ticket.

Wilson's Act Does Not Help.

Thus," even though a Democrat mas-South of the agricultural building is large number of votes from Democrats a new range of greenhouses, which, at who call for Republican ballots, be is entitled to the votes of pledged members of

> are considered, those here who study the situation see no prospect of the pri-mary choice for United States Senator mary choice for United States Schalled Scholarsh being overthrown. The retirement of John L. Wilson, from the contest, has not cleared the situation to a marked all Whatcom 42 Whatcom 42 Whatcom 42 Whatcom 42 Whatcom 44 Whatcom 45 Whatcom 45

Here the prediction is made that the Wilson support will not go unitedly to Burke, but there is a strong opinion that it rests almost solely with King County and Seattle whether Burke is elected or defeated. King County and Seattle voting almost solidly for Burke would, accord-ing to present indications, make his elec-

tion practically certain.

In the election of two years ago, there were cast approximately 40,000 Republican votes in Pastern Washington. It is now conceded that Poindexter will probably have a majority over all other Senatorial candidates in Eastern Washington, but a simple majority, based on the vote of 1908 is only 20,000 and King County, alone, in 1908 cast 22,297 votes for the Republi-

can Presidential electors.
It is believed here that Burke will maintain a good lead throughout Western Washington over Poindexter with the ex-ception of Pierce County, where Ashton will lead. In Western Washington out-

Democrats to Be Factor. But Burke is placed at the dieadvantfor the reunion of the Rockefeller Family Association, but John D. Rockefeller, of cast for Poindexter. Here, while it is believed that Burke has a chance of becoming the primary choice, the general conditions are looked upon as pointing to a close contest. Allowing Burke a majority of the Republican vote in Eastern Washington and one-fourth of the Republican vote in Eastern Washington and political today as follows: Kamela, Wallace S. Nelson, Murphy, Thomas E. Gilmere: Willows, Harold F. Perry.

ENGINEERS ATWORK

Activity Along McKenzie Cause of Speculation.

RAIL LINE IS PROBABLE

Bellef General That Portland-Eugene & Eastern Is Back of Work. That Rich Section Will Be Tapped.

EUGENE, Or., Sept. 10.—(Special.)— There are three surveying crews work-ing along the McKenzle River between Eugene and McKenzle bridge, and while it is impossible to ascertain who these it is impossible to ascertain who these men are representing, it is generally believed that two crews at least belong to the Portland, Eugene & Eastern Railway Company. This view is strengthened by the fact that both Mr. Storey, president of that road, and A. Weich have made trips up the McKenzie River of late, and what seems to be a permanent line of survey is being made over the line that was surveyed by the old P. & E. Railroad neonle time years ago, and for which cople three years ago, and for which ney still hold some deeds.

Road Needed for Power Plant. Another strong indication that this road Another strong indication that this road will be built is the assertion by the Bylleays that the Martins Rapids power plant, upon which work has been done for a period of over a year, will be completed so as to furnish the pewer for lighting their string of towns along the Willamette Valley.

their string of towns along the Whiamette Valley.

The thousands of tons of material that
will be necessary for the completion of
this large plant would in itself justify the
construction of the road.

But it is the opinion that this road
would pay from the day the first cars
were put into operation, because thousands of people go into the country
annually, besides the farmers all along
the route who would patronize it freely. the route who would patronize it freely.
Some fine orchards are now in bearing along the line proposed, and the tonnage that would be insured to the road would be a good basis for its construction

Bridge Is Significant.

It would seem that the Portland, Eugene & Eastern would not have gone to the expense at this time of constructing its bridge across the Wilconstructing its bridge across the Williamette at Springfield if the sole purpose were to get into the Mill City. The justification for the construction of the bridge would be the continuation of the railway up the McKenzie.

The McKenzie Pass, toward which this line seems to be headed, is considered the most feasible opening through the Cascade Mountains now available, an dit is possible that the P. E. & E. wishes to get control of the strategic point before either the Hill or Harriman interests, now building this way in Eastern Oregon, get control of it.

STATE CONTROL HIS PLAN

LAFFERTY EXPLAINS BILL HE WOULD PROPOSE.

State Board of Forestry Will Take Place of Federal Bureau, Receipts Going to State.

LA GRANDE, Or. Sept. 10.—(Special.)— In an address here last night before a large audience at Steward's Opera-House, will, provided he is elected, offer in the next Congress conveying all forest reserves in trust to the states. The speaker grilled the Federal forestry bureau for spending the enormous sum of \$73,000,000 in the last 14 years, while only \$2,000,000 had been spent, he declared, for the betterment of the National

forests.
In part, Mr. Lafferty said:
"The 15,000,000 acres of forest reserves in Oregon comprise one-fourth of the state's area, and are worth at least \$200,000,000 today. These lands will yield indefinitely in the future at least \$1,000,000 annually from the sale of ripe timber. It ought not to take all of this vast income to pay the salaries of those caring for the forests and the expenses of the service under state control. A balance of \$500,000 should annually go into our state \$500,000 should annually go into our state

"The plan that I propose provides that the title to the forest lands shall remain permanently in the general Government with power of dictating by Federal en-actment the exact manner in which the states shall patrol and care for the forests, and reforest the land as the ripe timber is removed. It gives the states no power to sell an acre of the land, and therefore no timber syndicate can ever profit by the change from Federal to state control.

The plan merely provides for the sub-

stitution of a state board of forestry for the Federal forestry bureau, and pro-vides that the net proceeds from the sale of ripe timber and grazing privileges shall go into the state treasury. It even provides that the Government may take back the forests at any time and put the Federal officials again in exclusive charge if the states fall to make good. No true friend of conservation can find objection to the proposed bill, and it

HAWLEY'S RECORD REVIEWED

Candidate on Practical, Not Theoretical Platform, Is Statement.

SALEM, Or., Sept. 10.—(Special.)—The first pamphlets containing cuts and arguments for Representative Willis C. Hawley were received by the Secretary of State's office today, and will be mailed out immediately. There will be four separate pamphlets, which will be received by about 45000 voters. The argument that about 45,000 voters. The argument that Mr. Hawley advances for his nomination

Is as follows:

"Republican candidate for renomination and re-election to Congress from the First Congressional district of Oregon, subject to the decision of the voters at the direct primary nomination election.

"He has a record of unquestioned integrity as an aggressive and successful servent of the people of the district and servant of the people of the district, and

"Service—He is an active and influential member of the House of Representatives. During the last seesion of Congress he obtained appropriations of over \$89,000 for river and harbor improvements, and of over \$630,000 for other purposes, in the district, and including Oregon's Civil War claim; accomplished defeat of the Lafean apple box bill; aided miners and settlers on the public domain, including the Siletz settlers; also many other matters of interest and importance to his constituents. Actively supported the railroad rate regulation act, postal savings bank act, \$20,00,000 reclamation certificates act, bureau of mines act, and other acts of great National importance. "He has proved to be a safe and effec-'Service-He is an active and influen-

Packing Companies Incorporate.

ASTORIA, Or., Sept. 10 .- (Special.)-Articles of incorporation of the Oregon Salmon Company were filed in the office of the County Clerk this afternoon. The incorporators are Mary H. Elmore, F. H. Haradon, M. E. Elmore and Sue Haradon. The capital stock of the company is \$5000 and its object is to engage in salmon packing. Articles of incorporation of the Nehalem Packing Company were also filed today. incorporators, capital stock and object as stated are the same as in the case of the Oregon Salmon Company.

How to Get Rid of Catarrh

A Simple, Safe, Reliable Way, and It Costs Nothing to Try.

Those who suffer from catarrh know its miseries. There is no need of this suffering. You can get rid of it by a simple, safe, inexpensive, home treat-ment discovered by Dr. Blosser, who, for over 36 years, has been treating

catarrh successfully.

His treatment is unlike any other.
It is not a spray, douche, salve, cream, or inhaler, but is a more direct and thorough treatment than any of these.
It cleans out the head, nose, throat and lives so that you can again breather. and lungs so that you can again breathe freely and sleep without that stopped-up feeling that all catarrh sufferers It heals the diseased mucous membranes and arrests the foul dis-charge, so that you will not be constantly blowing your nose and spitting, and at the same time it does not poison the system and ruin the stomach, as internal medicines do.

If you want to test this treatment without cost, send your address to Dr. J. W. Blosser, 874 Walton street, Atlanta, Ga., and he will send you by return mail enough of the medicine to satisfy you that it is all he claims for it as a remedy for catarrh, catarrhal headaches, catarrhal deafness, asthma, bronchitis, colds and all catarrhal complications. He will also send you free an illustrated booklet. Write him im-
