

# HUMPHREY WINS BY SMALL MARGIN

### Revelle Demands Recount, but Chances Are Slight That He Will Catch Up.

## RESULT IS NOW CERTAIN

Present Incumbent Has Margin of 1048 Votes Over Required 40 Per Cent for Nomination and Missing Vote Is Small.

SEATTLE, Wash., Sept. 17.—(Special.)—With Will E. Humphrey winning the nomination for Congress by a slender margin, Thomas P. Revelle, his progressive opponent, will demand a recount.

"I want every vote officially recounted," said Revelle today. "There are so many discrepancies that I want to be sure that every vote counted, either for myself or Humphrey, be passed on officially."

Humphrey wins on the face of the returns. This is the showing of the latest returns compiled today for the First Congressional district. His margin above the necessary 40 per cent is 1048, so large that it is highly improbable, in the absence of material discrepancies in compiling, that it will be overcome by any later returns, and much more probable that the missing returns will even increase his margin of safety.

Missing County Can't Change It. The returns here given are complete for King County, the additions being the ones made unofficially by clerks in the County Auditor's office. The other counties are incomplete, a few small outlying precincts being missing from each, and San Juan County is not included at all, as no compiled returns have been made for that county. It is estimated that not to exceed 500 votes in the entire district are missing from this compilation, and of that 500 it is probable that Humphrey has at least 40 per cent.

Discrepancies Still Exist. Discrepancies between the first choice and the second choice votes, which are wide in the unofficial returns, do not appear to be nearly so wide in the official returns, although material discrepancies still exist. Whether they will be sufficient to justify a contest on the part of Revelle, the defeated candidate, can only be ascertained when they have been officially reported and compiled.

Following is the vote by counties:

Humphrey	10,578	24,259
King	1,000	2,240
Knap	149	341
San Juan	missing	missing
Skamania	1,149	2,593
Wasco	2,390	6,000
Whitcomb	2,677	6,541
Totals	17,470	41,241
Forty per cent	14,776	36,993

## PRIMARY IN DOUBT

Idaho Officials to Refuse to Certify Nominations.

Discrepancies as to Second-Choice Votes Causes Act Throwing Result in Doubt — Democrats Now Boast of Victory.

BOISE, Idaho, Sept. 17.—(Special.)—Idaho is in a state of political chaos, for two members of the state canvassing board, State Treasurer Hastings, and Secretary of State Lansdon, today declared they will refuse to certify all nominations in which discrepancies exist as to second choice votes.

The attitude of these state officers means the remanding of all primary election returns back to the county canvassing boards and to the precinct judges in the 600 precincts of the state for recount, placing practically every one of the state officers in doubt. A recount could hardly be completed until late into the end of the month, and may materially change the Republican state ticket.

Both Lansdon and Hastings declare they will question the right of Governor Brady to certify to his own nomination in the case of Will White, to break the deadlock, which will result, for Attorney-General McDougall and Auditor Taylor say they will vote to certify the nominees.

If the returns are certified to, candidates have decided to apply to the Supreme Court for a writ of review, which, if granted, will cause a recount. The Democrats are already boasting of victory. The Clagstone charges are another club threatening party disruption. The Republican State Central Committee met here tonight and disbanded. The new committee will meet Monday.

## MILL GETS LARGE ORDER

South Bend Firm Shipping 10,000,000 Feet of Lumber Abroad.

SOUTH BEND, Wash., Sept. 17.—(Special.)—The South Bend Mills & Timber Company, of this city, has secured an order for 10,000,000 feet of merchantable spruce lumber to be shipped to the east coast of South America. The order has been divided among several mills on this harbor, and is being cut as rapidly as possible.

This lumber will be shipped around the Horn and is something of an eye-opener, as to the great advantage the opening of the Panama Canal will be to this coast.

The Quinault mill, of Raymond, is cutting a cargo of clear spruce for foreign shipment. This large demand for spruce for foreign shipment is something hitherto unknown on this harbor.

## WHITE IS GIVEN 15 YEARS

## GAMBLERS' COIN ROLLS

SHERIFF CRACKS SAFE, OUT COMES \$4645.50.

Strong Box Is Captured in Raid in Seattle, and Word Is Given Out Lid Must Stay Down.

SEATTLE, Wash., Sept. 17.—(Special.)—Coins of every denomination, amounting in all to \$4645.50, rolled out on the floor of the Sheriff's office this morning when the safe taken from the cellar of the La France house, 516 1/2 Sixth avenue South, Thursday night, during a gambling raid conducted by Sheriff Hodge and his deputies, was drilled open.

It was obvious as soon as the safe door swung open that the money had been hurriedly when the "tip off" came that the officers were in the place.

A Wong, who was released yesterday afternoon, had been loitering about the Sheriff's office all morning, maintaining that the safe did not belong to him, it being the property of a friend. He was present when the safe was opened, and when he saw the coins glittering out on the floor prepared to leave. Sheriff Hodge ordered him sent back to jail.

The presence of the money in the safe was not a surprise to the Sheriff and his men, as they suspected from the start that the heavy iron box contained the bank roll of every Chinese gambler in the lower end of the city.

"I knew the bank roll was in there, but I just wanted to satisfy myself," said Sheriff Hodge this morning. "I also wish to say that the lid is on tight now, and that gambling must cease. I am not only going to see to it that Chief Wapenstein is protected while out on bail, but I am going to keep an eye on the gambling element."

## Direct Primary Candidate for State Printer

At Republican Primaries.

W. S. DUNIWAY of Multnomah County.

In my first campaign for State Printer, I pledged the people of Oregon an economical business administration, square deal for taxpayers, no deals with bosses." Daily during my term, I have been mindful of my obligation to the electors who gave me their trust and confidence. What has been done during my term as State Printer is fairly well known to the people of Oregon, inasmuch as the newspapers have generously given to the public, from time to time, statements of the economies that have saved over \$40,000 to the State Treasury in three years.

Calling the attention of Republicans to the fact that it is honest observance of the laws, rather than any particular system, which is necessary in the printing and all other departments, I respectfully submit my name a second time to the judgment of Republicans who desire economical business conduct of the State Printer's office.
