Despite the drizzling rain which kept many persons indoors yesterday, the Baby's Home Tag day was a success. When counted last night the proceeds amounted to \$6000, and it is expected by those in charge that the amount will exceed this when the receipts are re-

Those who would question the gener osity of Portland people would need only pass down the business streets yesterday and observe the many tags in evidence. The man, woman, child, automobile or dog not tagged was an oddity. On some coat lapels there were tags of many colors, green, blue, pink, red, gray and white.

But the person would lack feeling who could refuse the smilling plea of the young women who braved the

the young women who braved the stormy weather and stood with an um-brella in one hand and offered a tag with the other, and through it all never for a moment lost good-nature cheerfulness.

All day long and evening the young women stood faithfully at their posts, some sheltered from the rain only by an umbrella, while others stood at store or hotel entrances.

Black Tot Attracts Attention.

Not even the success of the parade did the rain mar in any way. Thirty-three bables of the home in automo-biles, headed by a band from the Musicians' Union, traversed the downtown streets. Smiling and waving their tiny hands to the crowd the little tots re-ceived cheer after cheer and were in-strumental in the selling of many tags. There is no doubt that little Rastun

There is no doubt that little Rastun the only pickaninny at the Home, was the feature of the parade. Rastus was in an automobile with Mrs. D. C. Burns, who held the little chocolate-colored youngster up in order that all could get a glimpse of his smiling face.

The only incident which occurred to delay the parade was the breaking down of the car which contained little Caesar, the pet of the Home, who, in charge of Miss Lillian Dosch, led the parade. However, Caesar w s placed in another car and the machines continued on their course.

Marjorie Mahr Gives \$50.

Through the aid of Miss Marjorie Mahr, of the Armstrong Musical Company, \$50 was added to the Tag day funds. Immediately following the afternoon performance at the Lyric Theater, Miss Mahr was wheeled on the stage, in her decorated chair, where whe held a reception to the general public.

When thanked by the Tag day man-agement for the ald she had given, Miss Mahr said, "Oh, it is such a small matter compared to what has been done

Output of Federal Company Will Be Offered to Portland Trade This Week - Cargo Comes to Coast via Cape Horn.

All grades of refined sugar were cut 10 cents a hundred yesterday in all the Pacific Coast markets. This is the first change that has been announced in sugar prices in several months.

The decline may be the beginning of a small-sized war in the Pacific Coast sugar trade. Early in June announce ment was made in these columns that a cargo of 125,000 bags of sugar had been shipped on the steamship Syria from New York, bound for San Francisco. This sugar was shipped by the Federal Sugar Refining Company and speculation was rife in the trade as to what would be the result when the shipment reached its destination. It was, surmised that the motive of the Federal Company in making the ship-ment was to retallate against the Western Sugar Refining Company, of San Francisco, for encroaching on the Eastern company's territory at Missouri River points, and the belief was then expressed by grocery jobbers that a sugar war was inevitable.

The shipment, which left New York on May 31, arrived at San Francisco in the latter part of August. Nothing oc-curred in the market, however, when it got there. A few days ago the Federal Company opened an office in San Fran-cisco and began placing its sugar on the market at a price 18 cents under that of the Western Sugar Refision Comof the Western Sugar Refining Com pany and the California & Hawaiian Sugar Refining Company, which have controlled the market for sugar on coast. Yesterday the two California refineries met the cut by the 10-cent reduction, which was announced here, it now remains to be seen what the Eastern company will do under the

circumstances. Some of this Federal sugar is now Washington and find nothing to compare with Portiand and the small part of Oregon they have seen, and nothing but his oil wells prevents Mr. Piper from moving to this state. They will leave the last of the week for California.

Some of this Federal sugar is now on the way to Portiand by steamer and will arrive here early this week. It is in two grades, fine and coarse. The cargo came from New York around the Horn in fine shape, notwithstanding it passed through the tropics twice. It is understood local jobbers will handle the argument. the sugar.

\$40,000,000 Estate in Contest.

NEW YORK, Sept. 17 .- A contest is romised here over the \$40,000,000 estate of Aaron Barnett, who made his money as a blockade runner in the Civil War. The widow and two children of one of his sons, Samuel Barnett, contend that he drew up a will on July I, 1810, which left them \$50,000. The only will thus far produced in court left the entire estate to Gustav Barnett, another son, and Mrs. Sadie Rosenthal, a daughter, now living Sadie Rosenthal, a daughter, now living in San Francisco. I scarcely think it possible for a British Minister to go back on words so solemn, but I do not trust any declaration, private or public, of any English statesman or any English party.
