Lachmund Reported to Have Offered 15 Cents for Choice Crops. California and New York Market Advancing.

The week came to an end with the hep rket strong and excited and the volume business only limited by the quantity of the offerings. Farmers in some sections were more disposed to consider offers than seriler to the week, but as a whole the rowers were poor sellers. Holders of strict ce crops would not listen to anything nest of the dealers that this price will be

Since the middle of the week Seavey Company has bought the fol-ing lots: At Eugene, R. J. Hayes, 171 es: Owens, 50 bales; Harbert, 60 bales, f several small lots aggregating 120 bales. At Harrisburg, Cartwright, over 200 bales; C. C. Hayes, Schooling and other lots ag-grounting 120 bales. At Salem the Heise lot of 122 bales, and at Woodburn, the Dodge lot of 84 bales, also several lots at Aurora, La Payette, Silverton and Dallas and 350 bales from dealers.

McNeff Bros. yesterday bought 206 bales 34 cents. H. L. Hart closed a deal on 132 bales at 12 cents.

California is following the Oregon mar-et closely. There were sales of Russian Rivers yesterday at 12% coats and 12 cents s paid for Sonomas. An option was taken Sonoma on a big block at 15 cents until Monday, and this has completely blocked the market so far as further business at a

strength and has advanced a full cent since the middle of the week. Wires received yesterday reported that 2214 cents had been and in that state and that more than half a crop has now been sold.

DULLEST WEEK IN WHEAT MARKET. Steady Decline in Values Checks the De-

mand.
The week has been one of the dullest the wheat market that the trade has known in a long time. The steady shrink age in values has had the effect of entire The steady shrinkly checking the demand, white offerings have also been on a very small scale. Prices were quoted lower all around yesterday. Oats and barley were also quiet with for-

mer prices prevailing.

The 20-cent reduction in local grades of went into effect in some quarters fereign wheat shipments are still on an enormous scale. The movement from Russia and Danubian ports in the past week is given by the Merchants Exchange

OREGON EGG MARKET VERY STRONG. From Going Up.

Oregon eggs are very scarce with the demand steadily growing. Efforts were made yesterday to advance the price to 40 cents, but they were not successful, as Eastern eggs were plentiful at 30 g32 cents.

Poultry cleaned up well at steady prices.

The demand has been helped materially by the cooler weather.

No change in the butter market is an-nounced for the coming week. Local but-ter is in light supply, but there is enough Elastern to make up the deficiency.

Six Cars of Bananas Received. Six cars of Bananas Received.

Six cars of bananas arrived resterday in fine condition. Five of them came to Frent street houses and one to a retailer. Grapes were scarce and firm. Another car is due Monday. Apple receipts have been large all week and the demand has been backward. Vegetables of all kinds moved out well with prices generally steady.

Six Months' Training Accomplishes Work Under Supervision of Germans Whose Methods Unique.

CONSTANTINOPLE. Oct. 29.-(Special.)—Few people outside Turkey today realize how easy it would be to toss a firebrand into the international powder barrel in the near East. Nor do they know that, within easy reach of Greece Turkey has for seven months main-tained an army of \$0,000 men on a war 2 footing.

However, every one will recall that as long ago as last April there was a little trouble in Northern Albania. Shefket Pasha was sent to Mitravitza with 10,000 picked Nizam troops from Constantin ple, Adrianople and Macedonia. Aft a while this force was strengthened by 40,000 South Macedonian and Anatolian

disciplined by guns and sabers. But neither here, nor in Athens, nor in So-fin, does anybody believe the army is there for the purpose mentioned in the dispatches. No; the real reason is this— the Young Turks are not going to be caught nanoing.

caught napping.

Apart from the constantly dangerous situation in the near East—we are really living on a volcano whose inner rum-blings we can hear—the Turkish army needed field practice to fit it for eventu-alities. Six months training has done the silites. Six months training has done the work. Some of the finest fighting material in the world, drilled and trained on German methods, hardened by the open life, are now in shape for anybody who cares to trail his coat for a shindy in South East Europe. Everything is ready for sterner warfare, except the trifling detail of hospital equipment that could be ready in a day.

Just now this army is within striking distance of the Greek frontier. By accident or design the spark is as near the fuse as it could be without ignition. And if the conflict comes the prediction may be made that the notorious rout of Lharissa will be as a gentle journt compared with the number of the pared with the punishment of the Greeks when next the soldiers of the Crescent charge towards Athens in the

ELECTION APPROACH CHECKS SPECULATIVE OPERATIONS.

Position of the Money Market Also Adds to the Depression in Stocks.

NEW YORK. Oct. 22.—The tone of the narket was affected today by the attitude of the banks toward borroweres. The show of ease in the call money market is thought to be deceptive and due to the desire of miders to keep resources available for prompt call, in expectation of higher rates. The lacing of \$10,000,000 of one year 4's perest Michigan Central notes in Paris had nunfavorable effect on sentiment, although indicating a possible recourse for credit eeds.

Indicating a possible recourse for credit needs.

The easier tone in the foreign exchange market in New York was ascribed to the section of the London money market in part and to the effect of the sale of the Michigan Central notes in Paris.

The approach of the last week of the political canvass makes for speculative restraint and depression, through fears of sudden and sensational developments which might threaten a violent shift in the probability of the results.

There was less than the estimated decrease in cash traceable in the bank statement, but it outran the reduction in the reserve requirement setured by the loan contraction and the scaling down of deposits and resulted in an inroad of over \$1,000,000 in the surplus item.

LIVESTOCK TRADE QUIET, AS USUAL ON SATURDAY.

Business Active Throughout the Week With a Firm Demand for Cattle and Sheep.

The week closed with fairly steady con-tions prevailing in the livestock market, s usual on Saturday, business at the yards

of Junction City, one car of cattle, caives and hogs.

The weekly market letter of D. O. Lively, general agent of the Portland Union Stock Fards Company, follows:

Heccipis at the Portland Union Stock yards for the week have been as follows:
Cattle, 1321; calves, 333; hogs, 2225; sheep, 2356; goats, 318.

The cattle market has been steady to a shade stronger than for three weeks preced-The cattle market has been steady to a shade stronger than for three weeks preceding with a prompt call for all arrivals. The quantity of thin cattle coming into the market at this time indicates that the earlier plans for extensive feeding this Winter in territory tributary to the market, have been changed. Due to the tightening of the money market, intending cattle-feeders were not able to get the money necessary for their Spring and Winter operations, and in consequence many of the cattle that should have gone to feed lots are coming to market. Packers are someghat alarmed over the promised shortage of quality cattle for the early Spring market. This is a profitable branch of the livestock business, and those who make a study of conditions make the statement that this is a year when high-priced feed can be put into cattle with safety.

The hog market has been adjusted in keeping with the market East. The lower level of prices in comparison with the high mark has been set at all of the central markets in the United States, and at the lower level that market has been steady to strong. The large proportion of the supplies of this market came from Nobraska Donta.

The sheep market has been fairly well supplied and prices have been steady to strong. An attractive demand exists for a liberal quantity of sheep, especially of good

supplied and prices have been steady to strong. An attractive demand exists for a liberal quantity of sheep, especially of good quality. Buyers are a little bit alarmed over the scarcity of fed sheep in the country and the commission men are asking for shipment from distant points.

Much interest is being manifested in the forthcoming meeting of the National Wool Growers' Association, which will be held in Pertland. Cables Are Lower, Cash Demand I Poor and World's Shipments Are on a Large Scale-Increase

in Visible Supply.

CHICAGO, Oct. 29.—Wheat values in for-eign markets were generally lower. There was no new export business and cable bids were entirely out of line. Furthermore, the domestic cash demand was very slow. Re-vised estimates of world's shipments for the week developed uncertainty as to Rus-sia, from which country, however, the for-wardings were believed to be heavy. The visible supply in the United States, too, gave signs of a small increase. Confronted by signs of a small increase. signs of a small increase. Confronted by such circumstances, selling pressure grew from a small beginning early to large proportions as the session approached an end. Finally stop loss transactions had a complete monopoly in the pit. December ranged from 90% to 92% c and closed within a shade of the bottom for the day at 90% 90% c, a not loss of 1% 91% c.

As usual on Saturday, business at the yards yesterday was quiet.

The market for cattle has been good throughout. There has been no eversupply recently, either in quantity or quality and buyers have stood ready to take good beet at all times. The mutton market shared considerable strength in the last half of the week, which was not unexpected, as the supply has been under the demand. Hoga which opened steady at 13.69, broke a dime before the week was half over and the last sales were made at that flaure.

CASH LOSS IS SMALL

NEW YORK BANK STATEMENT SHOWS SLIGHT CHANGES.

Shifting of Loans to Outside Institutions Ceases-Actual Surplus Nine Millions.

NEW YORK, Oct. 29.—The statement of the clearing-house banks for the week shows that the banks held \$10,464,000 more than the requirements of the 25 per cent reserve rule. This is a decrease of \$336,000 in the proportionate cash reserve as compared with last week.

The following is the New York Clearing-House summary of the statement of banks for the week ending October 29:
Clearing-house banks, daily average. Clearing-house banks, daily average

| Clearing-house banks, dally average | Decrease, | De Clearing-house bakes, actual constitution of ay—

*Increase.

The Financier will say:
The statement of actual conditions as issued by the New York clearing-house banks showed a loss in cash of only \$2.881,000, or about half the amount indicated by the known, movements of the week. As loans made a further decrease of \$1.838.700, this operating with the decrease in cash before the about a contraction of \$7.414,700 in deposits, and the excess reserve was lowered only \$1,027,000, making the present surplus above the 25 per cent requirement \$9,543,423.

The statement of actual conditions as issued by the New York clearing-house banks about a construction of \$1.838.700, this operating with the decrease in cash before the most interesting gatherings of interesting ga

surplus figured on the average basis standing at \$10,483,625.

The summary of state banks and trust companies not reporting to the clearing-house was interesting in that it showed a cessation of the expansion of loans which has been so much in evidence since the clearing-house banks have been shifting the burden of loan commitments to outside institutions and for the first time in some weeks the trust companies and other institutions reported a decrease amounting to about \$1,250,000 in loans and a decrease of \$4.855,500 in deposits.

The loans of the clearing-house banks and of the trust companies are still considerably above deposits and as the outflow from the banks to other centers and to Canada is not over, present conditions probably will not change for some time to come.

IRELAND LIKES NOVELS

CONSERVATIVES ALARMED AT TASTES OF PEOPLE.

Andrew Carnegie, However, Does Not Share Their View, Contending Fiction Is Incentive.

DUBLIN, Oct. 29 .- (Special.) -A particularly interesting side-light thrown on Ireland's campaign for popducation by some disclosures several of the larger public libraries have been making about what sort of liter-ature Irish people read. The tendency of all these libraries is to call special attention to the high percentage of novels in this diet of culture. In Dublin alone 200,000 novels were lent to eager readers. In England the usual percentage of fiction borrowed from public libraries averages up at

about 70, and considerable horror is manifested when it rises to 75 or 80 per cent of the whole. But the proportion in Dublin reaches the prodigious total of 85 per cent and novel reading thus costs the ratepayers over \$16,000 In Belfast, Cork and other cities the preponderance of fiction is quite as noticeable. This state of affairs has excited considerable alarm in conserva-tive quarters, particularly when i bappens that only one person out of 250 comes looking for books on reli-gion. But the novel-reading habit in Ireland has many warm advocates, among them no less an authority on

the library question than Andrew Car-negle. Speaking at Belfast, the Laird of Skibo paid a very high tribute to fiction as offering the greatest incen-tive to acquire a taste for reading. And once this taste is acquired, he said, people can be left to themselves to turn to more serious literature, That is one reason why Carnegie has so often stipulated that his gift librar-les shall be well stocked with fiction, Another is, that he had a good chance himself, when a boy, to pore over the novels of Scott, Dickens and other great writers. As with all his opportu-

nities, Carnegie made the best use of this one, and is confident that the fic-tion habit in his case played a large part in the great things that have ome since. The remaining 15 per cent is very curiously apportioned. According to Chairman Walter of the Public Librar-tes Committee, science and art only at-tract 2 per cent, while political economy is only interesting to one-quarter of one per cent of the people who pat-ronize the libraries. Education draws about one and one-half per cent and

BURIAL RIGHTS IN FRANCE TO BE RESTRICTED.

Parish Priest, Commenting, Believes Pronouncement Will Be Severe Blow to Church.

PARIS, Oct. 29. — (Special.) — Some slarm has been caused in Paris by the announcement that the Vatican will shortly issue a pronouncement on the right to Roman Catholic burial. It is said that the Papal pronouncement will instruct the clergy to refuse the burial service to all who have not received the sacrament the last Easter before death.

If confirmed, the statement will al-

most undoubtedly cause greater dis-favor toward the Vatican than has al-ready been produced by the condemnation of the Silion and the Papal order changing the age at which children are to receive the premiers communion. The age is to be reduced to 7 or 8, whereas hitherto it has been from 12 to 13 or 14. Interviewed, a parish priest said that he was quite ready to believe the truth of the statement about a coming Papal instruction. "It will be another saddening blow. tion of the Sillon and the Papal order "It will be another saddening blow to the French Church," he said. "It is evident, indeed, that there are very many who do not conform strictly to the precepts of the Roman Catholic religion, but who nevertheless receive Roman Catholic burial at the desire of their parents or relatives. If the new order be applied it will mean that only two persons out of ten will receive such burfal. Roman Catholic families will undoubtedly be annoyed

members of their family. The num-bers of the church will become even thinner. "From another point of view, it will become more difficult to make converts when practicing such principles. Nevertheless, if the instructions are as described, the clergy will undoubt-edly submit, the more certainly as Pope Plus X. shows no disposition at any time of going back on his pro-nouncement."

Do not miss the investment opportunity of this great Oil age. Make money as the California millionaires have made it—by investing in a good Oil Company with a future before it. The Portland Oil Company is in the proven Kern River Oil Field. California, which is the oldest and best-known field in this great Oil State. The Portland Oil Company has 40 acres surrounded by proven territory, in the Kern River field wells are drilled easily and are comparatively shallow. The field is the best equipped with storage and pipe line facilities.

A few days ago gas was struck in Section 8, 28-28, which is not far from the Portland Oil Company's property. The gas pressure has thrown the tools out of the well several times. The indications are better than they every write on the Herling Oil Company's property (not far from our property) which is one of California's best paying properties. Their stock started at 330 per share and has sold as high as 34.50 per share and has sold as high as 34.50 per share. Think of that profit! There is no reason why the Portland Oil Company is solng to advance to much higher prices in the next few years, and the stock of the Portland Oil Company is sound floor price of 10c per share is no reason why the Portland Oil Company is sound floor price of 10c per share is pour opportunity.
