NEEDS OF PEOPLE

Colonel Hofer, Predicting Victory. Tells Why Nominee Will Get Votes.

WORTH HAS BEEN TESTED

Steadfast Support of Right When Contrary Votes Were Valuable Has Demonstrated Integrity Beyond All Question.

Colonel Hofer, of Salem, who has been ever a great deal of the state in the present campaign, does not hesitate to predict a complete Republican victory. lie says that Acting Governor Bower man is stronger with the masses of the people than any of his critics imagine.

"I know what I am talking about when I say that Jay Bowerman is nearer the hearts of the producers and the laboring people than any man the Republicans people than any man the Republicans have nominated in the past 20 years, said Colonel Hofer. "He was reared in poverty on a little timber farm east of Salem, and from the time he was bly enough to work, cut cordwood and hauled it to town. There is no harder work that a young fellow can engage in, and he had 10 years of it, which give him hands like an engine stoker, arms like a blacksmith and a physique like John L. Sullivan.

Sincerity Wins People.

"He worked his way through college, was admitted to the bar and landed in was admitted to the bar and landed in Eastern Oregon in the little county seat of a new county flat broke. His hearty, sincere way with the people soon won their affections. He was a commoner all the time. He has remained on the level. There is not a farmer or stock-raiser in Gilliam County comes to town raiser in Gillam County comes to beat that Jay is not as ready to give him the glad hand as he was when he landed there and didn't know a soul. He has the confidence of every man he ever came in contact with and takes a smoke or borrows a chaw of tobacco with any of tham."

or borrows a chaw of lobacco with any of tham."

These things are not put on with Jay Bowerman for political effect. He is not a posser during a political campaign. He knows the hardships of life on the farm and deprivations of people who work for a living. His father was a Pennsylvania German and Howerman is an American to the core. He is a man of liberal ideas and is not afraid to mix with any crowd. On the other hand, he is liked because, as public prosecutor in Eastern Oregon, he fearlessly enforced the laws against the near-beer joints in the dry counties whenever called upon to do so. He will be found absolutely fearless in enforcing the laws as Governor of the state, and yet he will be a democratic executive, not run by any select circle or aristocracy, political or otherwise.

Governor for All People.

Governor for All People.

"He will be a Governor for all the people of Oregon. He will be a Governor for the Americans, for the Germans, for the Irish, for the Italians and the Canadians, and the Finns or anybody else who is a citizen of this state. He will know no favored class, but will be a Governor for all the people alike, if I am any judge of human nature. He is especially sympathetic with laboring men. Whenever he has to decide between serving their interests and the interests of employers he will be found to be absolutely impartial, and if he has any favors to bestow or any leanings to show I know from personal acquaintance with the man that his sympathies will go out freely to the under dog in the struggle of society.

Whenever he has to decide between serving their interests and the interests of employers he will be found to be absolutely impartial, and if he has any favors to bestow or any leanings to show I know from personal acquaintance with the men that his sympathies will go out freely to the under dog in the struggle of society.

If do not want a Governor of this state who can be dictated to by the millionaires in his public policies, nor by the big corperations, and I know what I am talking about when I say that Jay Bowerman will be absolutely fair and impartial in his dealings with both sides of this question. His sympathies are with the small home owners and the small property owners and the small property owners as been one of them all his life. His interests are identical with theirs and, if they were not, I would not be supporting him.

BOISE. Idaho, Nov. 5.—(Special.)—A severe Winter in Idaho and the intermountant country this year will mean the loss of thousands of dollars to sheep men at condition below the average at this time in the Fall, but they cannot stand unusually cold weather, according to the important declaration of J. E. Van Duesen, of Emmett, Idaho, one of the prominent woolmen of this state.

"It is very seldom that a hard Winter is followed by a dry Summer and the sead condition that the sheepmen all over the West have been forced to face during the past year and our sheep are not in the proper condition new to withstand a severe Winter, declared Mr. Van Duesen.

"Should we have a Winter which to compares with last Winter the loss will be tremendous. Sheep will have any and the service will have a will be tremendous. Sheep will have a will be tremendous. Sheep will have a will be tremendous. they were not, I would not be support-

Trial Has Proved Worth.

'I have seen Jay Bowerman tried in three assions of the Legislature when, if he had been a cheap, mercenary politician, he could have sold his votes for a competence and chuld have got a position for life at a fat salary from some big corporation. When we put through the appropriation for the free locks and canal at Oregon City we had his unselicited support, and it meant his unsolicited support, and it meant knocking off 50 cents a ton on all the freight that is shipped by water or by railroad into the Willamette Valley and out of it. That bill means a reduction of hundreds of thousands of dollars anmusily to the big transportation com-

panies.

"Jay Bowerman, struggling with poverty all his life, could have fauthered his nest by protecting their interests, which many machine politicians ered his nest by protecting their interests, which many machine politicians
in Western states would have done.
When the railroad amendment to the
constitution was put through the last
Legislature, his vote would have produced a tie in the Senaie. The entire
staff of hig corporation lawyers on the
Pacific Coast, including William F.
Herrin, then of San Francisco, were
jobbying against the bill. Bowerman
took the floor of the Senate and made
the memorable speech that carried the
fay.

Among the workers for the railroad among the workers for the rational amondment at that session were men like C. E. S. Wood, W. S. U'Ren, George E. Chamberlain, C. S. Jackson, of the Dregon Journal, and other prominent Dregon Journal, and other prominent reformers, who are denouncing the hero of that battle for the people's rights, then President of the Senate Bowerman, as a cheap, reactionary tool of the corporations. It is simply political rot used by men who are hard up for campaign material. They have no facts on which to base a successful political fight against the Republican nominee and are resorting to misrepresentations. If Mr. Bowerman were the Democratic candidate for Governor his record on these matters that are vital to the shippers and producers would be lauded to the skies by his present detractors.

This exposes the insincerity of their campaign.

"The boys blamed everything onto me, so I ran away," said Willie Neuman, a 19-year-old fugitive from the Boys' and Girls' Aid Society, who was found, travelstained and tired, at East Water and East Morrison streets yesterday after-noon by Traffic Policeman Sherwood. after four days' absence from the home. The little vagrant has had a remarkable career for one of his age, and has already had legal title to three surnames. His parents died several years ago and he was adopted by his grandmother. Last year a neighboring family took care of the boy, and suddenly, without notice, removed from this city to Astoria. They had been there several menths when the boy's whereabouts were discovered by the grandmother, who instituted legal proceedings in Clatsop County and recovered him. Later she became unable to support him and turned him over to the society.

Willie says that he was well treated by the officers, but that the bigger boys made him a scapegoat. Last Tuesday, after some little infraction of the rules, he decamped from the Kern Park school, which he was attending, took a bicycle and rode to Hillsboro. He was returned to the home last night.

REFORM LIBRARY STARTED

Municipal Literature to Le Feature at University of Oregon.

UNIVERSITY OF OREGON, Eugene, Or. Nov. 5.—(Special.)—Through the efforts of Professor Young, head of the department of economics, a bureau of statistics has been established in the

department of the balance of the University library which, it is believed, will be of great service to the state at large in municipal matters.

This new feature will be in the form of a municipal reform library which is to be a sort of clearing house for all municipal literature. Oregon cities and city reform organizations desiring to investigate questions relative to improved city government will have free access to all records and references.

The idea of such a bureau at the University was suggested by similar ones at the Universities of Wisconsin, Kansas and Illinois and of Brown Kansas and Illinois and of Brown

Bournelsm Is Apparent.

5-It has been shown conclusively that Jonathan Bourne, multi-million-aire Senator from Oregon, whose unlawful use of money has marked every incident in his political career, is the power back of West. Bourne's in-terest is the building up of a state machine, with West at the wheel, to help return Bourne two years hence to the Senate, where he has utterly failed to represent the state, being absent from the sessions most of the time. Voting with Aldrich on the tariff and permitting \$7,500,000 belonging to Oregon from the sale of timber and prairie lands to be gobbled by other states for the reclamation of their arid lands.

6-Bowerman's stand on the primary law, Statement No. 1, and all the laws of the people is clear-cut and subject to no misunderstanding. "I will veto any enactment of the legislature aimed at any of the people's laws," he has said at every meeting of his campaign. 7-Stumping the state in Bowerman's

behalf are such progressive leaders as Dan J. Malarkey, Grant B. Dimick, Stephen A. Lowell, E. Hofer, Albert. Abraham, R. R. Butler and John F. Lo-

Labor Record Clear.

5—Efforts to set the labor interests against Bowerman by a campaign of misrepresentation have failed in the light of his legislative record and his advocacy not only of all the people's laws, but of numerous measures desired by the laboring classes.

2—Oswald West's long residence in the United States without taking out his naturalization papers. West pressed a similar charge against Dr. James Withycombe, who was defeated by Chamberlain four years ago.

10—Comparison of the records, principles, achievements and Americanism of the two candidates.

At headquarters of the Republican State Central Committee a detailed summary of the situation shows five 5-Efforts to set the labor interests

Linn and Lincoln will give West a strong vote, it is learned, but small Bowerman majorities are forecasted by the central committees of those coun-ties. Jackson County was looked upon as West territory until a few days ago, when continued encouraging reports began coming from that section.

Committee Makes Figures.

The Republican State Committee claims Mulinomah for Bowerman by from 3000 to 3500, Baker by from 250 to 800, Union, Harney, Mulheur and Grant by 150 each Gilliam, Sherman, Wheeler and Morrow, forming the district of Bowerman's residence are expected to give a nine-to-one Bowerman vote. In the primary election Gilliam, Sherman and Morrow gave him a nine-to-one vote.

Wasco County is looked to for a good owerman lead, for the Democrats here are working for Bowerman, fol-owing the charge of A. S. Bennett, remocratic leader and anti-corporation an, that West is too close to the cor

Holiday Silver May Be Minted.

WASHINGTON, Nov. 5.—Treasury officials may have to change their minds after all, and order the mints to click off a million bright sliver coins for the Christmas holidays. It has been customary to do so for many years, but as the Treasury has on hand about \$22,000.00 in good coins, even though they are not bright and shiny, it had been decided, in the interest of economy that no new ones would be turned out. Word from various rural localities out of Dayton reached here to the effect that turkeys are extremely scarce this Fall, and whereas in former years buyers have shipped large quantities to Spokane, Walla Walla, Seattle and Portland, it will puzzle markets to supply the local demand.

There is no market, but it will open next week at about 20 cents wholesale.
