

COLONEL'S POLICY BOUNDLY SCORED

Representative-Elect Littleton, of New York, After "New Nationalism."

PUBLIC MEN ARE ATTACKED

Speaker Before St. Louis Commercial Club Declares New Kind of Men Needed in Directing Affairs of Country.

ST. LOUIS, Nov. 19.—Representative-elect Martin W. Littleton, of the First District of New York, which includes Oyster Bay, in an address to the Commercial Club here tonight on "Individualism," attacked the "New Nationalism" of Colonel Roosevelt.

"What is needed," he declared, "is not a change in the form of our Government, but a change in the character of men."

Basis of Civilization Told. He said that civilization of the American Republic is built upon the genius of individualism, and that the answer to the world's progress has been the individual. He referred caustically to those who would create "over-Government."

Change is Recited. He recited the change that came with the storm of criticism and explained that in most instances the real culprits escaped. He blamed the politician serving the public for the failure of justice and for the discontent that set one class of men at the throat of another in blind and unjust hate.

After his address Mr. Littleton in referring to Colonel Roosevelt's epigrammatic utterance, "Every dog has his day, but the night belongs to cats," paraphrased a nursery rhyme.

MULTNOMAH COUNTY ENDED County Court Completes Election Returns on County Offices.

Final figures of the vote in Multnomah County for county officers were arrived at late yesterday afternoon in the County Clerk's office.

Table with 2 columns: Name and Vote Count. Includes County Judge, County Auditor, County Treasurer, etc.

MEXICAN REBELS WAITING

It is certain more than 100 had been killed in the conflict. Aquiles Cerda, whose house was the scene of the fight, was killed while retreating in a tunnel where he had taken refuge.

right that the daughter of Cerdan shot down the chief of police, and from that time until the surrender probably 2000 shots were fired by both sides.

The fray lasted for three hours and during that time a constant fire from the besieged and besiegers was kept up. Many of the soldiers went to the tops of adjoining houses and from those points of vantage poured a steady stream of bullets into the home of Cerdan.

Bullets Gone, Fire Ceases. Within the dwelling the revolutionists returned the shots. Those who fell under the fire of the besieged lay in the street until the fray ended, which was only after the rebels had exhausted their ammunition.

Upon slackening of fire within the house, the troops rushed in and captured the rebels.

Not a pane of glass remained in the window frames of the house, the doors were riddled and hundreds of bullets were embedded in the walls, while dead and wounded lay in the yard, rooms and halls.

Telegrams from Torreon, in Northern Mexico, say four men had been arrested today when the police broke up a meeting of Maderistas.

Revolt Documents Found. Papers, which are said to have revealed plans for assault upon a bank as the first move in the proposed insurrection, were secured.

He added that the trouble which had been expected at Orizaba, Guanajuato, Guadalajara and Toluca had not materialized.

Extradition is Asked. It is learned that the Mexican government had made demands upon the United States for the extradition of Madero, charging him with the revolution, which the government of the states enacted or, in the absence of a prohibition, which they failed to enact.

Both the American and Mexican governments are active along the border and have secret agents in the field, the one government in an endeavor to prevent violation of extradition laws, while the other is making every effort to prevent the smuggling of arms and ammunition to avail in case of an uprising in the interior.

As far as the actual conditions along the border are concerned the Mexican government has a sufficient force stationed in Nuevo Laredo, east of this city, to prevent any serious border government uprising, while the United States forces on the American side stationed at Fort McIntosh are able to cope with any outbreak of anti-American feeling.

MADERO IS STILL MISSING

Interview Attributed to Mexican Candidate Reported Untrue. SAN ANTONIO, Tex., Nov. 19.—It was learned today that Francisco I. Madero, former anti-electionist candidate for President of Mexico, left San Antonio but no information is given out as to his whereabouts.

A long-distance telephone message was received here that a man answering Madero's description was seen in the Springs. There were four persons with him.

An interview on the Mexican situation, given out last night and attributed to Madero, is pronounced untrue.

RACE FEELING NOT SHOWN

Families Leaving El Paso, Though Danger is Remote. EL PASO, Texas, Nov. 19.—In addition to the wholesale arrests, scores of residences have been searched for firearms which were confiscated when found.

HASSALO CAPTAIN FINED

EXCESSIVE SPEED IN HARBOR LIMITS CHARGED. Vessels Lying in Stream Crash Together in Heavy Swell, Says Prosecuting Witness.

For sending the steamer Hassalo through the harbor at the rate of 14 miles an hour, endangering shipping, Captain Olney was fined \$50 in Municipal Court yesterday. Appeal was taken to the Circuit Court.

Policeman Lillis of the harbor patrol was complaining witness. He testified that when inspecting the French bark Babine Cheyave at the North Bank dock he saw the Hassalo coming through the Steel Bridge at a high rate of speed and took her time.

He ascertained that she went from the bridge to the harbor beacon, a distance of 2800 feet, in 4 1/2 minutes, being at the rate of nearly 14 miles an hour. Lillis said he was forced to order his engineer to stand off with the steam engine to prevent her being smashed against the barge, and that the Babine Cheyave and the British steamer Rupert City, against which the Hassalo was passing, were thrown from their places and cushions were toppled off the seats in the stern.

VOTE LARGEST IN OREGON HISTORY

Democrats Cast One-Third of Total Ballots in Recent Election.

WEST'S PLURALITY 6152

Official Count, Completed, Shows Gains for Prohibitionists and Socialists—Crawford Polls Largest Vote.

Oregon cast the largest vote in its history in the recent general election, according to the official returns, a compilation of which was completed yesterday.

The vote cast for candidates of all parties for Governor totaled 118,442, or approximately 7600 more than were cast for Presidential electors in 1908. The total vote cast in that year was 110,889.

Both the Socialist and Prohibition parties showed gains in number of votes cast in 1910 over 1908, but the percentage of the total vote cast is but very slightly increased by the Socialists, and not greatly increased by the Prohibitionists.

The total figures compiled from official returns, but which have not yet been canvassed by the State Election Board, give Oswald West, Democrat, a lead over Jay Bowerman, Republican, for Governor of 6152. West received 54,853 and Bowerman 48,701.

In the First Congressional District the plurality of W. G. Hawley, Republican, is 7921, he having received 26,264 votes to 18,333 for R. G. Smith, Democrat.

In the Second District, A. W. Laffery, Republican, has a plurality of 11,145, having received 39,642 votes to Manning's 19,497.

The total vote cast on the Congressional ticket was 115,619, of which the Democrats polled 77,830 or almost exactly one-third. The right of a political party to participate in primary elections in Oregon is based on the Congressional vote, the minimum limit being fixed at one-fourth of the total vote cast.

On the Supreme Court ticket Will R. King, non-partisan candidate for the six-year term, is defeated by 12,326 and W. T. Slater, the non-partisan candidate for the four-year term, is defeated by 27,460.

A. M. Crawford, Republican candidate for Attorney-General, received the highest individual vote of any candidate but was not opposed by a Democratic candidate, his one opponent being C. C. Brax, Socialist. Mr. Crawford received 83,466 to Brax's 19,557.

The following are the complete totals on each office, based on official returns from every county in the state:

Table with 2 columns: Candidate Name and Vote Count. Includes Governor, State Auditor, State Treasurer, etc.

MEMBERS SEEKING HARMONY

Ben Selling Out for President of Senate—Eaton for Speaker. The Multnomah delegation in both the House and Senate of the Legislature is striving to adopt a harmonious policy and programme for the session and will endeavor to act as a unit in selecting the speaker of the House and president of the Senate.

date for president of the Senate. It is said that Dan J. Maloney might be induced to accept the presidency of the Senate, but Mr. Maloney has given notice that he is not ambitious for the position and that he holds harmony paramount to all other matters, for the good of the party.

The Legislature is overwhelmingly Republican and the state will have a Democratic Governor, harmony and unanimity are being urged by old leaders in the political game for party protection, if nothing more.

Politicians are keeping an eye to the year 1912 when the Democrats are expected to make a strong effort not only to place Oregon in the Democratic column in state affairs, but in National affairs. The action of the Legislature, the shrewd ones contend, will go a long way toward marking out the future of the Republican party in Oregon, and for the season efforts will be directed to avoid friction of any kind.

One line of gossip has it that Multnomah County will be allowed the speakership of the Senate and the speakership will go to an acceptable Representative from some other portion of the state. Just how far this sentiment goes among the coteries of the old politicians who assemble daily at the Imperial Hotel can tell, and their predictions are based largely on how they would have things go.

Much of the speculation about the presidency of the Senate and speakership of the House will be settled when the Multnomahs hold their conference and select their candidate for president of the Senate. Until that time there will be no crystallized movement in behalf of any one man for either place.

TABLETS FOUND MARRED

Professor Hilprecht Resigns After Bitter Controversy. PHILADELPHIA, Nov. 19.—(Special.)—Herman Hilprecht, famous because of the fierce controversies which his Babylonian discoveries have aroused, has resigned from the faculty of the University of Pennsylvania.

His resignation has been in the hands of university authorities since August 26, last, but no announcement has been made of what action, if any, the authorities have taken.

When Dr. Hilprecht was in Germany last Summer he was informed by scholars in whose word he had every faith, that some one had been tampering with his tablets from Babylonian excavations in the museum of Archaeology at the University of Pennsylvania.

When he returned to the university he hastened to the board of managers of the museum and told them of reports that had been carried to him in Europe. An investigation proved the reports to be true, and Hilprecht resigned.

Indoor Baseball Season Opens.

Ragged playing and heavy hitting marked the opening game of the Indoor Baseball League last night at the Armory, the Spaldings winning from the Gorham "rubbermen," 23 to 4. The rout of the rubber company boys was complete, the victors scoring as well by pounding the offerings of several pitchers all over the floor.

The number of errors made, coupled with a poor battery work by the home side, made a rather unimpressive opening for the season of this clean, popular winter sport. Henderson, the Spalding pitcher, set a high pitching record for the first game by striking out 21 batters and allowing only five hits. Twenty hits were made off the opposing twirlers.

GREY NEW HAIR IN 30 DAYS

Remarkable Result of the New Hair Grower, Crystals, Causes Big Stir Among Hair Specialists. ACTUALLY GROWS HAIR AND CORRECTS ALL SCALP AND HAIR TROUBLES.

Prove It Yourself by Cutting Out and Mailing the Free Coupon Below Today. "By George, I never saw anything like the effects of that new treatment, Crystals, for growing new hair. Today I can think of a miracle than a toilet preparation," said a well-known gentleman yesterday in speaking of the revolution he has made in his natural color of hair.

Merely cut out and mail the coupon below, and you will receive free particulars of their marvelous new product by return mail.

Baldness, Dandruff, Itching Scalp, Etc. FREE CRYSTALS COUPON. Cut out this coupon today and mail to: Dr. J. C. Adams, Dept. No. 473, Scranton, Pa. for free information regarding Crystals. Let's get good tomorrow to all Eugene. Mail good tomorrow to all Eugene.
