BEST APPLE SHOW OF WORLD CLOSES

at Hood River Is Finest on Continent.

FRUIT MAY BE SENT EAST

One Thousand Boxes of Several Varicties Differ in Merit by Only One Point-Upper Valley Product Shines-Prizes Given.

HOOD RIVER, Or., Nov. 26,-(Special.)-From many points of view the greatest apple show ever held at Hood River was brought to a successful close tonight.

Approximately 1000 boxes of apples of such excellence that they won the prizes over one another by only one point, were on display. The far-famed Spitzenbergs, Newtowns, Ortleys, Ar-kansas blacks and other varieties, shown to perfection at Hood River, were on parade.

Although the show this year was extended one day longer than usual, it was not until a late hour last night that the judges reached their verdict. Many of the features that have made former shows somewhat objectionable were lacking this year. The exhibitors have had so much more experience that now they know just what to exhibit and what not to display. Altogether there were more than 1990 boxes of apples which were said by the judges and by unblased spectators to be the finest collection of fruit ever placed on display at any apple show anywhere.

Year-Old Fruit Perfect.

A feature of the show was part of a box of Newtowns which were exhibited at last year's show, over a year ago, and yet today they are in perfect condition

In attendance at the show were many prominent Portland people. Other cities and other fruit-growing districts of the Northwest as well as far dist-ant points were also well represented This afternoon the show was thought to be such an excellent one, that a meeting was held to provide ways and means to send it back to New York City in its entirety for exhibition pur-poses. This will undoubtedly be done. In expressing his opinion of the Hood

who judged the big show at Spokane, and who is considered the foremost ap-ple expert in the world, said that in point of quality and pack the Hood River show was the finest he has ever known to be put on display on the American continent.

Upper Valley to Fore.

One of the largest exhibits at the show was 69 boxes of upper-valley fruit, grown at an altitude of 1600 to 2000 feet. This has shown conclusively that the upper-valley can grow as the fruit and as extensively as any region in the Hood River country. The fair this year was conducted under adverse of the weather than the strength of the strength verse circumstances as the weather was not the best and the hig Spokane show called for an outlay of money and time by the men who have taken the greatest interest in the smaller show at home. The success of the Hood River show, however, is unquestioned. It sets at rest all doubts among experis not only here, but in all the nding district, as to the supremacy of the Hood River apple.

SUPREME COURT REVERSES SEATTLE ARMORY SUIT.

Scores Are Injured When Balcony Railing Gives Way at Marathon Races-Court Reverses Self.

OLYMPIA, Wash., Nov. 26 .- (Special.)—Matthew Dow and others, doing business as Matthew Dow & Co., who built the Seattle Armory, are not responsible for the accident on the night of May 6, 1909, when scores were hurt at an athletic meet, holds the Supreme Court today, in reversing the King County Superior Court, which granted a new trial in the case of Cecil Thornton, who sued the contractors through his guardian.

The contractors had turned over the building and it had been accepted by the state, and they cannot be held responsible because the gallery railing falled to stand the unusual strain. broke and hurled scores of people to the floor below. The decision states that the finish of the 10-mile marathon race between Scattle and Portland runners, according to witnesses, was as dramatic as the race between Messa. la, the Roman, and Ben Hur, the Jew, as related by Wallace, and the crowd was simply wild at the time.

The Seattle Athletic Club was freed Main street to the city limits on the east. from blame in a former case, so now the state can only be sued, but such an action cannot be maintained without the consent of the state.

In deciding the case, the Supreme Court reverses itself and says that when the jury corrects a mistake in instructions, the error is cured, atthough the opposite principle has been followed for years. The court says litigants are not to be put to needless ex-pense, and so upholds the jury's verdict in this case, which was contrary to the court's wrong instructions.

Do Not Try to Drive and Force It to Work When It Is Not Able or You Will Suffer All the More.

You cannot treat your stomach as me men treat a balky horse; force, drive or even starve it into doing work at which it rebels. The stomach is a patient and faithful servant and will stand much abuse and ill-treatment before it "balks," but when it does you had better go slow with it and not attempt to make it work. Some people have the mistaken idea that they can make their stomachs work by starving themselves. They might cure the stomach that way, but it would take so long that they would have no use for a stomach when they got through. The sensible way out of the difficulty is to let the stomach rest if it wants to and employ a substitute to do its work. Stuart's Dyspepsia Tablets will do the work of your stomach for you and the work of your stomach for you and digest your food just as your stomach used to when it was well. You can prove this by putting your food in a giass jar with one of the tablets and sufficient water and you will see the food digested in just the same time as the digestive fluids of the stomach would do it. That will satisfy your mind. Now, to satisfy both your mind and body take one of Stuart's Dyspepsia Tablets after eating—cat all and what you want—and you will feel and what you want—and you will feel in your mind that your food is being digested because you will feel no dis-turbance or weight in your stomach; in

fact, you will forget all about having a stomach, just as you did when you were a healthy boy or girl.

Stuart's Dyspepsia Tablets act in a natural way because they contain only the natural elements of the gastric juices and other digestive fluids of the stomach. It makes no difference what condition the stomach is in, they go right ahead of their own accord and do their work. They know their business and surrounding conditions do not influence them in the least. They thus relieve the weak stomach of all its burdens and give it its much-needed rest and permit it to become strong and healthy.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents sale by all druggists at 50 cents a box. They are so well known and their popularity is so great that a druggist would as soon think of being out of alcohol or quinine as of them. In fact, physicians are prescribing them all over the land, and if your own doctor is real boxes with you be will tell. is real honest with you, he will tell you frankly that there is nothing on earth so good for dyspepsia as Stuart's Dyspepsia Tablets,
