Cannon Denounces Wilson.

Mr. Cannon, who followed Mr. Clark, criticised Dr. Wilson for the stand he has taken in the New Jersey Senator-ship contest. He deplored the undue activity of newly-risen leaders, who, he said, usurp, without authority, the right of the Legislature to choose whom they see fit to represent the state in the National Congress. The President said the United States had excellent coast defenses for every important harbor that an enemy would enter. He summarized the prepared-ness of the country for war by say-

The Army is so constituted that we could enlarge it from a skeleton organization into a much larger body. We ought to have more trained officers so as to fur-nish the teachers to a larger body of men that war might require us to enlist. "There has been a good deal of talk in the papers and some reference in Congress to the supposed helpless condi-tion of this country in the event of a foreign invasion. I venture to think that much more has been made of this than the facts, calmiy considered, would jus-tify.

Fully 200,000 Republicans stayed at home in the last election and Stimson was de-feated. That is the story in New York. In other states progressive Republicans were winners and the result of the elec-tion, in my judgment, marks the passing of the 'old party hacks' and the advent of men and principles which will keep pace with the progress of the world."
