BY RUSK FORCES

Supporters of House Speaker Say Strength Suffices to Rout Eaton Men.

VOTE BEFORE 35 TO 22

Winning Faction Among Representa tives Says Its Gain Will More Than Offset "Bolters" in Fight Over Committees.

Unless the supporters of Speaker Rusk have grossly misrepresented their strength, Representative Enton and his insurgent followers will be as badly routed in their attempt to deprive Rusk of the appointment of the standing com-mittees of the House as Eaton was de-

This claim of strength is urged by the Rusk people despite the confident meement from the Eaton camp that sufficient votes have been mustered to capture the organization of the House

In the balloting for Speaker, Rusk was elected over Eaton by 35 to 22. The Rusk forces last night claimed a positive strength of between 34 and 39 in resisting the attempt of Eaton to take from the Speaker the appointment of his com-mittees and delegate that authority to a special committee selected from the body of the House.

Eaton and several of his original sup-porters in the Speakership fight repre-sent that the alleged influence of Repre-sentative Thompson, in fulfillment of an agreement with Rusk, in determining the personnel of the committees by dis-regarding the Eaton following, has erved to estrange a number of the mem pson combination and elected Rusk Speaker. As a result, these disaffected members are being counted upon to join the Eaton forces tomorrow and wrest from Rusk the appointment of the com-mittees altogether.

Eaton's Power Questioned.

These protestations of strength by Eston are positively denied by the Rusk-Thompson forces. They aver that by eason of Euton's attitude as a defeated candidate for Speaker in attempting to tob his successful rival of the organization of the committees, has served to frive not less than balf a dozen Representatives, who supported Eaton for Speaker, into the Rusk camp in the ding contest.

Friends of Rusk admit that he will lose Ambrose and possibly Bigelow, both of the Multnemah delegation, in temorrow's toe Multnomah delegation, in tomorrow's contest. In the Speakership fight, both Ambrose and Bigelow supported Rusk. With these two Representatives, Rusk advocates expect Eaton to have the votes of Clemens. Cole and Chatten, who supof Clemens. Cole and Chatten, who sup-ported Eaton for Speaker. This will give Eaton only five of the 12 members of the Multnomah delegation, and, according to Rusk's friends in the delegation, that is every vote Eaton can possibly get from this county.

The loss of the two Multnomah Repre-

seniatives, content Rusk's followers, represents the limit to which Eaton has invaded Rusk's following of Z as disclosed in the Speakership election. On the other hand, Rusk supporters insist that they have added six votes which may be depended upon to oppose Eaton's move rrow. Of that number, five support ed Eaton for Speaker, as follows: Ab-tams, of Marion; Belland and Leinen-weber, of Clatsop; Huntington and Neuner, of Douglas.

Buchanan for Rusk.

The sixth accession to the Rusk following, it is reported, will be Buchanan, of Douglas and Jackson. In the Speakership contest, Buchanan, while originally an Paton man, voted for Thompson, hugh it is understood his vote would been available if needed to elect Speaker.

With this reputed strength, the Rusk faction is complacently awaiting the con-test tomorrow afternoon, confident that it is in a position to control the situation. When the organization ability of Thompson, Rusk and the latter's most active supporter, Fouts, of the Mult-nomah delegation, is taken into considreation, there appears to be some reason for their claims of strength. Having won the Speakership, it was not to be expected that they would quietly sit back and permit the enemy to capture the organization of the committees without making strengous resistance.

It was naturally to be expected that Rusk's supporters would seek further to sisorganize the Eaton forces even if it became necessary to part with some soveted committee assignments. This, indeniably, has been done.

Promise Draws Abrams.

Abrams is supposed to have been in-fuced to come into the Rusk camp at this time through promise of chairman-ship of the committee on military af-fairs, a place be was to be given in event Eaton was elected Speaker. Belland and Leinenweber probably will

be rewarded with places on the fishing committee. It is not known what inducement was held out to Huntington and Neuner, the other two Eaton men now chaimed by Rusk, although it is suspected room has been made for them on some of the desirable committees.

some of the desirable committees.
It is asserted by Rusk advocates that they did not sacrifice the committees in return for Thompson's support of Rusk for Speaker. Busk's friends maintain that the original Rusk following will dominate the important committees and control the legislation of the House despite the charges of the Eaton forces. It is admitted by the Rusk men that they did concede the chairmanahip of only two committees to the Thompson faction, as follows: Brooke to be chairsely two committees to the Thompson faction, as follows: Brooke to be chairman of judiciary and Mahoney to head the banking committee. At the same time Rusk advocates assert they reserved to themselves the domination of other important committees. Fouts will be chairman of the committee on revision of laws, and a majority of this committee, it is said, will consist of Statement members of the House to insure against hostile legislation aimed at the direct primary, Statement No. 1 or any of the other laws enacted by the people. Thompson, say the Rusk forces, people. Thompson, say the Rusk forces, is not to be made chairman of any com-

Multnomah Not in Peril.

Vigorous exception is taken by the Rusk men to the charge by Ambrose, who has bolted the Rusk organization, that Muitnomah County would not be treated fairly in the organization of the committees if they are named by Rusk, Contraverting this accusation, support-ers of Rusk said yesterday that the plan of Speaker Rusk is to give Multnomah the chairmanship of four important com-mattees, namely: Abbott, on ways and means: Bryant, on railroads: Fouts, on revision of laws, and Clyde, on education. Other members of the delegation from this county, say friends of Rusk. are to be generously provided with im-portant committee places. Chairmanship of a fifth committee, that of health and public morals, will go to

Cottel, also of the Multnomah delega-Most of the members of the House plan to be in Salem this afternoon when the rival factions will assemble and prepare for the scramble in prospect when the House reconvenes at 3 o'clock tomorrow

President Selling, of the Senate, said last night that he had not completed the formation of his committees, which would not be announced until Monday. There is little doubt but that Maisrkey will be chairman of judiciary; Barrett, of Washington, chairman of revision of laws, and Nottingham, chairman of ways and means. It has been intimated that

Selling Not Ready.

NEW PRESIDENT NEW YORK

Miss Lida M. O'Bryon.

Miss Lida M. O'Bryon was elected president of the New York State Society last Tuesday even-ing at the monthly meeting of that organization in Christensen's Hall. Other officers chosen were A. H. Metcalf, first vice-president; Mrs. Mary Capel, second vice-president; Charles C. Fisher, secretary; Charles B. Hand, treasurer; Miss Elia Hubbs, registrar; W. O. Freenaughty, Thomas Flyan, Mrs. John F. Norton and Mrs. P. L. Lerch, executive com-.......

President Selling in the organization of his committees will determine their membership by the qualifications of the Senators rather than on the question of whether they supported him in the con-test for presiding officer.

COUNTY BILL IS PREPARED

Decision of Voters Affected Is Senator Wood's Plan.

Settlement of county division issues and the creating of new countles by the voters of the territory affected are the objects of a bill that will be intro-duced in the Legislature this week by Senator Wood, of Washington County. Senator Wood has not worked out all of the details of the measure, but its principal provision is that all such dis-putes shall be determined by the voters concerned, either in the creation of an entirely new county or the annexation to one county of a part of the territory of an adjoining county or county cou

In the recent election a dozen bills for new countles were proposed under the initiative and rejected by the voters without an exception. The vote against these measures was especially heavy in Multnomah County, where the aver-age voter feels that he should not be expected to pass on these questions, which at best relate only to local affairs and conditions in other sections of the state and with which he is un-

familiar. In view of the adverse vote given the new county bills in November, it is believed Senator Wood's bill will meet with general favor among the legis-lators.

Bridge Lobbyists to Act.

Vice-President W. C. North was au-thorized to appoint a special committee of 25 from the North East Side Improvement Association at the last meeting to go to Salem to help secure passage of Senator Kellsher's Broadway bill to cure all defects and put an end to litigation. Mr. North will appoint this committee next Monday.

The association indersed the Port of

Portland bill prepared by the City At-torney, and also adopted a resolution urging the Congressional delegation to se curs passage of a bill to wipe out defects in the Broadway bridge proceedings in Congress. At this meeting the proposed franchise of the Mount Hood Railway & Ilvestock upon these reserves, is repower Company on Halsey, East Twentyfourth and Weldler streets was also in- itn Oregon each year, thereby not only

Conduct of Forestry Officers Hurts State.

BOWERMAN GIVES VIEWS

Message of Acting-Governor Recommends Abolishment of Conservation Commission of State as Being of Little Usc.

In his message to the Legislature, Acting Governor Bowerman recom-mended that the Oregon Conservation Commission be abolished and that the money appropriated for the commission be devoted to "some useful purpose." Governor Bowerman would have the Legislature adopt a memorial authoritatively expressing the views of the people of the state upon retarding influences of the administrative policy of the property department. His refer-

of the forestry department. His reference to the conservation follows in full:

"The question of National or State administration of our forests is becoming acute. The Eastern portion of the country, under the agitation of a former Federal officer and his supporters is manifesting a deep interest former Federal officer and his sup-porters, is manifesting a deep interest in the forests and other natural re-sources of this and the older Western states. The waterpower, timber, min-erals and other resources of the older states have passed into private owner-ship; these have been developed and are the basis of large commercial en-terprises and the means of employing great numbers of persons and are bringing great wealth and permanent development to these localities.

Great Arcas Withdrawn.

"During President Cleveland's Administration a small amount of our tim-ber lands was withdrawn from entry. The purpose of these withdrawals was The purpose of these withdrawals was to protect the watersheds and stream resources of our principal waterways. Following these withdrawals, succeeding Administrations have withdrawn great areas of our public lands, the more recent withdrawals being made upon the theory that the Government should retain title to and control of all timber and mineral lands and available waterpower sites. Together with the above classes of lands have been withdrawn large areas of agricultural withdrawn large areas of agricultura

"Under a statute recently an actual settler is entitled to have these agricultural lands segregated and to be permitted to make entry of them, but in actual practice we find that in some counties where more than one-half the area has been withdrawn from entry and settlement, more than one-half the area has been withdrawn from entry and settlement, a settler is allowed to survey these agricultural lands and to go to great expense under the honest belief that the Government will permit him to enter and homestead the lands according to the provisions of these statutes; but after a lapse of considerable time and the expenditure of some mency, he is advised that the particular tract he desires is needed for administrative purposes and it is immediately covered by a further withdrawal for such purposes. This policy on the part of the Federal Government results in a great loss to the state. It damages the state and counties by preventing large areas from being settled by bona fide homeseckers and places upon the remainder of the community a heavy burden of taxation by requiring the other property to support the

Timber Ready for Use.

"The timber in these reserves is largely ripe and should be manufactured. Under the present policy it is permitted to stand until it has been burned over and then sold in large holdings. In Eastern Oregon, a great area of excellent pine timber is destroyed each year. It is a matter of interest to every resident of Oregon that this policy be changed, so that timber which is suitable for manufacturing purposes and is past its growning stage may be manufactured into lumber. Land which is suitable for agricultural purposes should, without expense to the homesteader and without delay, be vacated and made available for entry. The large sums of money prosperous for entry. The large sums of money expended each year for the horde of Federal office-holders which today inrest our state and embarrass our set-tlers, retards industrial growth and hampers legitlmate enterprises, should e saved to the Federal Government and the state, under proper Federal regulation, permitted to administer these affairs in the interest of the peo-

ple of Oregon.

"Our livestock industry has been hampered, and in certain localities almost exterminated, by the officious and unwarranted conduct of some of these petty Federal employes. An unwise and unwarranted policy of limiting, and in some cases recycling the graying of curtailing the income of the state at

PORTLAND COUPLE HONORED ON 50TH WEDDING ANNIVERSARY

Mr. and Mrs. J. H. Patterson celebrated their golden wedding on January 3 at the home of Dr. R. T. Royal and Miss Carlene Royal. 30 Twentieth street, who entertained in their honor. Three of the five children of Mr. and Mrs. Patterson were at the celebration. These were Miss Eva Abba Patterson, Ernest F. Patterson and Dr. Ora R. Patterson, of Hailey, Idaho, The other two children are Dr. Homer G. Patterson, of Boise, Idaho, and Rev. Elmer M. Patterson, of Pullman, Wash.

Mr. and Mrs. Patterson were married in Stergis, Mich., January 9, 1861.

Mrs. Patterson was formerly Miss Welty Jane Foster, of Joseph, Mich., while Mr. Patterson was a resident of New York State. Since their marriage they have resided in Iowa from 1870 to 1882, when they went to California, later coming north to Portland the following year

Gill's -- A Safe Sale

Gill's sale is a safe sale because it is bona fide. Gill's is not a sensational store; neither is this a sensational sale—it is simply our usual custom to offer, once a year, an opportunity to buy good, new books of all kinds at a material reduction in price. Tomorrow begins the third week, and every day you wait means that you choose from a smaller variety. The price concessions we are making are too good to last long. We advise you to come early tomorrow.

The J. K. Gill Co., Third And Alder

Gill's Sale Of Books

Gill's sale of books is not like some other sales, because it is a sale of good books, not books nobody wants. For example, one of the specials affords an extraordinary opportunity to lay in a supply of new books of Fiction—not "reprints"—at just one-half the publishers' prices (\$1.50). These books—of which there are over two thousand-will cost you \$1.18 any other time of the year, but to reduce our stock we will sell them as long as they last at only 75c the copy. And this is only one of the genuine price reductions you will find on books of every kind. Spend a few minutes here and you'll be surprised to see what you

The J. K. Gill Co., Third And Alder

Gill's Sale Of Sets

This sale of standard authors in reliable bindings has again proven its place in the hearts of Portland booklovers. Some of the individual items have been sold out, but we still have many bindings and editions out of the ordinary. The genuine price reductions we are making during this sale represent exceptional opportunities to buy fine Books in Sets, and the convenient terms we are offering make it possible to avail yourself of these opportunities without causing you any inconveni-ence in a financial way. See our Third-street window today; then come to our store tomorrow and make your selections before the particular books you want are taken by some-

Big Sections Lie Idle.

"Large areas of the state now without transportation facilities are remaining undeveloped because they lie in localities in which a great portion of the lands are under Federal control. Settlers residing in the vicinity of these reserves are denied the privilege of neighborhood associations, schools and highway improvements because of the blight of the present Federal policy. Brush and weeds are the products of thousands of fertile acres of un-timbered land which would be the homes of independent, happy and prosperous citizens if the present system were abolished. Our arid lands in Eastern Oregon remain undeveloped and unwatered because our portion of the great reclamation fund has been in-vested by these same Federal office holders for the more favored localities of other states.

of other states.

"During the last Summer, great areas of timber, having a value running into large sums of money, were burned over by forcest fires, which were largely the result of the present unwiss forest policy of the Federal Government. The state appropriates \$500 each two years for forest fire protection and \$5000 for a like period for the Oregon Conservation Commission. This commission was created by an act of the last Legisla ture and is made up of prominent citizens of the state, but its policy has frequently been to enter into contro-versy between factions of the Federal Government relative to Oregon resources and the conservation thereof. It has per-formed little, if any, real service for the state, but on the other hand has added its influence to that of the present Ad-ministrative policies of the Federal Govministrative policies of the Federal Government in preventing the development of the state and in encouraging the withdrawal of our lands from entry and has accomplished nothing toward securing our just portion of the reclamation fund. It has rendered some service of a political nature to those office holders with whose views and policies its dominant members concur.

Prompt Action Desired.

"I would respectfully recommend prompt action upon your part in enacting effective forest fire legislation which will assist in preventing the ravages of fires similar to those we experienced last Summer and the appropriation of a reasonable amount of money to assist in sonable amount of motion to assess this work. The Conservation Commission should be abolished and the money here-tofore appropriated to it devoted to some useful purpose. This Legislature should emphatically declare it to be in the interest of this state that agricultural lands within forcest reserves be released and within forcest reserves be released and made subject to settlement, without expense to settlement and without expense to settlers and without the present unreasonable and unnecessary delay. "A strong memorial should be adopted, praying the Federal Government to do justice by Oregon in the apportionment of the reclamation fund, and our Representatives in Congress should be memoralized to seek the enactment of Federal statutes which will at once do away moralized to seek the enactment of Federal statutes which will at once do away with the extravagance and waste following the present policy of handling our resources and which will give to the state the administrative control of them under Federal authority and state enactments which will safeguard the interests now and in future generations, and also promote the development of the state and permit the estilement of those of the public lands which are suitable for agricultural purposes. agricultural purposes.
"During the last Summer, the forest fire

large from this source, but also tend- of many settlers and farming neighboring to increase the cost of meat prod-ucts to the remainder of the state and ered to such an extent that I deemed it not only wise but entirely necessary that the state should render assistance. Therefore, under the authority vested in me as Commander-in-Chief of the Oregon National Guard, I called into serv ice certain organizations of that body. These men rendered notable service and protected the lives and property of a large number of citizens and succeeded in saving from entire destruction many homes. Inasmuch as this service is out of the line of ordinary employment of the members of these military organizapeculiar obligation to them, and that they should be compensated for their time; their uniform and equipment which was damaged or destroyed should be replaced and I would urge that you adopt a resolution expressing the gratitude of

dered by these men outside the line of

ordinary military duty."

Harney County Residents Come to Portland in Force.

Harney County, Oregon, farthest from a railway, has sent a strong delegation of residents to Portland. Those in the party are "Rye" Smith, of Happy Valley; "Ike" Swartz, merchant of Burns; Charles Bedell, miner of Silver Creek; Karl Sissell, cattle man of Silver Creek; Homer Sissell, of Silver Creek; Dick Smith. sheepman, of Stein Mountain: Smith, sheepman, of Stein Mountain; Charles Vogtley, hardware merchant of Burns; Irwin Greer, merchant, of Burns; James Mahan, sheepman at Mule, and "Mike" Shanty, tailor, of Burns. William Hanley and William Striling, of Burns, joined the men here, making the largest delegation from Harney County in the city since the trial of the land cases.

Asked the cause of the trip to Portland, "Jim" Mahan, spokesman, said:
"We got tired of the Malheur air, so
we are seeking a change. In Malheur
County we get so filled with the ozone
there that we are compelled to seek a
change periodically. You see while we
are a very healthy bunch, it is necessary for us to have a variety of air and diet. If we did not Governor West might have cause to move that new institution proposed for Pendelton, to Burns."

Boy Scouts Are Thriving.

The first division of Boy Scouts or ganized at the First Universalist Church Twenty-fourth streets, by Rev. James D. Corby, the pastor, several weeks ago, is growing in membership and enthusiasm. Friday afternoon Dr. Paul Rockey, of Yale Col-lege, and Professor Henry E. Robinson, of Harvard College, addressed the boya Dr. Hockey gave an entertaining talk on incidents of outdoor life, such as first aid in case of accident and injury. Professor Robinson instructed them on the use of the compass. Mr. Corby has great plans for the de-velopment of the scouts this year.

If You Can Solve This Puzzle. Can You Solve It?

Take any number from 7 to 15 inclusive. Do not use any number more than twice. Place one number in each of the squares, so that when they are added perpendicularly or horizontally the total will make 23. For the neatest correct answers we will give abso-lutely free the following prizes in order of merit. All prizewinners will be notified by mail and all prizes must be called for within ten days from closing of contest. It is not wrong to use this paper. Only one person in a fam-ily can enter. The winner of the f.rst special prize in this great publicity con-test will receive absolutely free the \$500 Reed-French Piano, or if they pre-fer they can have their choice of either of the other two by paying the difference as above. Other special prizes to be awarded in order of merit.

This contest is being held by some of the world's largest manufacturers of high-grade planos. These manufacturers believe they can make their planes better known in this way in two or three weeks than it would be pos sible in any other way in the same number of years.

In Addition to the Above Prizes

every prize winner will receive, according to the merit of the solution, a bona fide Draft for an amount from \$25 to \$137.50. These Drafts will be accepted by us at their full face value to apply on the purchase of any one of the above new planos that we are introducing to the piano-loving public through this manmoth advertising plan. The above mentioned Drafts will be given in denominations as follows: Three at \$137.50, three at \$135.00, three at \$130.00, three at \$125.00, three at \$125.00, three at \$20.00, three at \$10.00, th

ten at \$75.00, ten at \$50.00, and all correct solutions will receive a Draft for \$23.00.

Think of it! If you solve this puzzle correctly you will receive, IN ADDITION to one of the above elegant prizes, which you get ABSOLUTELY FREE, a bona fide Draft, as explained in the last above paragraph.

These pianos have an enviable reputation in many of the largest cities and the manufacturers believe they can introduce them in this market more quickly and satisfactorily by giving the people THE SAVING of the enormous expense of an introduction through the ordinary methods. Any thinking person will readily appreciate that any manufacturer of a reliable piano can well afford to make the above liberal offer, if by so doing he makes his instruments as well known in this vicinity during the next three or four weeks as would take three or four years by ordinary methods of advertising.

This is the age of co-operation, and the manufacturer of these planos correctly believes that the best way to introduce them to this market is to spend the advertising money in making SPECIAL OFFERS TO THE PEO-PLE rather than by employing world-famous demonstrators at a fabulous expense, and making the people pay for such methods by asking a heavily inflated price for the piano.

In the event of a tie for any of the prizes, the cash value of the prize will be divided equally between those tying. ALL CONTESTANTS WILL RE-CEIVE A VALUABLE PRIZE FOR THEIR EFFORT.

It will be more convenient to get the ingredients from the druggist and mix them at from the druggist

HOW TO DESTROY THE DANDRUFF GERM

BY A SPECIALIST.

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well known fact, but when we realize that it is also fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption. We appreciate the importance of any agent that will destroy its power. We are; therefore, particularly pleased to give herewith the prescription which an emilnent scientist states he has found, after repeated tests, to completely destroy the dandruff germs in from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of baldness. This prescription can be made up at home, or any drugglest will put it up for you: 6 ounces Bay Rum, 2 ounces Lavona de Composee, one-half drachm Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you wish it perfumed, add half a teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. While this preparation is not a dye, it is unequaled for restoring gray hair to its original color.

CAUTION: Do not apply where half is not desired and be sure to avoid tenies. indirectly responsible for many of the

CAUTION: Do not apply where hair is not desired and be sure to avoid tonics containing poisonous wood alcohol.
