A man with a wooden head should be able to see that there is a nigger in the woodpile. All our goods are marked with the regular price tickets, besides the extra discount tickets described below, and these discounts are in addition to the regular 10 per cent we allow for cash.

Company I to Hold Reunion After 17 Years.

CAPTAIN COFFEE COMING

Military Organization Once Noted in Portland Will Make Memorable Occasion of Banquet on January 21.

Company I for many years the crack military organization of Portland, will hold a reunion and banquet January 21 at the Commercial Club. The last banquet, which was an elaborate affair, took place 17 years ago.

Students at what is now the Lincoln High School started in 1886 a cadet company with the principal of the school, Professor R. C. Warren, as their captain; William Pomeroy as first lieutenant, and Russell E. Sewall, as second lieutenant. The boys used to drill in the basement of the school and for some time 35-caliber polished-barreled Springfield guns were used. The cadet company was finally merged into the Oregon National Guard, and Lieutenant A. J. Coffee, of Company G, was made captain. For many years it maintained a high standard of efficiency in military matters and its dances and other celebrations were stellar affairs in the social world.

During the Spanish-American War many of its former members held high rank, both as staff and field officers. The first City Engineer, of Manila, was a former captain, J. F. Case. He is now City Engineer at Havana for the government, with the rank of Major. Captain Coffee, now of San Francisco, will be here to attend the banquet, and former members, scattered all over the Pacific Coast, as well as those here, have announced their intention to be present. It is expected that more than 100 will attend.

The following extract from Captain Coffee's letter of acceptance, illustrates the good fellowship which prevails among the old Company I men: "H. L. Mielman, chairman of the committee—Upon my return to San Francisco today I found yours of the 8th instant awaiting me and in its recognition experienced one of those rare feelings of gratification that one sometimes has during a life-time, where one's heart goes out to those he esteems best. "My association with the members of Company I, both in an official and unofficial capacity, were the brightest days of my life and I have always looked back at them with that keen gratification and knowledge that in them as a military company we really accomplished something of worth in this world and now to know that these old military and social associations have welded themselves into an everlasting friendship is doubly gratifying and proves that true patriotism and good will between men go hand in hand flattered to have you say you cannot hold a reunion without me, consequently it is my duty to respond to the call and I can assure you it is the pleasantest duty that I have been my fortune to perform since I left the old company."

Among the prominent members who will speak will be: Captain Coffee, Captain E. K. Warren, Colonel C. E. McDaniel, Dan J. Malarky, R. E. Sewall,

Dr. J. Francis Drake, Dr. Emmet Drake, E. J. Daly, R. S. Farrell and the invited guests, Colonel James Jackson, U. S. A.; General Charles F. Beebe and General Owen Summers.

RECEIPTS GAINSAY CENSUS

Oregon City Postal Business Increases Over 100 Per Cent.

OREGON CITY, Or., Jan. 14.—(Special.)—Growth of Oregon City in recent years is shown by the receipts of the local postoffice, which were \$6862.75 in 1909 and last year were \$16,746.26. In the money-order department in 1909 there were 11,412 orders issued, amounting to \$85,243.59, and 7419 orders were paid, amounting to \$56,641.64. Last year 17,009 orders were issued, amounting to \$93,149.56, and 7995 money

Captain A. J. Coffee, of Company I, For Many Years the Crack Military Organization of Portland.

orders were paid, amounting to \$47,192.41. In view of the great increase in receipts in 1910, the recent report of the Government census bureau, giving Oregon City an increase in population of about 700 in 10 years, is considered ridiculous. It is very apparent that the population of the city has nearly doubled in the last decade. Representative Hawley has telegraphed the Commercial Club that he will attempt to secure a recount for Oregon City. The business men are indignant over the report of the bureau.

Pastor's Salary Increased. At the annual congregational meeting of the First United Presbyterian Church, the pastor, Rev. Frank DeWitt Findley, gave an encouraging report of the work of the congregation for the past year. The following members were elected to serve as a Board of Trustees: President, P. H. Stevenson; vice-president, G. C. Ruff; secretary, J. A. Stewart; treasurer, Mrs. G. C. Ruff; J. E. Dunn, W. A. Matthews, C. H. Pairs, James Shearer, Virgil Spear, C. C. Tripp was re-elected Sunday School Superintendent. The congregation unanimously voted to increase the pastor's salary from \$1400 to \$1500, and include a parsonage. R. G. Hamilton and W. A. Currie, members of this congregation, have been appointed to represent the Presbytery of Oregon as delegates (principal and alternate) to the General Assembly, which meets in Washington, Pa., in May.

"BIG THINGS" SET PAGE

OREGON'S VIRGIN SOIL MAKES RECORD PRODUCTION.

Big Profit Won by Woman With 13-Acre Prune Orchard—Soda Water Well Found.

SOME OF THE BIG THINGS OF WHICH OREGON CAN BOAST. Parsnip 21 inches long; another weighing 20 pounds. Woman clears \$2200 from prunes on 13 acres. Dressed hog sells for \$50.17. Five hundred apple trees produce \$1000. Potato vine six feet high. Artesian soda water well struck. Stalk of hemp 14 feet high. Thirteen acres produce 3540 tons of clover seed, besides hay and chaff. One acre yields 117 bushels of oats.

To show that Oregon has something to be proud of in the way of "big things," David Mossesohn, editor of the Chamber of Commerce Bulletin and president of the Portland Ad Club, has compiled a few exceptional evidences of the wonderful productivity of Oregon's virgin soil. He has been compiling these facts since the advent of last year's crop and says it exceeds anything to be found in any other place in the world. He devoted considerable time to gathering the evidence, and the results of his work are to be found in the following items: A Hillsboro parsnip is 31 inches long and 4 1/2 inches in diameter. A woman near Dallas cleared \$2200 on
