Passenger Trains Will Connect With North Bank, Making Trip From Portland in Day-Country Pleased by Outlook.

Traffic over the newly constructed Oregon Trunk railroad from the Columbia River to Metolius, 165 miles south will be maugurated March 1, providing the climax for James J. Hill's chief ambition—the invasion of Central Oregon—and giving the people of that country direct rail connection with Portland for the first time.

W. E. Coman, general freight and passenger agent of the Oregon Trunk, yesterday notified all agents of the road that business can be accepted for receipt and distribution on and after the first of next month. A regular freight and passenger schedule will be announced in a few days, to take effect at that time.

announced in a few days, to take effect at that time.

While the definite time for the arrival and departure of trains has not yet been determined. Mr. Coman is certain that one passenger train will be operated each way every day. This will be scheduled to connect with the train leaving Portland on the North Bank road in the morning, reaching Metollus the same night. Prevision for departure from Metolius in the morning and arrival in Portland on the evening of the same day also will be made. First-class passenger equipment is on the ground and will be placed in commission as soon as the service opens.

With the establishment of this service the name of the station of Clarke, which is the landing place for the ferry that handles freight and passengers across the Columbia, will be changed to Fallbridge. The new Oregon Trunk bridge is being constructed about three miles west of the present station of Clarke, and after it is completed the town will lose same of its importance as a transportation center.

Mrs. Elliott said the letters were from an old man living in Honoluiu, who was attempting to complete arrangements with her husband and hereaffed that her father expressed an intention to make her pay before she could get the letters back.

NEW THINGS IN

This week our windows contain a few of the many new things constantly arriving. The magnificent mahogany Dining Suite is in the Chinese Chippendale style, a style rarely seen here. The charming enameled Bedroom Suite is also a reproduction and is an excellent example of the many beautiful and unusual styles shown on our floors. The Rugs, too, are our own importation, and are wholly different from those usually seen in carpet stocks.

It is our constant study to supply Portland purchasers with all that is latest, best, and most correct in Furniture and decorative materials. The new things sent on by our buyers—two of whom have been in the Eastern markets for more than a month-will more than sustain our reputation in this respect.

Rare Values in Bedroom Pieces

We have a number of handsome odd Chiffoniers and Dressing Tables. The suites to which they belonged have been sold and will not be reordered, and the pieces listed below, as well as a number not listed, are

offered at less than cost:

Body Brussels Rugs

Forty choice patterns of Brussels Rugs are offered, many of them in exclusive designs not to be seen elsewhere. Bedroom Rugs are shown in soft reseda, blue, pink, rose, green, tan, gray and lavender; Rugs for the Living Room, Dining Room and Hall in Oriental and conventional patterns. Sizes range up to 11.3x15 feet, and include a number of very unusual room sizes. Nearly every grade is represented, though most of the Rugs are in the famous "Treasury, Standard," the finest quality made.
