Running the law department of the university as a private enterprise and an adjunct of the Circuit Court for Multinomiab County is one, of the con-tributing causes of the delayed trial claim dar of the Multinomiah County (burk say mome of those who are op-posing the bill for the creation of more fixed local judges now serve in the fac-uity of the law school and all the judges, until recently, gave up more of users.

werk. With a large enrollment and a course of study consuming three years the law school is being conducted at the Court-house with Presiding Judge Gantenbein at its head. The school is generally required to be worth considerably more to Judge Gantenbein than his place on the bench, from a monetary standpoint. The enrollment this year is in the neighborhood of 170. For the first year he student pays \$60, for the second year \$80 and for the third year's course \$15.

intow nothing is pair to use of the Courthouse. It is contended by those who oppose the present system that a judge cannot deliver a lecture to a law class at night and he in proper condition to occupy the hench the following day. It is also become that time fiven up to the the hench the following day. It is also charged that time given up to the preparation of these lectures should go to the study and consideration of cases before the court. A Circuit judge has no energy to divide with other work if he gives the taxpayers a full return on his requirements, it is contended. The judges of the faculty disagree with that view, saying the isciture work is of valuable assistance in the trial of cases. For example, it is cited that a judge becturing on evidence and

a judge lecturing on evidence and eriminal procedure would necessarily become expert in those subjects and hence better fitted to sit as a judge.

Work Belongs to University.

"The law school belongs at Eugene," said a prominent opponent of the pres-ent arrangement yesterday. "The edu-cation of law students is an important work, but it should be regularly car-ried on as a part of the university work and not as a private enterprise.
