Course of Events in Mexico Hinges on His Action, Says Elder Madero-Rebel Successes Are Cause of Rejoicing.

NEW YORK, Murch 25.—Francisco L. Madero, Sr. and Gustavo, his son, left New York today for San Antenio, Tex., where they can be nearer Francisco L. Madero, the Provisional President of the insurrecto party. Before they left they showed the following telegram from Alfonse Madero, whom they will take the San Antonio.

from Alfonso Madero, whom they will join in San Antonio:

"Chilaga, in the State of Guerrero, a town of 20,060, is in the hands of the rebels. Salmaripa, in the State of Sonora, Cuifacan, the opital of the State of Sinaice, and Maratlan, the main port on the Paritle of the State of Sinaice, are menaced by insurgents. Offinaga, opposit Presidic, is besieged and short of provisions. Expect its surrender very soon, Good news from the rest of the republic."

surrender very soon. Good news from the rest of the republic."

Francisco Madero, while visibly elatted over the resignation of the Disz Cabinet, was cautions. "It's a little early to tell just what it means," he said, "but it ewitainly is along the lines? prophesied I look upon it as the beginning of the end, but, if you ask me what the end will be I don't know. Limentour is now in power, or soon will be. We must wait to see what he will do. According as he falls or succeeds will the scales dig.

The Maderos would not say in so many words why they have changed their base from New York to the borden, but they let it be inferred that they felt events are so shaping themselves that their presence nearer the scene of actual hostilities was needed. It will be remembered that, when Francisco Madero, Sr., first admitted he had been negotiating with Limantour, he was careful to emphasize that be had been negotiating with Limantour, he was careful to emphasize that be had no power to confirm any terms, but that all negotiations must pass through the hands of the men in the field before they became operative.

De La Barra Long Was Candidate. The fact that Senor de la Barra was candidate for the post of Minister of Foreign Relations has been known by friends in Washington for some time. The Amhassador, however, always had expressed a desire that publicity should not be given to such fermation. His reason was that, while he would feel it a duty to his country him, he really preferred to remain in Washington, where, in the position of Ambassador, he might continue in the to accept the post if it were offered to work of cementing the friendly rela-

members of the insurgent party and will re-establish peace and quiet throughout the republic. The reforms to be instituted, he feels sure, will satisfy the people that the government is looking out for their interest.

The new Cabinet will show itself in hearty sympathy with the reforms started several years ago, which have not been fully granted. Among these are the laws governing water for trigation and power purposes, and that regarding the redistribution of lands. The report that John Hamilton Dignowity and three other Americans had been executed in Chihuahua on account of the connection with the revolution is untrue. American Consul Edwards, at Juarez, who had been instructed by the State Department to investigate the report, gathered this information.

MODENA. Italy, March &-General Bernardo Reyes, who has been here since Thursday inspecting the military college and studying other departments of the ermy, has not received instructions to return to Mexico. He expects, however, to depart shortly for Paris.

General Reyes considered the resignation of the Cabinet a measure agreed upon between the ministry and Diaz and believed it would aid in the pacification of the country. He was too far from Mexico, he said, to follow events closely, but in his opinion several of the ministers are very likely to resume power, instancing Limantour and Creel. He reiterated his belief that the lasurrection would be crushed within two months and pointed out that the revolutionists are now being caught between the American frontier, which is guarded by American receives and the Mexicon army, without now being caught between the American frontier, which is guarded by American troops, and the Mexican army, without
