\$15 Fumed Oak Leather Seat Rocker for Only **\$6.85**

Cash or Credit—Terms to Suit.

There are just an even hundred of them—a lot an Eastern manufacturer had thrown on his hands by the business failure of a large dealer who had ordered them shortly before his store was closed. They were offered to our buyer at about half of real value if we would take the entire lot and pay spot cash. We did and the rockers are here on sale at less money than such good rockers were ever sold at before. They are made of solid oak in fumed finish; have spring seat, supported by steel frame; are upholstered in genuine Spanish leather. Have full box seat, are large and of very comfortable lines.

Stickley's "Quaint" Furniture

Rarely beautiful, possessing a character distinctly its own, being an adaptation of all that is comprised in arts-and-crafts, and something more. It has the simplicity and good workmanship of the old handiwork, and also a very distinctive and attractive individuality. Utility, sincerity and simplicity were the watch-words of the "arts and crafts" movement. "Quaint" furniture has them also, but has also added bodily comfort. In the conventional arts and crafts there's an element of monotony. It is in avoidance of this want of original thought that "quaint" furniture contributes so much to the beauty and harmony of the home. "Quaint" furniture is mostly used in fumed oak and upholstered in Spanish Morocco leather. We carry a most complete line of this beautiful furniture for hall, den, living-room, dining-room or sleeping chamber. Prices are lower than you'd even dare expect for such fine things—well, they are "Powers" prices and "Powers" always saves you money. Everything on sale cash or credit; terms to suit.
