MAYOR-ELECT ILL; HIS PLANS WAIT

Appointments to Boards Pend Rushlight's Recovery From Ptomaines.

ACTION EXPECTED

Ten Members of Executive Body to Retire June 30 and Health and Water Officials Are Likely to Quit Then

With Mayor-elect Rushlight and his

With Mayor-elect Rushlight and his little son ill with ptomains polaoning, virtually no progress has been made in arranging for the various boards to be named in the near future.

Mr. Rushlight and son have been violently ill and for a time it was feared that the boy would die. Both, however, are reported to be out of danger. They are lee cream last Thursday while downtown and, were taken ill that night.

day while downtown and were taken ill that night.

Mr. Rushlight will probably be able early this week to leave his home and to take up in earnest the consideration of appointments to the Executive Roard. Water, Health and Park Boards. The Executive Board is composed of ten members, the Water and Park Boards of four members each and the Health Board of three physicians; the Chief of Police is an ex-officio member of the Board of Health.

While Mr. Rushlight has as yet made no official announcement as to appoint.

While Mr. Rushlight has as yet made no official announcement as to appeara-ments, it is believed that he will make public the names of the members of the Executive Board within a short time, possibly this week. As soon as he is able to be at work, he will take up with his advisers the names of men which have been submitted to him for various appointments on these boards.

Posts Vacant June 30.

Posts Vacant June 30.

All of the members of the present Executive Hoard go out of office automatically June 10 at midnight. The new Mayor will probably call a special meeting of his Executive Board for Saturday, July 1, at which time he will announce the committee appointments, his Chief of Police and City Engineer, and he may make some statements as to the policy he will pursue in various departments.

Members of the Park, Water and Health Boards will probably resign July 1 or before, that their successors may be appointed and be sworn in in time for the regular meetings falling in July. The Board of Health meets regularly on the first of every month. At the first meeting, it is believed, City Health Officer Wheeler will be relieved of duty and a new man will be elected in his stead, probably Dr. M. G. McCorkle. Other changes are sisted to go into effect without delay, also, in this department. A new garbage cremstory superintendent will probably be employed and an assistant health officer elected.

Four Vacancies on Water Board.

Mr. Rushlight also has to arrange the emmittees for the new City Council, thich will take office July 1. This of self is no small task, as there are 5 members and all have to be placed a various committees. At its first esting in July, the Council will elect president who will serve one year, full support of the neonle. Mr. Rushlight also has to arrange the committees for the new City Council, which will take office July 1. This of itself is no shall task, as there are 15 members and all have to be placed on various committees. At its first meeting in July, the Council will elect a president, who will serve one year, succeeding H. A. Bolding.

PRINCE IS MADE KNIGHT

First of Royal Functions of Coronation Season Held.

LONDON, June 10 .- The first of the

LONDON. June 10.—The first of the great state functions associated with the coronation of King George, was witnessed today at Windsor Castle, where the Prince of Wales was invested with the insignia of the Order of the Garter.

The elaborate reremonial, dating from the institution of the order 560 years ago, was conducted in the throne room. King George and Queen Mary, with the knights of the order, attended in gergroup robes and full insignia. The King himself buckled the blue velvet garter on the left leg of the youthful knight. othful knight.

Fallowing the investiture, a brief re-ligious service was held at St. George's Chapel, and the King and Queen and nights then returned in procession to amigus to the ceremony was private, but the boys from Nion, the civic authorities of Windser and a few privaleged ones were permitted to view the

Mexican Insurrecto Leader Spends Week Here.

IDENTITY IS KEPT SECRET

Portland People Knew Him as Louis Van Horn When He Promoted Railroad at Klamath Falls. Has an Interesting Story.

Louis Van Horn, a general of the Mexican insurrecto army, and known by his soldiers as General "Blanco," or "White General," spent Rose Festival There will be four vacancies on the Water Board, as the three members now serving will resign and thore is now serving will resign and thore is now one vacancy. Superintendent Frank T. Dodge, who has been at the head of the city water service for many years will also resign. Whether Chief Engineer Clarko will tender his resignation is not announced, but at any rate it is expected that his place will be filled by a younger man.

There will be four appointments to the Park Beard, all of the present members having decided to resign. If members having decided to resign. If within the power of the Beard to remove Superintendent Mische, whose salary is \$198 a month, but it is said that this will not be done; that Mr. Mische is regarded favorably by the Mische is regarded favorably by the mew administration and that his services will be retained. day was his identity known. General he

of Mexico is the man who will get the full support of the people.

"The jealousles existing among the Mexicans do not interest, however, those of us who are Americans, for all we care about the government is to protect our financial interests," explained General Van Horn.

Like many men of extensive business experience, Mr. Van Horn is conservative, and not inclined to seek publicity. He would probably have left Portland without his identity having been discovered, had it not been for heen discovered, had it not been for one of his acquaintances, who disclosed the information yesterday.

Once Lived in Portland.

About 10 years ago Mr. Van Horn was in Oregon promoting the Oregon Midland Rallway, from Klamath to Klamath Falls, which was later taken over by the Southern Pacific Company. over by the southern racinic Company. Previous to that time he had been in Mexico, where his uncle was interested in the construction of the Vera Crus-Pacific Railroad. After giving up his incrests in the local railroad, he re-turned to Mexico and obtained quite extensive concessions for plantations

extensive concessions for plantations near Mexico City.

At the present time he has 4322 acres of land of his own which is used as a tobacco plantation, and \$1,000 acres forming a sugar plantation. It was to protect these interests, and also to aid the people of Mexico to overthrow an unjust government, that he says he

an unjust government, that he says he brought a large number of men into a military erganization and later joined this force with others, which formed the insurrecto army.

"For a long time," said General Van Horn, "there was no general organization of the insurrectos, but junts, or gathering places, were maintained in a number of places. Thus a man was not made general by selection, but by his collecting a number of men to serve under him.

"Like other Americans, I recruited a large number of men, and became a self-appointed leader of them. It was finally found that these separate or-canizations could not hope to accom-pileh anything unless they united un-

clish anything unless they united under a single commander.

The trouble with Madero is that he
waited until the rest fighting had
been done, and then appeared on the
scene and became the leader. He does
not fake well with the Mexican people,
as he is not sympathetic enough to
gain their confidence.

Madero Not Sympathetic.

Tit is my opinion, that the best leader is the man who will take his coat off to cover a sick person, or who will go among his followers and express sympathy for them and show that he is with them in their troubles as well as in their successes.

"Madero does not do this. He always comes out with his shoes well polished, and in a fine uniform. He will pass his men without noticing."

PROSPERITY SEEN

Outlook in Sherman County Never Better, Wasco Cashier Declares.

CROP OUTLOOK EXCELLENT

Hood River Delegate to Bankers Convention Sees No Prospect of / Overproduction of Apples. Durham Made President.

Acting as substitute for L. Barnum, of Wasco, who was unable to be present. Marie A. Barnett, cashier of a bank conducted by William Barnett at Wasco, yesterday gave one of the most entertaining of the numerous five-minute talks on the financial conditions in the various counties, which was the principal feature of the concluding session of the Oregon State Bankers' convention. She devoted herself to Sherman County. Naver, she said, had the gutlook been better. Crop prospects were good and prosperity general, she declared.

Others who spoke were M. S. Woodcock, of Corvaills; Leelle Builer, of Hood River; R. K. Hackett, of Grants Pass; J. W. Slemens, of Klamath Falls; D. A. Paine, of Eugene; E. D. Cusick, of Albany; S. G. Sargent, of Salem; E. A. Freeman, of Portland; Frank A. Rowe, of Nehalem; T. J. Scroggin, of La Grande; W. L. Thompson, of Pendieton; A. C. Shute, of Hillsboro; C. T. McDaniel, of Wallowa, and E. C. Apperson, of McMinnville.

Crop Movement Cared For.

them, and they have gained the impres-sion that he is there for his own good and not for their assistance. "In Lower California there are bands of men who are wanting to overthrow of men who are wanting to overthrow
the insurrectos who are now in power.
It is possible, I believe, to put these
down, if action is taken decisively and
at once. I thought my work in the
army was over with, but I am going
now to work for putting an end to
these troublesome bands, and when
peace is regained, I will return to my
plantations."

"What was the hotest fight in which
you took part?" General Van Horn was
asked.

Crop Movement Cared For.

The following extracts are quoted from the various addresses:

W. S. Woodcock, Corvalils—The local institutions are well able to take care of the people during the movement of crops without calling in outside assistance. I do not think you will find there was a citizen in Benton County who signed the referendums that were circulated to have the State University and the Agricultural College consolidated. The state is too large to justify the uniting of these institutions. We do not have schools for the purpose of saving money. We would rather spend money on them for their proper support and maintenance.

Lesite Butler, Heod River—The people of Hood River have no complaint to make. We feel we are in good circumstances. Thirteen years ago the United States produced £,000,000 barrels of apples. The past three years we have been unable to produce one-third that quantity. I am fully satisfied that we cannot put out apples fast enough in the apple terfitory of this section to make up for the falling off in the apple industry in the East and Middle West. On this account I am satisfied that the price of apples in this country will not be reduced for the next 19 years at least. If all the good apple lands of the Northwest could be put into apples we would get good rewards for our efforts.

Mining Is on Increase. asked.
"It was at Tres Castelles," be answered. "They overtook us with their cavalry, but in the end we got the best of it. A number of our men were wounded, but not one dead, while the enemy left 36 dead on the field. We captured 13 horses, a machine gun and "Did you get wounded there?"
"No, but my horse was shot from under me."
"How many wounds did you get in all the fighting in Mexico?" the General

Mining Is on Increase.

R. K. Hackett, Grants Pass-The minthe left side, once through the flesh of my left arm, and once through the he was injured, General Van Horn said that he was with a party in a that followed he was shot, but that no serious effects remained. "None of my wounds were serious," said Mr. Van Horn, "for they were all made with Mauser bullets, which make

are shipping more gold all the time and our mining industry brings more money into the county and produces, I think. Iarger returns than any other industry. The financial situation is good. We have bad an enormous increase in our banking business the last year-50 per cent. I think. The lumbering industry is a little dull and will not come up again until the rallroads give us better facilities to get out the timber.

J. W. Siemens, Kiamath Falls—The Government has a large irrigation project under way and the Southern Pacific is making rapid progress with its line in our county. Kiamath Falls is making great strides in the way of general improvement. We have put in a new sewer system and are now paving the streets. There has been so much development going on that money has been rather tight. The banks have been unable to take care of their customers.

D. A. Palne, Eugene—We have the largest body of standing timber of any county in Oregon. Another bank, to have a capital of \$6,000 and to be known as the Eugene Bank of Commerce, is being organized by Eastern and Eugene capitalists. That will give us 11 banks.

J. H. Albert, Salem—This year we probably shall ship from Marion County between 300 and 400 carloads of prunes. We have about 700,000 acres of land and the marketable products each year amount to about \$300,000 acres of iand and the marketable products each year amount to about \$300,000 acres of land and the marketable products each year amount to about \$300,000 acres of land and the marketable products each year amount to about \$300,000 acres of land and the marketable products each year amount to about \$300,000 acres of land and the marketable products each year amount to about \$300,000 acres of land and the marketable products each year amount to about \$300,000 acres of land and the marketable products each year amount to about \$300,000 acres of land and the marketable products each year amount to about \$300,000 acres of land and the marketable products each year amount to about \$300,000 acres of land and

Portland Maintains Record.

Portland Maintains Record.

F. A. Freeman, Portland—Portland's building permits amounted to \$19,866,000 in 1919, an increase of \$3.8 per cent over the preceding year. Bank clearances during 1918 showed a gain of \$2 per cent over 1909. Bank clearances for the first five months of this year show an increase of 8 per cent over the corresponding months of last year. Fortland enjoys the distinction of manufacturing more lumber and exporting more wheat than any other port in the world, as well as being the healthlest city in the United States. Cattle and hogs have brought higher prices in Portland than anywhere else in America since our stockyards were opened. The members of this association cannot exercise their influence to better advantage than to encourage their customers to raise more and better livestock. When we are forced to buy more than one-half of the hogs that we use from Nebraska and have to ship in fresh beef from points along the Missouri River and, from Fort Worth, Tex., it is time for the people of Oregon to wake up.

In Kenton district a vote was taken on the liquor question, with the result Extension work of the Young Men's Christian Association is now receiving attention in all the large cities, accordattention in all the large cilles, according to H. W. Stone, general secretary of the Portland Y. M. C. A., who returned yesterday from Cleveland, where he attended the annual conference of employed officers of the Y. M. C. A. Mr. Stone also spent some time in Los Angeles, Chicago, and other cities, and familiarised himself with the tendencies of the work of the association wherever he went.

While in Los Angeles, Mr. Stone par-

While in Los Angeles, Mr. Stone par-While in Los Angeles, Mr. Stone participated in a campaign to raise \$500,600, nearly the entire amount being secured. The greater part of this money will be used in establishing branch associations throughout the city. Other cities are also working along this line, and officials of the local Y. M. C. A. realize that there is need of carrying out a similar policy in Portland.

Small Branches Needed.

"Y. M. C. A. secretaries now realize," said Mr. Stone, "that they have not covered the field when they establish a large central building. The tendency is to build branches convenient to the various centers of population throughout the city, and in this way only can the association be of fullest use-

"There is a disposition on the part of business men everywhere to give the Y. M. C. A. hearty support. They have found that the Y. M. C. A. is an uplifting influence in any community, and they are advancing money to meet its needs as never before. While I was in Chicago I encountered an in-stance of this. I was in the office of the general secretary there, when James A. Patten, the wheat operator, came in and made an unsolicited donation of \$50,000 toward a Y. M. C. A. hotel that is to be built. It was rather remarkable that within a few mifutes of the time Mr. Patten was there, the agent of an estate came in to turn over to the Y. M. C. A. \$480,000 in se-

West Wins Attention.

Boston Charity Worker Prescribes Mr. Stone reports that the conference was successful in every way, and that special attention was directed at the work that is being done by the Y. M. C. A. in the Northwest. The delegates, he says, were especially interested in the co-operative educational system that has been adopted by the associations of Portland, Seattle, Tacoma and Seakers. BOSTON, June 10.—A suggestion that the singing of songs drive the desire for drink out of man was made today by Miss Alice L. Higgins, a Boston charity worker, at a meeting of the National Conference of Charities and Spokane. The success of this plan has attracted wide attention, and it is ex-Corrections. The speaker said:
"All the literature regarding drunkenness which the committee of fifty has pected that other cities will follow the ead taken by the cities of this terrigathered and which reposes on the li-

There was also wide interest in the work of the advisory and employment department of the Portland Y. M. C. A. In this line the local association is generally recognized as operating more extensively and efficiently than any other Y. M. C. A. in the country.

. Boys' Secretary Coming.

J. W. Palmer, who is soon to be-come boys' secretary of the Portland association, also attended the confer-ence. He will arrive here within the Francis, of Leland Stanford University, has been named by the Columbia Uni-versity Faculty as the winner of the

oregon, according to Mr. Stone, is now receiving more attention in the East than is any other state. Everywhere he went, he says, inquiries were being made cooncerning this state.

"The travel by train also showed that people are directing their atten-tion this way," said Mr. Stone. "I came as far West as Omaha on a train made up of Portland and Los Angeles sleepup of Portland and Los Angeles sleep-ers. The Los Angeles cars were prac-tically deserted, while both upper and lower berths were all occupied in the Portland cars. This is a marked con-trast with conditions a few years ago, when the bulk of travel was invari-ably toward the southern city. I think the 'Oregon system' has done much to arouse interest in this state, and, of course the systematic advertising o re-register under the old ordinance, and their money has never been re-unded.

Edlefsen's Siabwood is superior. ** part,"

The Indianapolis City Council has de-cided that, in enacting a new ordinance providing for the registration of auto-mobile drivers, it will provide for per-sons who registered under a former or-dinance held invalid by allowing them to re-register under the old ordinance, and their money has never been re-funded.

In Kenton district a vote was taken on the liquor question, with the result that it went "wet." The "wets" got 87 votes and the "drys" 27.
