SHATTLE, Wash, June 17 .- (Special.)-Nine Pacific Northwest Association records were broken and one other tied today. The Seattle Athletic Club athletes romped home to an easy vio-tory in the meet, annexing 78 of the points

Vancouver and Multoemah Athletle Clubs battled for second honors, with Vancouver nosing out second place with 36 points and Multoemah third with 35 points, the spact number which Coach Bill Hayward had prophesied for his team. The four additional points went to N. Bruseth in the weights, who

entered unattached.
Aside from the records, which were established, the best part of the most was the opening event, the classic 100-yard dash, which was won by a yard and a haif by Ira Couriney, the Seattle Athletic Club runner, in the remark-able time of nine and four-fifths seconds. Nelson ran a good second and McConnell, of Vancouver, trailed in third. Courtney has been developing wonderfully recently. The race was timed by five official watches and two unofficial watches, all catching it in nine and four-fifths seconds,

Batter Gires Advice.

"The athlete should never touch liquor in any torm. Alcohol is a stim-ulant, not a food. Moderate drinking may not harm the common adult, but there is always that lurking menace of often admitted that he had consumed

intemperance. Why, do you know that I have refused over \$50,000 in drinks in the past 15 years?"

the past 15 years?"
So declared the Battler, pointing out at the same time that about 20 per cent of male grownups at the present time are total abstainers. Of the remaining 80 per cent, 75 are only moderate drinkers, while 5 per cent are intemperate that they drink to such in the sense that they drink to such excess as to cause evident injury to

health. Nelson has delved into statistics showing the difference in the modes of living of the ordinary professional boxer and the clergyman, as shown by Government vitality figures. The contrast is striking, and reveals what temptation has done for the ordinary prizefighter.

The mortality figures show that deaths from alcoholism and diseases of the liver among fighters is four times, from gout three times, from nervous diseases 1%, from suicide 3% and from phthisis four times as great as among

Mistakes Pointed Out. "One of the greatest mistakes in the

so-called scientific temperance instruc-tion in many of the public schools is the teaching that occasional drinking Young Griffo, of Australia, one of the is dangerous," says the Battler. "This est boxers the world ever knew, was is not in accord with the opinions of introduced to New York fight fans sev- leading physiologists. The glass or two of beer occasionally is not very harm-ful in itself. Many of the children know this by home experience, and consequently will place much less con-fidence in the temperance instruction. "It should be taught that alcoholic drinks are almost always a useless ex-pense and that excessive use is the cause of much disease, suffering and cause of much disease, surrering and poverty and of many crimes, but that such use is sometimes the result rather than the cause of disease. Several months ago I visited my old school-teacher, Miss Harriet Taylor, who is teacher, Miss Harriet Taylor, who is now instructing at Pullman. Ill. I went through the school and gave a short talk on this subject in every room and I think I left an indelible impres-sion on those youngsters of the danger of popping corks."

CORBETT'S GOSSIP HEARD

Too Much Dependence Musn't Be Placed in Joe's Glorification of Southerner, Is Comment of Pugilistic Authority.

BY JAMES J. CORBETT, NEW YORK, June 17 .-- (Special) .-Joe Jeannette, who enjoys the unique reputation of being the only heavy weight in the country willing-and even anxious-to box Sam Langford at any old time or place, is back in New York for a few days' rest. Joseph has been spending a few strenuous weeks as chief instructor and trainer to Carl Morris the Oklahoma giant, whose chief ambition in life is to some day Johnson from the pugilistic

Jeanette professes to be extremely sweet on Morris as a fighter and pre-dicts a great future for the young fellow. Joe says Carl possesses enormous strength and great swatting powers and is in need only of tuition along the lines of cleverness. He is a fight-ing machine, to hear Langford's peren-nial foe tell it, and lacks only the experience to step forth and end the reign of black superiority in fistiana. This line of chatter "listens" nice to the sports hungry for news of some-body white with a chance. However, Jeannette is not only a "hope" de-stroyer on his own account, but has also earned considerable reputation as

a first-class joker. much dependence, therefore cannot be placed upon Jeannette's en-thusiastic and exuberant glorification of Mr. Ufer's protege. Also, "way down deep," Joe entertains a firm-rooted notion that he himself is about the best ever in the boxing line and stands ready and willing to prove it, and neither Johnson nor Langford is

Jeannette a "Comedian.

To prove that he is some comedian recall an occasion when he displayed his peculiar sense of humor at the exsense of an opponent with whom had been toying for four rounds. Black Bill was the euphonious handle of Jeannett's antagonist. Joe had been requested to let Bill down easy and had half promised to allow him to Since then he has stowed away all his theatrical earnings and nobody could induce him to take a drink. He told friend leaned through the ropes and reminded Jeannette of some big doings that were on the fire for that evening and asked him to hurry and finish the

So when the gong rang for the beginning of the fifth Joe walked to the

last round, Joe." "That's all right, answered Jeannette, "it's the last round swered Jeannette, "it's the last round for you." And—bingo—over went the crusher and Bill was dead to the world.

Regarding the coming Morris-Flynn fight Jeannette predicts an easy victory for the Oklahoman. It is only natural that he should. He is paid big wages to train and instruct the big types and could not be expected to the product of the pro fellow and could not be expected to spout to the contrary. Flynn is a great trial horse for aspiring heavyweights and will be the best man Morris has met. A victory for the latter will be most popular with the sporting frater-nity. With Carl's tremendous advantages in height, weight and reach the bout ought to be over well within 10 rounds if he is one-half as good as the

I trust Papke decides to cut his trip and hustle back to these shores so we can settle that disputed championship thing that has been worrying the sports since the untimely demise of Stanley Ketchel. Packey Given Wide Berth.

Packey McFarland is touring the coun try picking up a few thousand here and there boxing men who are not by any means in his class. This is not the fault of the Chicagoan, who can hardly be censured for trying to make what he can out of his profession. Packey stands ready to box anybody in the lightweight class, but the boys who can scale at the 133-pound mark draw the line on match-making with this clever boy and insist upon that ringside limit or no fight. Packey is thus compelled to scour the

ers and pick up a live one.

Dave Rennie, a bantamweight boxer of Montreal, would like to meet some of the best 116-pound boys in the States. Rennie is the Packey McFarland of Canada in his class, and can't get on a match in his own country. Recently I was invited with others to look the lad over, and the workout made a decidedly favorable mpression upon all who were privileged o witness it. He is 24 years of age and has had considerable exeptience, starting his boxing career in San Francisco as an amateur several years ago. Later he met and defeated a number of good little men in the professional ranks on

Alf Lynch, the recognized bantam champion of the Dominion, has given Rennie a wide berth and cannot be in-duced to sign articles calling for a match. Hence the lad's desire to visit this side. He bars nobody who can make 116 pounds, either ringside or at 2 in the afternoon, and would prefer to commence ernoon, and would prefer to commence operations upon Johnny Coulon or Jer-sey Frankie Burns. He is satisfied, how-ever, to take on any of the lesser lights to demonstrate his right to look higher

With the arrival of Owen Moran from Lake Tahoe, where he spent two weeks, news of the proposed Wolgast-Moran bout for the Fourth of July is already bout for the Fourth of July is already under way. Wolgast is at present at Matillija hot springs, near Nordhoff, in Ventura County, Southern California, and will probably remain there until 10 or 12 days before the bout. Moran is installed at his favorite training quarters, Shannon's San Rafael place, but will not do any hard work until the first of the week. He figures on putting in a couple of weeks at hard work, which ought to be more than enough to finish him up.

Early last week Coffroth had a message from Wolgast, who wanted to make the bout 25 rounds instead of 20.

with George Kirkwood, one of the stars of the four-round game, and was mighty lucky to get a draw. Kirkwood had a decided pull in the weights, as he insisted on catchweights. For three rounds he laid all over Carroll, and almost knocked him out. In the fourth Carroll railled and that saved the day, for Kirkwood dogged it and backed away from gong to gong. Carroll didn't show the speed that made him a wonder a couple of years back, and it is quite possible that he will and it is quite possible that he will never be as good as he was.

The San Francisco fans look for Battling Nelson, the greatest seif publicist of the boxing game, to put in an appearance shortly, and when he does there will no doubt be some talk of a meeting between the Dane and his ancient enemy, Jimmy Britt. Somebody remarked that the pair of them would make a good four-round match, and another fellow said: "What a crowd there would be if you could get them into the ring for four rounds! It would be just far enough."

It's safe to say, however, that neither Nelson nor Britt considers the matter in this comical light.
