Common Sense in the Kitchen

THE HOOSIER KITCHEN CABINET

There isn't any let-up to kitchen work. The three meals must be prepared every day in the year. You can't get out of that, but you can make it easier and do it in half the usual time. Think how long it takes you to get ready to do your work the way you are doing it now—to collect all the utensils and materials—and put them away again—some in the pantry—some in the cupboard—and some in other places around the kitchen. That is the biggest part of the job—the most disagreeable part. It is the part of the work that a Hoosier Kitchen Cabinet does away with—by grouping materials and utensils in one complete combination pantry and kitchen table, so you can do your work all in one place. It will give you half the time you now spend in the kitchen for other things. It is not the actual work that takes the biggest part of your time—it is the getting ready for it and putting things away. Come into our store. Let us show you a short-cut in kitchen work—show you how you can have a neat kitchen with half the work and at a very small expense.

This Solid Oak Buffet \$18.00
