Rushlight to Succeed Mayor Simon Next Saturday at City Hall.

Last Week of Present Administration to Be Busy One in Preparation for Change-All Boards

official life, beginning tomorrow morning, for next Saturday A. G. Rushlight, Mayor-elect, will become the city's chief executive. Mayor Simon will be at the City Hall early Saturday morning to great his successor, to wish him good luck and to turn over the keys of the executive office and see him installed as Mayor. He will offer his successor shy assistance he may be able to give. This week will be a busy one in of-

ficial circles, incident to the clearing ficial circles, incident to the clearing of the decks for the new administration. The last session of the present Executive Board will be held Friday afternoon at 4 o'clock. The present City Council will meet the last time Wednesday morning. It will have a large amount of business to transact. Other boards will meet and finish up the work that is before the members before turning over affairs to the Rushlight administration. The Health Board will meet Tuesday morning and

Baker Slated as President.

Under requirement of the city charter, the new Council will meet Wednesday, July 5, and organize. At this time, it is regarded as certain that George L. Baker, Councilman-at-Large, will be elected president. He is the choice of Mr. Rushlight and, while there are others who are ambitious, the opinion prevails that Mr. Baker will get the place. Will H. Daly, a new member, and R. E. Menefee, a hold-over, are others who are mentioned.

Mr. Rushlight will probably reach the City Hall about 9 o'clock next Saturday morning, ready to take up his official duties. In the day he will have a meeting of his Executive Board, at which he will announce the appoint-

for Health Officer.
Capinin of Police Slover is generally regarded as the successor to Chief of Police Cox. Chief Cox wants to be retained, but Mr. Enshlight will not retain him. This change will be imme-diate, as will also the change in the office of City Engineer.

McCorkle May Get Place.

Dr. M. G. McCorkie will be appointed Health Officer, it is believed certain. It is expected that he will inaugurate a complete change of the personnel and system in the office over which he will

have charge.
While it is conceded that Tom M. Hurlburt, at present First Assistant City Engineer, could have the appoint-City Engineer if he would accept it, it is also thought to be a fact that he does not care for the place at its present salary of \$200 a month, as he is now receiving \$175 and has none of the responsibility and warry inci-dental to holding the position of Chief Engineer. Because of this, it is being remarked that the position has been tendered or will be tendered to Robert G. Dieck, a civil engineer in the Cor-bett building, and that he will accept the appointment. Mr. Deick is well and favorably known. He was a candidate for the position two years ago and was under consideration by Mayor Si-mon for the place.

Executive Appointments Pend.

Mr. Rushlight has not as yet named his Executive Board, but will probably do so early this week, for it will be necessary for him to have a meeting of this Board soon after his inaugura-

Board, which is composed of 10 members, are John B. Coffey, D. Solis Cohen, John F. Logan, A. L. Finley, John Perry, Waldemar Seton, K. K. Kuhli, W. H. Fitzgerald, Dan Kellaher

Mr. Rushlight may have some appointments to make on the Water, Park and Health Boards, as it is re-garded as certain that all of the mem-bers of these boards will resign. Whether the new Mayor will wish to retain the services of some of the present members is not announced, but it is believed that nearly all of them will be appointed to fill their places.

Season's Display of Anglo-Persian Rugs

Agents for W. K. Cowan & Co.-Everything in Fine Mahogany Furniture

Whitall's Anglo-Persian Rugs are the highest achievement in the art of weaving rugs by machinery. Into their making, for more than a generation, have gone the finest materials, the highest technical skill, the most critical taste, the most painstaking care.

Every thread of wool is imported from the mountainous regions of Persia, Afghanistan and the Caucasus. Every particle of dyestuff is tested repeatedly. Every improvement that inventive genius can suggest is utilized in their manufacture.

Today Anglo-Persian rugs are known everywhere for their beauty of design and coloring, their smooth and lustrous finish, their proved and tested serviceability.

In our windows this week is a notable display of Anglo-Persian rugs. Many more-in all sizes-are on our floors. They are new; most of them arrived last week. They are well worth seeing. We sell Anglo-Persian rugs in the 9x12 size for \$55.00.

This is no more than you would pay for the same rug in New York or Chicago. It is some \$400 less than you would pay for an Oriental rug of equal beauty and durability. If you care about your home, we believe that an Anglo-Persian rug will yield a larger return in permanent satisfaction than any other \$55 investment you can make.

New Town Thrives.

North Plains is but 99 days old, yet despite its newness, it has a weekly newspaper, a number of stores and probably 50 or 60 dwellings on the townsite and in the immediate vicinity on one-acre and half-acre tracts. Clover fields sprinkled with cornflowers drew the admiration of the the admiration of the women folk, most of whom returned to this city laden with armfuls of the pretty, blue

Dr. Murphy welcomed the visitors and asked W. G. Hare, of Hillsboro, to tail of the wonders of Washington County. This Mr. Hare did eloquently. He said that Washington County waited only for settlers and on them was willing to pour wealth in hounteous pienty. He declared transportation facilities were ideal and climate near perfection. He urged that the realty men come as often as they could and assured them that their efforts on behalf of Oregon's latest city would be productive of good both to themselves and to North Plains. He asked where else could a city as new as North Plains be found with city water everywhere, a bandstand, a fine city park, paved streets and down-tocity park, paved streets and down-todate stores.

On behalf of the Realty Board, Whitney Boise thanked the North Plains people for their unquestioned cordiality. He expressed his surprise at its rapid growth and was glad to notice that it seemed healthy and free from a "boom" spirit.

C. C. Purse, vice-president of the Portland Realty Board, in the unavoidable absence of President Chapin, said that the realty men of Portland were vitally interested in North Plains as they were in anything that tended to promote a greater Oregon. H. W. Fries introduced George McDowell, recently appointed manager of the Ruth Trust Company, and after paying him a number of compliments asked that three cheers and a "tiger" be accorded him. This was done with vim.

The Portland men returned to this city at an early hour in the evening. En route stops were made at Plain View and at Grovedale.

A Portland Lighted Lamp.

Portland interest in the Pacific Monthly for July principally centers around the serial article entitled "The Ploneer Reminiscences of George Col-lier Robbins," which pictures the early history of this city—around 1852—and mentions such well-known citizens as W. S. Ladd, J. A. Strowbridge, H. W.

Corbett, T. J. Dwyer, and others. The article is graphically written, more than usually interesting, and the series ought to make all of us take notice. Rabbi Stephen S.
