CHICAGO, July 8 .- (Special.) -- Fourteen more deaths had been added to the appailing list due to the heat at 9 o'clock tonight. The temperature hovered near the 90-degree mark throughout the day, but the humidity was more marked than ever and intensified suffering. A sprinkle of rain fell this afternoon, but it was turned to steam the moment it struck the hot pavements and buildings, thus increasing

the suffering.

Chicago's death rate jumped to the highest point in many years this week. Burial permits had been issued for 842 persons up to Friday night and it is considered probable that there will be applications for approximately 100 more tonight. Not all of those are direct victims of the heat, but a large percentage is in that class. Ninety of the number were stricken dead by the

### Indiana Dealers Unable to Buy Supply From Producers.

HARTFORD CITY, Ind., July E.— When the last 150 pounds of ice in the storage houses here were distributed in small pieces to families in which there was illness tonight, this city faced an ice famine. For two days no ice has been sold generally in the residence districts and grocers, butch-ers and ice cream manufacturers, soda fountain proprietors, and salounkeepers pleaded in vain today. There was no ice to be had and the
