

DEATH BY CHOLERA ALARMS NEW YORK

Night Watchman at Quarantine Station Succumbs to Dreaded Disease.

CITY TAKES QUICK ACTION

Though Several Immigrants Held in Detention Have Died, Health Officer Declares There Is No Danger of Epidemic.

NEW YORK, July 15.—The first native case of Asiatic cholera to develop here this season ended today in the death of Patrick Cushing, night watchman at the Swinburne Island quarantine station. There have been several deaths among immigrants detained, and two suspects kept for the required observation period developed the disease and died, but Cushing is the first American resident to be infected.

The death of Patrick Cushing has aroused apprehension in New York of the spread of the disease and vigorous steps were taken today to stamp out possible sources of infection.

Health Officer Doty says there is no cause for alarm. A strict quarantine has been established at the home of Cushing's widow and four children.

Immigrants Die From Disease.

In the opinion of Dr. Doty, Cushing contracted the disease from a so-called cholera carrier, as there had been no recognized case of cholera on Hoffman Island for 17 days prior to his leaving there. As soon as the first case occurred among passengers of the detained steamer Moltke, Dr. Doty instituted a search for Cushing and learned he was in the hospital.

A Deputy Health Officer examined Cushing and ordered his removal to the Swinburne Island Hospital, where he died.

While Cushing's death reveals the first American case of cholera in the present epidemic, three deaths from the disease have occurred at Swinburne Island in the past three days. According to Dr. Doty, six other cases exist at quarantine. Two of these are serious.

205 Passengers in Quarantine.

Three of the six were brought in by the steamer Perugia, last night, from Naples. The Perugia still is at quarantine. The other three were among passengers and crew of the Moltke, which arrived from Naples July 5. There are now under observation at quarantine 205 steamer passengers and 43 of the crew of the Moltke. This tally does not agree with that of Charles Dushkin, counsel for immigrants, who recently made charges against Dr. Doty that a special commissioner is investigating. Mr. Dushkin attempted at the inquiry to prove by Charles Leavitt, a carpenter at Hoffman Island, that there are 19 new cases there. Leavitt said he had heard such a report, but did not know how authentic it was.

Leavitt said on the stand, however, that he had disregarded the cholera quarantine and came last night to his home on the East Side here, wearing his working clothes, which had not been fumigated.

MRS. LEA RACES FOR LIFE

Senator's Wife Has Pneumonia, Following Blood Transfusion.

DENVER, July 15.—Mrs. Luke Lea, accompanied by her party, arrived here at 9 o'clock last night from Maryland. Senator Lea said today that his wife had stood the trip well and gave every indication that the change in climate would prove beneficial.

Mrs. Lea rallied some time ago following transfusion of blood from her husband, but now she has been attacked by pneumonia. She traveled in a special car, accompanied by Senator Lea, Mrs. Percy Warriner and Mrs. George Frazer, her mother and sister, respectively. Mrs. H. B. Frye, her physician, and Miss Shackelford, a nurse.

After being taken to the Maryland Mountain resort, Mrs. Lea seemingly improved, while the Senator regained his strength. Mrs. Lea began growing worse on Monday and on Tuesday her husband was advised by physicians to take her to Colorado.

MONITOR SURVIVOR DIES

Stoker in Famous Sea Fight Ends Days in Soldiers' Home.

SAWTELL, Cal., July 15.—Michael Mooney, said to be one of the three survivors of the crew which manned the "Monitor" when it fought and vanquished the Confederate ram "Merriam," died here last night, aged 34. At the National Soldiers' Home. On the last anniversary of the battle, Mooney sent a letter recalling the events of the day to another survivor, who lives in Philadelphia.

A third surviving member of the Monitor's crew is William McCready, 75 years old, watchman at the Puget Sound Navy Yard. Among Mooney's papers was found a complete list of the vessel's officers and men, including his own name as a stoker.

RAIL FATALITIES ARE MANY

Thirty Accidents Daily Average Reported Under New O. ders.

WASHINGTON, July 15.—The appalling toll of human life exacted by American railroads is reflected in the fact that the Interstate Commerce Commission receives daily from officials of interstate carriers an average of 30 telegraphic reports of accidents involving the loss of one life or more.

The reports are made in response to an order of the Commission, which became effective July 1. Gradually the railroads are complying with it.

TRUST OIL NOT UNLAWFUL

Wickersham Holds Government May Buy From Illegal Concerns.

WASHINGTON, July 15.—Attorney-General Wickersham has decided that it is not unlawful for the United States to deal with the corporations recently

declared by the Supreme Court of the United States to be illegal combinations.

The action came up in connection with court awarded to the Standard Oil Company for a year's supply of oil and gasoline for the military departments of the East.

The Attorney-General holds that the corporations declared illegal combinations are so only in restriction of trade. The sale of materials by these corporations is not in itself illegal.

ST. DIE IN FESTIVAL GARB

BESTOWAL OF NAME "AMERICA" IS CELEBRATED.

Ambassador Bacon Takes Part in Programme in City That is God-mother of Continent.

ST. DIE, France, July 15.—St. Die is in festival garb today and crowds came to the city from all directions to participate in the exercises commemorating the naming of America in 1492. Mr. Bacon, United States Ambassador to France, and M. Lebrun, Minister of the Colonies, arrived early, with other government officials, to participate in the programme, which included among other things the presentation of historical paintings.

St. Die rightfully claims the honor of being America's godmother, for in that little French town more than four centuries ago a tract was published in which the name "America" was used for the first time. In this manner a name was given to the new continent. The paintings referred to in today's dispatches are life-size portraits of Kingmann, Waldseemüller and Baurin Lu, who were the authors of the tract in which the word "America" was used.

HEILIGS SELL HOLDINGS

WALLA WALLA THEATER BOUGHT BY H. C. GREGG.

John Cort Disposes of Stock in Company—Transaction That Transfers Keylor Grand.

WALLA WALLA, Wash., July 15.—(Special.)—Rumors that H. C. Gregg, of this city, is to be the proprietor of the Keylor Grand Theater were confirmed today by Henry A. P. Schroeder, auditor for John Cort, who is in the city for the purpose of checking up the business of the local theatrical house preparatory to turning it over to Mr. Gregg, who he admitted had purchased the shares of Calvin Heilig, of Portland, and Irving Heilig, of Tacoma, as well as those of John Cort, of Seattle, in the Walla Walla Theatrical Company, which has the control of the Keylor Grand.

With the shares of the Heiligs and John Cort, Mr. Schroeder said that Mr. Gregg now owns all the shares in the company with the exception of a fourth interest. Mr. Gregg will assume immediate control.

Hood's Sarsaparilla
