How to Remove A . **Bad** Complexion

Coametics can never really help a poor complexion; often they are posi-tively harmful. The sensible, rational way is to actually remove the thin veil of stifling, half-dead scarf skin from the face and give the fresh, vig-orous and beautiful young skin un-dermeath a chance to show itself and

dermeath a chance to show itself and to breathe. This is best done in a very simple way, by merely applying mercolized wax at night like cold cream, and washing it off in the morning. Good mercolized wax can be obtained from any well stocked druggist. It absorbs the disfiguring cuticle gradually and harmlessly, leaving a brilliant natural complexion. Of course this also takes with it all such facial blemisnes, as red blotches, tan, moth patches, sal-lowness, liver spots, pimples, etc. As a freckle remover and general com-plexion beautifier this old-fashioned remedy is unequalor
