Flower Bedecked and Ribbon Adorned

—A great many of these hats have been sold during the past week, but we still have a large number left from which the most fastidious woman or girl can make a wise choice.

—Hats for this weather need to be featherweight, and should offer some protection to the face from the heat of the sun.

—Also they should be light-looking and summery in texture. The trimming on a hat that looks hot is far from ideal for midsummer toilettes.

—These hats embody all these excellent qualities that make them so delightfully becoming and charming.
