BUILDING SITES IN

Scores of Homes and Building Lots Have Changed Hands During Past Week.

REALTY MARKET IS GOOD

Dealers Are Busy With Plans for Active Campaign in Fall and They Consider Outlook Bright. Forest Fires Hamper Mart.

With weather conditions favorable, last week was an exceptionally good one for the real estate dealers, judging from the general reports of sales and the number of real estate transfers recorded. While no unusually large deals were closed, there was a strong movement of suburban property and considerable movement in business ground on the outskirts of the business district, on both the West Side and the East Side.

The trend of business during the

and the East Side.

The trend of business during the week was in residence property, scores of sales of homes and building lots having been reported by the various desirer. The addition owners, even on the outskirts of the city, reported activity and proved their reports with the names of numerous purchasers.

The week opened with quietness prevailing, but by Wednesday there had been a noticeable improvement, and the week ended briskly.

Dealers Prepare for Fall.

Most of the dealers are spending a Most of the dealers are spending a good deal of time at present arrang-ing for Fall campaign. Improvements on most of the additions and subdivi-sion are being hurried with the early Fall as the time set for completion. With work finished and the additions improved, the owners will work hard to move the lots before Winter sets in. The outlook is that the Fall busimess will be good. This is based on the healthy business conditions which existed during July and the first week in August, which time is generally conceded to be quiet.

One of the important deals of the week was the purchase by the Security Savings & Trust Company of 17.8 seres of land from P. J. Kelly, on Kelly aveof land from P. J. Kelly, on Kelly avenue and East Twenty-eighth street. This property will be held for investment or building purposes. The tract is the third purchased by this company on the East Side. The deals all together involve \$190,000.

\$50,000 Deal Is Made.

Another important transaction was the purchase of eight and one-half acres of land on East Thirtieth street a block south of Hawthorne avenue by the real estate firm of Brubaker & Benedict from James Beal heirs. The price paid was between \$45,000 and \$50,000, the exact amount not being made pub-Hawthorns syndicate, a corporation organized by Brubaker & Benedict for the handling of the tract in the form of a subdivision. The ground will at some later date be improved and platted and put on the market as high-grade resi-

dence property.

The zale of 4.55 acres of Joseph Buchtel on Broadway and Wheeler streets. in Albina, adjoining the Montgomery tract, was reported during the week. It is considered probable that the land was secured for the Mount Hood Railroad Company, and also that the real owner of the Montgomery tract, now being improved, is the Mount Hood

Railway Company.

The purchase of the tract adjoining the Montgomery tract and the extensive improvements in the latter are of significance to the East Side, whether the land is for the Mount Hood Railway Company or not. As the company way Company or not. As the company expects to reach the West Side over the Broadway bridge the Buchtel and Montgomery tracts, being on Broadway street, would be easily accessible to the company from the line on Broad-

Car Barns Permit Issued.

Extensive carbarns are planned by the Portland Railway. Light & Power Company, to be erected on the 16 lots purchased last month from Mail & Von Borstel in Etna tract for \$50,000. Aniouncement is made that work will be started on the buildings in a short

The old carbarns built nearly 18 years ago, have become too small for the growing traffic of the central di-vision of the company's lines. The building of these carbarns means that the Etna Addition will build up rapid-ly as the centralization of car men has had that effect in other portions of the

Timber Is Quiet.

Timberland merchants report a build in their business at present. A number of things are contributing to the quietness, among which is the forest fire situation and the slump in the lumber business. The dealers are looking for tenroved conditions.

improved conditions.
In farm lands the dealers reported good conditions. Many good tracts changed hands and a number of unusually good deals are pending. Among the big farm deals was the sale near Engene by S. H. Friendly of his 873-acre farm to B. S. Allen, recently from Texas. There was a good demand also for orchard land. Among the purchases in this line was that by Walter C. Newman, of St. Louis, of 100 acres of Linnhaven or-

chards situated 18 miles east of Albany. The city is still keeping up its enviable building record. During the week total permits of \$400,545 were taken out, which is one of the best weeks in several The permits were issued as
