Explaining Some of the Superior Features of the "New Idea" Gas Range

The success of the wonderful "New Idea" Gas Range, for which we have the exclusive Portland agency, has been achieved by original improvements in Gas Range construction, design and finish. The front, top and shelves are made of cast iron, beautifully enameled to prevent rusting, not painted, as are Gas Ranges of inferior make.

Specially Designed Quick Heating Oven Construction

and a safety oven lighter combine to make it the safest as well as the most satisfactory Gas Range made. The patented Star Burners, which are removable, and the beautiful white enameled broiler pans and trays make it easily cleanable and thoroughly sanitary. Any part of this Range can be handled without soiling the hands.
