"New Method" Gas Range \$32

This handsome range—just like the cut—is fitted with four regular "New Method" burners and a simmer burner; a boiler in the top cabinet and also a large oven provided with dividing doors, a most desirable convenience. The base has a cupboard for cooking utensils. All steel is thoroughly japanned inside and out by a patent process. The gas is supplied to the oven in such a manner that there can be no explosion. The "New Method" burners consume one-fourth less gas than the old style. Ask to see this beautiful range.
