## Comfort in Furniture

There is no comfort like that afforded by a really comfortable Chair, or Davenport, the kind that is all soft springs and cushions, with no angles, no stiffness, no hard spots. Many a man has to go to his club to find such furniture; many a woman never learns the restfulness of it.

We have about seventy-five patterns in Easy Chairs, and twenty-five or thirty Davenports. It is an unequalled showing, representing every style of design and every degree of luxury.

When special patterns or sizes are required our own shops are equipped to make upholstered pieces of the finest quality.

us to make this exceptional offer:

The Cowan Quality Colonial Four Poster Beds (pictured above), made after the faultless Cowan standards—a genuine, trademarked, period piece-at a most unusual price-

The \$62.50 and \$72.50 values

There is only one Cowan quality; there is no other furniture like it. It is built on lines which time has approved and which mere fashion cannot change.

The beds are of solid mahogany, every piece carefully selected for grain and texture. Beds are 83 inches in length: Single size is 42 inches wide, and hundreds have been bought for America's best homes at the standard Cowan price, \$62.50. Double size is 601/2 inches, and sells regularly at \$72.50.

The special price of \$45.00 (or \$37.50 f. o. b. Chicago), either size, and the number of beds to be sold is limited. Come and see them and place your order at once,

# New Stocks of Medium-**Priced Bedroom Furniture**

We now offer the largest and most artistic line of medium-priced Bedroom Furniture shown in Portland. Our floors are crowded with it. A few pieces are in our windows this week-enough to give an idea of the correct and clever designs, fine finish and reasonable prices of the whole line.

A look at this furniture will convince you that it is possible to combine simplicity and beauty of design, good workmanship, and low cost. It has absolutely nothing in common with the ungraceful lines, inferior finish and cheap ornament usually found in bedroom furniture of the same price.

We offer Beds, Twin Beds, Dressers, Chiffoniers, Dressing Tables, Pier Glasses and Somnoes. The woods are selected mahogany, Circassian walnut, birdseye maple, Austrian silver fumed and golden waxed oak, ivory, white and cream enamel. Prices range from \$18.00 to \$30.00 for the Dressers; \$15.00 to \$50.00 for the Beds; \$16.50 to \$30.00 for the Chiffoniers; with other pieces in proportion.

Suspected Bill Now Shown to Be No Part of Plunder Stolen by Robbers.

TRIO ONLY ROBBED, BELIEF

Further Proof That Yeggmen Hurried to Seaport Town After Looting New Westminster Institution Is Obtained.

VANCOUVER, B. C., Sept. 16 .- The men who stole \$258,000 from the New Westminster branch of the Bank of Montreal have vanished as completely as though the earth had swallowed Their ingenuity in "cracking" the bank wault has been equaled by neir skill in disappearing.
A \$10 bill deposited in one of the

Vancouver banks today was supposed at first to be one of those stolen, but DUO UNDER SURVEHLANCE the cashler who made the discovery was over-hasty and closer examination of the figures showed that the note was not from the loot. The police th cities, though aided by a host of detectives, admit that they have been unable to truce the robbers be-Loot Is Heavy.

The gold and bills carried away by the thieves weighed nearly 200 pounds. The gold was American double eagles, which are full legal tender here.

Upon study of the case, the police concluded that only three men were concerned in the bank robbery and that the swag was divided in the clerk's room, care being taken to reject all torn bills, all silver and all mutilated gold.

sold.

Each robber must have had so pounds of gold and a large and heavy bundle of five and ten dollar bills. It is not reasonable to suppose that each set out to go his separate way, leaded down with riches. The automobile theory is generally accepted.

After the men divided the loot they must have come to Vancouver together, planning to hide here until a way was presented for getting out of the city. When the police arrived at the bank, smoke still hung heavy over the vault and the robbers could have departed only an hour or so before. Every boat and train leaving Vancouver and New Westminster has been watched and the police feel sure that the robbers did not get away.

Hig Reward Offered.

Big Reward Offered. The Bank of Montreal today offered reward of five thousand dollars for a reward of five thousand dollars for the capture and conviction of one or more of the robbers. They also will allow a bonus to the finder of five percent of any money that may be recovered through any arrest made.

It is a curious coincidence that Clarke, an old pal of Bill Miner, the train robber, was released from serving a long term in the penitonitary at New Westminster Thursday morning.

It is not believed by the police, however, that he had anything to do with

the crime, which had evidently been arranged with great care beforehand. One hundred and fifty thousand doilars of the paper money stolen is in new \$5 and \$19 bills of the Bank of Montreal and the numbers of the bills are posted in every bank in Canada and

are posted in every bank in Canada and on the American border. An attempt to pass any of these bills would result in arrest. The \$20,000 in gold and the \$88,000 in bills of various Canadian and United States banks are available for use by the robbers, however. The police say they are not working on any clew, but every exit from Vancouver is closely guarded. It would be difficult for the robbers to ship the money away by express, mall or freight. Skill of Trie Shown

Evidence is accumulating to show the skill with which the job was done. The explosives, it has been found, were set off by electricity, the wires being found attached to the handle of the safe, and, despite the fact that five or six charges were necessary, so carefully had the work been done that the residents in the Lavery block, adjoining the bank, did not hear the slightest sound.

A description of the notes stolen shows that \$50,000 was taken in \$10 bills, as follows: No. 452,001 to No. 453-000 inclusive, series A B C and D; also No. 561,001 to No. 562,000 inclusive, in series C; \$100,000 in \$5 bills as follows: Nos. 127,001 to 128,000, 802,001 to 803,000, \$25,001 to 830,000, \$14,001 to \$15,000, \$00, \$25,001 to \$25,000, \$14,001 to \$15,000,

Nos. 127,001 to 128,000, 802,001 to 803,-000, 829,001 to 820,000, 814,001 to 815,000, all of series A. B. C and D. In their scouring of the countryside late yesterday, the police encountered one man, living on the Douglas road, a roundabout way to Vancouver, who thought he had heard an automobile pass at great speed in the night, but nothing further could be learned of nothing further could be learned of this incident, though the police made diligent inquiries all the way from New Westminster to Vancouver. It is thought by those who have examined the safe that it was not drilled.

Use of Buildings as Meeting Places for Betterment Club Is Opposed. Municipal Golf Links Included in Proposed Scheme.

TACOMA, Wash., Sept. 16.—(Special.)
-To make of all the public school buildings in the city "civic centera," so-called, is the project launched by sev-eral men and women in Tacoma who are eager to do something for the so-cial uplift of the people. They would make of the school buildings, when not in use for school purposes, a place where improvement club meetings may be belid and where may also be held where improvement this meetings and be held and where may also be held any gathering of the people of the immediate district surrounding the school.

The promoters of the pian are the same who have outlined a scheme for public free dances in the Stadium in the Summer evenings, a municipally-owned golf links, a municipal farm and

similar projects.

The question of granting the use of the schools for "civic centers" was put up to the Board of Education at its regular meeting this week, Lorenzo Dow, State Representative from the Fern Hill

State Representative from the Fern Hill district, appearing to present the request. After some discussion the Board agreed to take the subject under advisement, although opposition to the plan developed on the spot.

"As long as I am a member of this Board I shall never vote to permit public school buildings to be used for other than school purposes," asserted George G. Williamson, Director, with some warmth.

The friends of the plan say they will keep at it, despite opposition, and hope to secure the consent of a majority of the Board.

Mayor Seymour was host at dinner at the Commercial Club Wednesday night to a large party, including city and county officials, school officials, newspaper men and others, and at this meeting speakers urged that plans be launched for a municipal golf links at Spansway, where anybody may play golf; public library branches in the school buildings; a downtown newspaper reading-room, where any person per reading-room, where any person may read the leading newspapers; a paved roadway through the forest at Point Defiance Park; a park along the Cliff avenue bluff; a new parental school; a municipal farm, and enough other projects to make the taxpayer look askance, all along the line.

We think it reasonably well settled that where either negligence, recklessness or carelessness constitute the ultimate fact for the jury to decide, that it is not competent for an experi witness to express an opinion upon that ultimate fact, but he can only go so far as to state the usual customary method of doing an act or state from his experience the dangers, if any, attendant upon doing it in a manner suggested by the questions put to him. Outside of this error the case seems to have been properly tried and we deem it unnecessary to discuss the remaining assignments. The judgment of the Circuit Court is reversed and a new trial ordered.
