M'MANIGAL CHIEF ACCUSER

Finding of Unexploded Bomb Following Destruction of Los Angeles Times Building Furnishes Clew That Implicates Brothers.

LOS ANGELES, Cal., Oct. 7 .- A clock key turned one time too many, a main spring wound too tight, are, according to the contention of the prosecution, the trifles responsible for the fact that the trifles responsible for the fact that John J. McNamara and his brother James are about to be tried here on the charge of having murdered 13 men. On Wednesday next—11 days more than a year after the disaster in which a score of victims were slain—these two men must appear in department 8 of the County Superior Court to defend themselves against the accusation that they are the destruction of tion that they caused the destruction of the Los Angeles Times building an hour after midnight on the morning of October 1, 1910.

October 1, 1910.

A web of what the presecution regards as evidence has been spun around the two brothers, one a National labor leader and the other a worker in the ranks, and will be presented to the jury. Clarence S. Darrow and the other stiorneys engaged in the defense of the McNamaras, however, are confident that they will be able to rend astinder the case of the prosecution, and that their clients will walk forth free men-

This bomb that did not explode and which was found beside the house of Felix Zeehandelaar, an official of the Los Angeles Merchants and Manufacturers Association, has supplied the clew that has solved, at least to the satisfaction of the prosecution, the mystery of how the building of the Los Angeles Times was destroyed.

reaction of the prosecution, the myseles of how the building of the Los Angeles. Times was destroyed.

The clest is traced back to the Mc-Namara brothers through a chain of alleged circumstances and facts. The case of the state, however, has been described by one of the attorneys for the defense as "a filmsy fabric of circumstances," and nothing so far has developed to show that the prosecution has any direct evidence to prove that James B. McNamara set the homes at the Times building, and at the homes of General Harrison Grey Otis, the proprietor of the Times, and Mr. Zeehandelaar. Nothing on this point appears in the transcript of evidence taken before the grand jury.

The "workings" of an alleged conspiracy, born of hate engendered by the industrial strife between union workers and employers in the atructural steel trade, are said to have been laid bare by the state.

"That we are going to have panics at times," said the President, "will follow in the inevitable character of human nature that sometimes we spend more than we have, sometimes we are wasteful and extravagant, and we are brought up standing to the thought that we have got to save a little more that we have got to save a little more money before we can expand ourselves to a point where we cannot stand up erect. This is one kind of a panic. The other kind proceeds from the artificial character of our system of issuing money. The people who suffer most in these panics are the wage-earners and the poor people. The men who are rich are able to get money enough when needed. The humble and poor are dependent upon a system by which they cannot secure the money needed except through the pro-

President Merry Over Reference to Candidacy as Prescription.

Candidacy as Prescription.

WALLA WALLA, Wash, Oct 7.—
Governor Hay, in introducing President Taft here today, declared that the voters wanted in 1912 a repetition of the "prescription" advised by ex-Senator Ankeny in 1908.

"Walle politics should be eschewed in a meeting of this kind," said the Governor, "I cannot but help refer to the fact, Mr. President, that it was a distinguished citizen of this city who first championed your nomination as a candidate in 1908, ex-Senator Ankeny, and I am pleased to say to you, sir, that a large majority of our people in the state believe that the prescription that the Senator recommended in 1908 should be repeated in 1812.

When the President rose to make his reply he was laughing heartily, "If, as the Governoh says, Senator Ankeny recommended me as a prescription," he said, "and you need a second dose, well—I will have to de the best I can to cure any disease you may have."

The President was entertained briefly by the citizens of Walla Walla.

"I feel so much at home here," he told his hosts, "that I want to stay."

COTTAGE GROVE. Or., Oct. 7.—(Special.)—With the two biggest properties milling gold in paying quantities, things are looking businesslike in the Bohemia mining district.

The West Coast mine is getting in the neighborhood of \$1000 a day from its plates and the Vesuvius, which started its mill 10 days ago, is milling a smaller amount. There is nothing to cause excitement, as these companies have invested hundreds of thousands of dollars in developing their properties and are but reaping the rewards of 12 to 14 years of work. The results, however, show that there is a great future for the Bohemia district.

The Sweepstakes, a much smaller property, which has some of the richest ore in the district, will start operating a two-stamp mill within the next week.
