Let Us Show You How to Live Better on Less Money

For less money than it costs to live in rented furnished rooms or at a hotel, we will put you into a cozy flat or apartment that you can call a real home—a home that will be your own in a few months. No inconvenience or hardship figures into this proposition in any way—the plan is very simple and practical. It's foolish to put your money in the bank month after month when you are not living in your own home. You are really putting money in the bank for a landlord.

Living in your home while paying for it is the same as using our money. Just like paying cash.

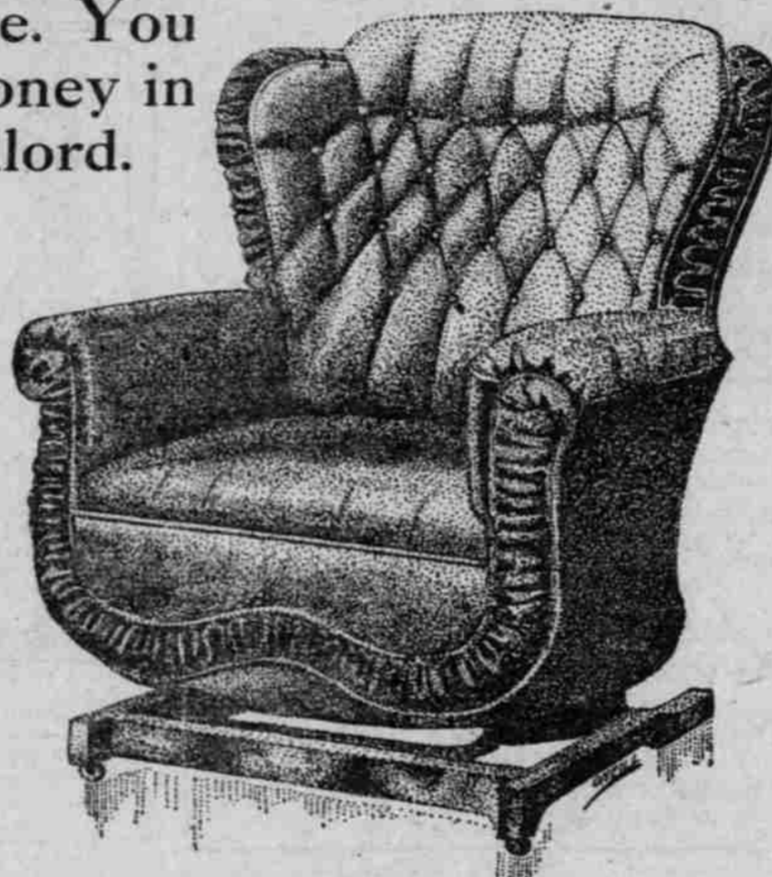

Get your furniture paid for first and then start that bank account.

Money in the bank could not begin to earn the interest it pays if invested in a home of your own. Get out your pencil and figure.
