# TALY LOSES 1000 SLAIN AND INJURED

One Report Is 12,000 Arabs and Turks Are Prisoners of Italians.

### PREDICT PROLONGED WAR

Europeans Flee in Terror to Consulates and Seashore-Turks Are Elated Over Their Success. Cholera Losses Hamper.

LONDON, Oct. 28.—From unauthor-ized dispatches from Tripoli reaching England by way of Malta, it is appar-ent Italy's campaign in Tripoli aiready has cost more lives than the govern-ment anticipated, while the financial outlay will greatly exceed the esti-mates.

The Turks, with their Arab allies, who, at best, it was believed, would carry on only a desultory campaign, have made a series of concerted attacks in which, according to accounts sent by correspondents without submission to the censor, Italians have come off second best.

mission to the censor, limitans have come off second best.

The Turkith Embassy has issued a statement declaring that in Monday's fighting the allies gained a victory, the Italians losing 200 men killed and 700 wounded. This is confirmed in part by an independent report that the Italians brought 700 wounded men into Tripoit and, further, by an announcement from Rome that the government had decided to send forward 15,000 re-inforcements.

### Censor Blankets Truth.

Since then telegrams from various points, some rather conflicting, tell of a series of attacks, the latest on Thursday. Thus far only censored accounts have been received of this engagement.

but apparently it was effective. One dispatch which obviously was roughly handled by the censor. says One dispatch which obviously was roughly handled by the censor, says wonderful but untrustworthy stories about the action are in circulation, but that the Italian riflemen and artillerymen say about 100 Italians were wounded and that it is asserted hundreds of natives were killed in the palms which a cruiser was shelling. According to this dispatch a determined attacked was looked for yesterday. Friday, before the Moslem's Sunday.

### Italians Escape Ambush.

a belated account of Monday's fight, A belated account of Monday's fight, coming by way of Maita, says the Italians have no knowledge of what brought about their defeat. The Moslems, thoroughly understanding each other, prepared for a supreme effort to stagger or destroy the invaders and only by accident did the Italians escape deadly ambush.

"The Moslem population," the dispatch continued, "was expecting a signal to rise and waiting the opportunity to shoot or stab the Italians who had been drawn by stratagem to parts available for an attack.

"Their plant and strangth were part.

"Their plans and strength were partly discovered. There were between 40.600 and 50,000. Undeterred by the fallure of their tactics, they fought desperately. The Italian sharpshooters
inct heavily, from 200 to 200 of them
perishing."

A later dispatch from the same source says there was an engagement Wednesday and while the capture of 12,000 Arabs and Turks is mentioned, the assertion also is made that the Italian coses were heavy.

Truple similar to the Araba and Turks is the same service.

Trouble similar to that of Monday, the dispatch continues, occurred in the town of Tripoli. The Europeans went in terror to the Consulates and seashore. This attack was preceded by an ultimatum from the Turkish commander to General Caneval to evacuate Tripoli in 34 hours. A contemptions refusal was followed by an attack by the Arabavalry muon the trenches at Ghirghib. cavalry upon the trenches at Ghirghin, which were held by two battallons, and the assault was only repulsed when a regiment of infantry reinforced the de-fenders and caught the Arabs on the

# Turks Are Jubliant.

Dispatches received last night from Constantinople describe the Turks as elated over their successes in Tripolt. It is believed that the determined fighting of the Arabs will lengthen the

war.

Correspondents who have returned to London on account of the severity of the censorship express the opinion that the Italian losses through cholera and other diseases will be extremely severe should the campaign last any time. They say the troops are not suitably clothed for the tropical nights and that not the slightest precaution is taken to prevent them drinking pol-

The London Outlook says it has special news from Egypt that may change the whole course of the war in Trip-oli. It says that Enver Bey, whose unquestioned orthodoxy under honor makes him almost sacred in the tents of the despet, has passed by camel relay through Egypt and has met the Grand Sheikh of the Sereul and united the whole Hinterland in a holy war against the Italian invadera.

Olga Steeb Is Wonderful Piano Artist

Brilliant Performance Electrifies

WHEN the gods first opened their shower of blessings on the soul of Olga Steeb, one command above all others must have been given to that favored one: "Make her a world-wide planist."

Olga Steeb gave her first plane recital in this city last night, and to say that her magnificent art and superb technique electrified her audience in the Masonic Temple auditorium is to say what actually occurred. She came here widely heralded as "the world's greatest woman planist." It is a rash statement, when one considers all the women planists in the world and re members the list of distinguished names. A calm but cordfal view of the matter is that Olga Steeb has the one divine spark that denotes a great piano artist, and that she gives an individual message of international value in music. She is the equal of the great artists on tour, but her claim to priorwill have to be settled in the fu-

The most brilliant offering of the evening was the Bach-Busoni "Cha-conne," from the fourth violin senata. It was an offering that thrilled, one that will be remembered. The Beeth-oren "Sonata, op. 57," received the dig-nified treatment of a big concerto, and was another big number. Miss Steeb won many hearty recalls, but only gave one response, an arabesque by Schultz-Evier on the celebrated "Blue Danube. The members of the committee conceded that the larger salaries were enquestion be submitted as separate amendments to the charter, fearing that their incorporation into the commission charter might endanger the chances of its adoption by the voters. In view of the fact that similar increases had on previous occasions failed to meet with the indersement of a majority of the electors.

### Officials to Be Elected. committee recommended the fol

owing increases in the salary of these officers, all of whom it is proposed shall continue to be elected, rather than appointed by the proposed commission-ers, and whose tenure of office is ex-tended from two to four years each: City Auditor, \$3000 to \$3600; City Treasurer, \$3400 to \$3000; City Attorney, \$2400 to \$4000; Municipal Judge, \$1800 to \$2400.

Reorganization of the city health department is provided in the amend-ments agreed to by the charter committee last night. As approved, the proposed charter designates the commissioner of public safety as the executive head of the health department. This commissioner has the appointment of a city health officer. This clause does away with the defeat. change does away with the advisory board of four physicians and the Mayor. These changes were made on the recommendation of Dr. Calvin S. White, secretary of the State Board of Health, and other prominent physicians who appeared before the committee.

Meats to Be Inspected.

On the suggestion of D. O. Lively, who called attention to the urgent need for the inspection of meat products offered for sale in the city markets, the committee incorporated in its charter a section empowering the commission to enact ordinances requiring the inspection of milk, meats and all other food products. Discussing this subject, Mr. Lively said that Portland was the only city of its size in the country that had not provided for the thorough inspection of all food products. He argued that Portland, properly should have a municipal abattoir as an should have a municipal abattoir as an essential convenience in insuring for the publics an improved quality of

The Auditor, under the supervision of the Council, shall make all purchases of supplies and materials used by the city and shall furnish all such materials and supplies required by any of the offerers and for any department of the city. The Council shall adopt rules and regulations for advertising for bids on all supplies and materials estimated to be used in the several departments during the current year, and arrange for the custody and care of supplies and materials, same to be delivered to the different departments upon requisition signed by the Commissioner in charge of said department. Said materials or supplies when so delivered shall be charged to the appropriation made for that specific purpose for said department. The Commissioner in charge of each department shall approve all proper bills for supplies or materials purchased, all claims for public works, all payrolis, and claims for public works, all payrolis, and claims for public works, all payrolis, and claims of whatever nature coming under his department. Said claims shall then be examined by the Auditor and if found correct shall be presented to the Council for its action. When suce demands have been approved as in this charter provided then the Auditor shall draw warrants on the Treasurer in payment thereof.
