Dempsey had no business in the ring

we all loved to call him, was never in the middleweight division. In fact, he was hardly a welterweight. For most of his fights he could do 128 or 140 pounds and be right, but he was certainly a most ambitious fellow. Why, he even wanted to jump into the heavyweight division and fight Jake Kilrain, when John L. Sullivan was sick and helpless in Boston, in 1888. perisi Hotel yesterday, when the board voted to abolish the annual triangular meet between Washington, Oregon and Idaho, and to substitute the sextangular event, Fortland being awarded the pium for June 1, 1912.

This was by far the most important advance made by the graduate bosses at the session, although Oregon and Washington got together for a dual meet at Seattle on May 13.

The Portland all-conference clash will be held on Multinomah Field, each of the six colleges, Oregon, Oregon Aggles, Washington, Washington State, Whitman and Idaho, agreeing to send down seven men. Expenses and receipts will be prorated. Arthur Geary and S. M. P. Dolan were given full charge of the champlonships.

College Baseball Muddled.

College Baseball Muddled. College Baseball Muddled.

College baseball is more badly muddled than ever as a result of the annual schedule meeting, for, with Whitman and Idaho absolutely refusing games, no definite programming could be done. Washington State will make the only trip as far as known, playing Oregon at Eugene on May 8 and 9 and the Aggles at Corvallis on May 10 and 11.

Both Overon and Washington are figur-

aggles at Corvallis on May 10 and 11. Both Oregon and Washington are figuring on California jaunts, but until the dates are chosen no further games will likely be taken on.

The failure of Oregon University and the Oregon Aggles to come to an amicable settlement of their differences was one of the disappointments of the session, for, with both basketball and baseball in a rather unsettled shape, these two institutions really need each other's assistance.

The Oregon Aggles are anxious to meet Oregon or gym floor, track, diamond and grid'ron, but refuse to sign up for baseball or basketball without the promise of a date on the football schedule next Fall.

If the Oregon managers will adjust this tangle Corvallis promises to sweep from the books any and all incendiary resolutions and no further trouble would be experienced in obtaining a renewal of athletic relations.

CAREER AS COACH SUCCESS

President Kerr, of Corvallis Institution Picks Best Man for Place in Interests of School, Declaring Exercise Means Health.

OREGON AGRICULTURAL COLLEGE, Corvallis, Dec. 30 .- (Special.) -- Dr. E. J. Stewart, who comes to the Oregon Agricultural College as professor of physical education and director of athletics, has already proved himself to e not only a great athlete, but a good teacher of physical exercises to othe

men and a splendid leader of men. In announcing the appointment of Dr. Stewart, President Kerr said: feel that it is of great importance that the physical welfare of the student body as a whole should receive most careful and expert attention. For this reason I have canvassed the United States in an attempt to get a man who seems to be qualified for the position believe I have found in Dr. Stewart best-equipped physical directo

Dr. Stewart comes to O. A. C. from Allegheny College, Meadville, Pa., where he has had charge of athletics for the past three years. During that for the past three years. During that period Allegheny has won the championship in football, baseball, basketball and track athletics. In all the activities Dr. Stewart not only had charge of the coaching, but besides has handled the training and been in

entire physical charge of the under-graduate body.

During the Winter of 1998 Dr. Stewart coached the Purdue basketball team and won second place in the Western Conference League, having defeated Wisconsin, Illinois, Minnesota, Iowa, Indiana and Northwestern, being defeated in a close game by Chi-cago. The new physical director grad-uated from the Stuebenville (O.) High School in 1895 and attended Scio Col-lege, and afterwards took his degree in medicine from the Western Reserve

interested in athletics and kept the ject in view constantly of making him-self as efficient a physical director as knowledge could possibly make him. While at the Western Reserve University at Cleveland, O., he played three years on the football team, on the track team, on the basketball team and on the baseball team. He was capon the baseball team. He was cap tain of both the latter teams twice dur-

ing that time. Professional Record Brilliant.

He then played one year of football on the Mount Union College team, which he also coached. He organized, played quarterback upon and coached the famous Massillon Tigers, a profes-sional football team composed of former college players, most of whom former college players, most of whom were from the Eastern universities, the played professional baseball with the Ohio and Pennsylvania League, a Class B organization, and played professional basketball in the Central Basketball League of the United States, the highest class professional basketball played.

Besides his training as an athlete, the Stewart has conducted physical

Dr. Stewart has conducted physical education work in all branches for ten years. His experience was gained through Y. M. C. A. work, high school work, three years in college gymnasium work and three seasons at the Chautauqua School of Physical Educa-

sity. He follows Dr. Seaver's method in the matter of measurements, rec-

ords, etc.

The particular attention of the new physical director will be directed towards the physical condition of the student body in general. To attain satisfactory results physical tests su.h as are used in all Eastern universities in determining the physical ability of candidates for the different teams to participate will be made and only those who are up to the physical standard will be allowed to take part in intercollegiate contexts. Aside from standard will be allowed to take part in intercollegiate contests. Aside from this every student in the institution will be measured and given careful tests and the results will be recorded and filed for reference. By studying the individuals it will be possible to recommend exercises which will build up the individual along the lines which it is most important to have developed.

up the individual along the lines which it is most important to have developed. The coaching of the varsity teams will be carried on by Dr. Stewart and such coaches for special branches of athletics as may seem necessary. The physical condition of the men, even those under special coaches, will be in the control of Dr. Stewart.

The necessity of a physical director has almost nothing to do with the wish of the undergraduates for winning athletic teams, but is considered solely-from the ground of what is to the best interests of the hundreds of young men and women who spend four years of their life at college at a time in their lives when the formation of in their lives when the formation of good habits of exercise will assure to them good health. "There is no sport that brings a man's muscles into play more than in boxing," continued Mr Nielsen, "and when the sport is handled in a clean, sportsmanlike manner there is no game more interesting to watch, for there are many scientific points to the game that you will not find in other lines. I have always been an ardent admirer of the manly art and I will say that the Australians are very fond of it. They like good clean sport, but they prefer more of the clean breaks to this go-as-you-please style the Americans are so fond of. You call it hitting in the clinches, or with one arm free, to protect yourself.

"The boxing game under such a splendid sporting man as Hugh McIntosh, of Australia, is bound to prosper and as long as they keep the sport free and clean it will no doubt be among the leading sports in Australia. The big stadium at Sydney has been greatly improved and seats over 20,000 people, so you see they can take care of a monster crowd at the big matches. Mr. McIntosh was home when I left Sydney and I presume he is having a big season's sport, for he usually does things up in handsome style. I have been very busy here since my arrival and have had no chance to witness any sport of any kind. I hope to get back at some future time when I will be at liberty to take in all the will be at liberty to take in all the

After the manner in which Bombardier Wells, the English heavyweight champion, defeated Fred Storbeck, the champion, defeated Fred Storbeck, the South African champion, the other night in London, there will no doubt be a rush on the part of the American promoters to get the hig fellow over here and stack him against some of the "white hopes." Wells proved to be an entirely different sort of a hoxer from what the people here expected, and as stated in these columns a couple of months ago, proved a big surprise to the fans. to the fans.

to the fans.

It was expected by the boxing critics that Wells would merely tap with his left and endeavor to outpoint his heavier opponent, but in this he fooled them, for not only did he use a cleversess, but when the proper moment ame he had the knock-out punch to deliver, and put the South African to sleep for more than the necessary 10 seconds. Wells has improved greatly in his physical make-up, and the heavy in his physical manager, which he followed all last Summer, has no doubt helped him considerably. Storbeck is a big, strong young fellow and able to take a good beating, and from all accounts he received one from Wells.

## SEASON OF BOXING IS DISAPPOINTING

Nothing in Sight for San Francisco Fans but Little Bout for Tomorrow.

MATCH HAS POSSIBILITIES

Chicago Knockout Brown and Sallor Petroskey Will Fight in Oakland. Jim Flynn Now Seeks a Go

With Jack Johnson.

BY HARRY B. SMITH.
SAN FRANCISCO, Dec. 20.—(Special.)
—The boxing season that promised so much for San Francisco during the days before Ad Wolgast was injured, has turned out to be a disappointment to all hands concerned.

Aside from a 10-round match between Chicago Knockout Brown, the Greek middleweight, and Sallor Petroskey, which is scheduled for Monday after-noon in Oakland, there isn't a thing noon in Oakland, there isn't a thing in sight. The permits for the coming year in San Francisco haven't even been apportioned and the talk of the chances of a bout between Al Kaufman and Jim Flynn for the latter part of January are none too good. Instead, it seems now that Flynn and Alzer. Kaufman's conqueror the other night, will be matched here by Coffroth. That's the situation and you can

will be matched here by Coffroth.

That's the situation and you can
judge for yourself just how we feel
about the matter. It has been years
since we have lacked a bout on Thanksgiving day, and although we can't cousider ourselves as altogether left out
in the cold, by reason of the aforesaid
10-round affair, still it is almost as
bad.

Bout Has Possibilities

The bout between Brown and Petro-The bout between Brown and Petroskey may develop a middleweight pessibility, but I doubt it very much. Brown didn't do so well against Fritz Holland, and the Spokane boy was never considered a demon. By the way, there has been a lot of adverse comment on the decision that Jack Welsh gave to Brown over Holland. Holland led all the way up to the sixth round when Brown floored him three times, the first time with a wild swing to the jaw.

the first time with a wild swing to the jaw.

It took Holland a couple of rounds to recuperate after that punch but he wound up the match in good shape. Welsh's decision must have gone absolutely on that one round and most of the fans who saw the match say that the worst Holland should have had was a draw. Both Holland and his manager, Tim McGrath, were considerably disappointed, although to their credit be it said that they have done but little howling.

Holland wanted a return match in a hurry, but the management of the Oakland wheelmen thought it would be far better to stage some other chap

Oakland wheelmen thought it would be far better to stage some other chap and Sallor Petroskey was selected. BY TOM S. ANDREWS.

MILWAUKEE, Wis., Dec. 30.—(Special.)—"Boxing is a grand sport and one of the finest exercises a man can have," remarked the Honorable Nell mit, it remains to be seen who will annex the suggested Kaufman-Flynn fight for the latter part of January. Coffroth has a fight club in Daly City, just over the line in San Mateo County and he can show there if it is necessary. Foley, apparently, isn't certain that he will be granted a permit and even should he be handed out the permit,

should be be handed out the permit he doesn't know whether he could get his fighters.

Flynn is angling for a match with Johnson and with that in view probably will hold off so far as San Fran-

cisco is concerned.

I doubt very much whether a Johnson-Flynn match will be arranged at this time, yet the fact that Kaufman lost to Palzer the other night may place Flinn's stock higher. There would be few promoters ready to offer John-son a \$30,000 guarantee against the Colorado fireman, and Johnson, of his own volition, has barred San Francisco own volition, has barred San Francisco and Los Angeles as places in which to hold the fight, and that would limit him to Reno. There wouldn't be any vast throngs traveling to Nevada to see a bout. In the meantime, Hugh McIntosh is reported as having offered Johnson the necessary guarantee to go to Australia to meet Sam McVey and Johnson himself, according to the dispatches, thinks that is the match that will be made.

What Happened, Cause Wondering.

They are still wondering down hers in San Francisco what happened to Sam Langford that he should lose a decision to McVey, When McVey last in California, he was a cl heavyweight of the squat variety. He lost to Jack Johnson several times and also lost a 10-round decision to Denalso lost a 10-round decision to Denver Ed Martin. His reputation began to grow after he was in Paris, and it was there he made most of his name. Possibly he has improved, possibly he has gone back and possibly, also, the two colored boys agreed to their affair in order to bring about a return match. The chances are that they will be rematched in Sydney.

Frank Klaus may be seen in a Call-fornia ring in February, if not the lat-ter part of January. He has promised Mel Mofflit, of the Cakland Wheelmen, that he will come to Oakland to meet the winner of the Brown-Petroskey watch Klaus comes as close to being that he will come to Oakiand to meet the winner of the Brown-Petroskey match. Klaus comes as close to being recognized as the middleweight cham-plon as any man in the game, and the fact that he was to fight would draw a lot of money into the box office. There is just a chance that around the first month in the New Year Bom-bardier Wells the English heavyweight the first month in the New Year Bom-bardier Wells, the English heavyweight champion, will be brought to San Fran-cisco to meet one of the local heavy-weights. Tom O'Day, the promoter who staged the Nelson-Woigast match at Point Richmond, has entered into nego-tations with the Britishar and tlations with the Britisher, and says that he would be giad to make the

work of Charlie Horn, a san Francisco-lightweight, who has been making rap-id progress for a few months. If Horn develops rapidly enough to warrant, a match will be made for January or February. O'Day doesn't expect a local permit, but says there will be no trou-ble in staging the match in the vi-cinity of San Francisco.
