Imported Pongees Have Arrived

—The importance of Oriental silks is recognized in Paris to the extent that every big designer and dressmaker launches these beautiful fabrics each season.
—For one-piece dresses and simple tailored suits, as well as enveloping wraps, there is nothing so popular and practical as the imported pongees.
—Today we are showing the first Spring shipment of natural colored pongees. In a great variety of qualities from the light chiffon weight to the extra heavy coating.

Women's Blue Serge Long Coats Make Their First Spring Appearance

—Long before the trees blossom women are thinking about these coats. Just right for the first chilly days of Spring and the warm days of Summer. Whilst the styles are the usual plain-tailored sorts—they have many new modish touches.
—These coats are made in loose and semi-fitting straight models, giving the desired silhouette effect. One particularly attractive model shows a deep pleat running from the right shoulder to the hem of the coat, which is held in place by three large fancy buttons. The deep revers and deep half-cuffs are of creamy white cloth stitched in black. In fact, all these models are trimmed with the white cloth stitched in black and large fancy pearl buttons trimmed in black.
