This instrument received the only award in England and in Spain, preducing results without surgery or the Legislature that created the office of highway commissioner. The state charges in its appeal that he later ac-cepted the appointment of highway commissioner at the hands of the Gov-ernor of this state, while he was still State Senstor and without resigning that offse to accept the new one. The statute provides that this is a clear violation. The important question that arises

Friends Are Champions.

Friends Are Champions. The compensation with the office of highway commissioner is too insignifi-cant to mention, friends of Senator Gooding declare, and that to charge him with usurpation of office, when he but accepted the highway district appointment merely out of what he feit was duty as a citizen, does not follow out the intention of the Legislature when it created the law. It is also said that if the statute is made to apply sgainst Senator Gooding, it likewise must hold the Governor of the state responsible, because it plainly the state responsible, because it plainly provides that it is unhavful for the Chief Executive to appoint any mem-ber of the Legislature to another state

office, when he is serving in another, thereby making it possible for him to hold two state offices at the same time.

ABERDEEN Wash., March 9 .- (Special.)-That the timber cruise in Chehalis County shows more than 25,-000,000,000 feet of standing timber valued at approximately \$50,000,000, and that the assessed valuation of this timber is only \$8,335,895, was the rather startling announcement made yester-day by A. C. Girard, of the Taxpayers League

Girard, who is perhaps one of the best posted men in Chehalis County on county tax questions, is a local news-paper man and for the past six years has paid considerable attention to tax questions, with the result that he has, he says, discovered some astounding facts regarding the method of taxa-tion employed by the county in taxing certain large lumber corporations. "The way the large corporations owning the wealth of this county, stripping it of its resources, and pay-ing little in return for Government protection, roads and other public im-provements, have manipulated the tendent of the Grants Page school, af-firmed "That National legislation should be toward the gradual abandom-ment of a protective tariff."
