Majestic Ranges Sold on Easy Terms.
There is so much complaint from some people who heat water for the bathroom with a water-front in their range. The trouble lies principally with the water-front; there is not enough space inside to heat a large enough quantity so that it not only heats slowly, but never gets the water hot enough.
The water-front of the **MAJESTIC** Range has a number of pins extending along the top which gives one-third more space for water and spreads over the fire just one-third more. It's just another of the handy features about the great range. Carload of Great Majestic Ranges just in.
