Removal Sale of Rich American Cut Glass

—Brilliant, scintillating American cut glass is the product of cutting shops employing the highest skilled labor. The various articles are cut from heavy pure white blanks. Some stores, in order to name low prices, sell glass that is merely pressed and cut over. Pressed glass is made by pouring molten glass into moulds which are the shape of the cutting desired. IT IS NOT CUT GLASS, and your only protection against securing such glass is by buying from stores that handle cut glass exclusively. The richest hand-cut glass. —Lipman, Wolfe & Co. have always upheld the standard and sell only the product of cutters of National reputation. —In this Great Removal Sale you will see how astonishingly low fine cut glass can be sold. Not the lusterless kind, but bright, brilliant cut glass that will retain its brilliancy indefinitely. See our display.
