

Dick Law Will Need Amendment to Make National Guard Available.

Provision That Members of State Forces Shall Enroll in Regular Army Is Discussed-Result Is Uncertain Question.

OREGONIAN NEWS BUREAL, Washington, March 26.-The opinion of the Attorney-General that the President cannot call out the organized militia of the several states for service in a foreign country in time of peace is ab-solutely binding upon the President, notwithstanding the view held by many

notwithstanding the view held by many militia officers that the Dick law pro-vides to the contrary. The Attorney-General bases his opinion upon the Federal Constitution. The opinion of the Attorney-Genetal was given in re-sponse to a question propounded by the Secretary of War. The Secretary asked whether or not, under existing laws, the President bas authority to call forth the organized militia of the states and send it into a foreign country with the regular Army as a part of an army of occupa-tion, especially should the United States intervene in the affairs of such country uniter conditions short of ac-tual warfare? tusl warfure?

Question Answered in Negative.

The Attorney-Géneral answers this question in the negative, and cites the Constitution as giving to Congress the power "to raise and support armies" and to provide "for calling forth the militia to execute the laws of the Union, suppress insurrections and re-pel invasions." The Attorney-General then snys:

"It is certain that it is only upon one or more of these three occasions-when it is necessary to suppress inthat even Congress can call this militia into the service of the United States or authorize if to be done." The Attorney-General points out that Insurts the service of the United States or authorize if to be done."

insurrection is necessarily within the United States, and even if an insurrec-tion of our citizens occurred in a foreign land the President could not send in armed force into that country suppress such insurrection without

committing as act of war. The term "to repel invasion" is more elastic, says the Attorney-General, and "If the militia were called into the service of the general Government to repel an invasion, it would not be nec-essary to discontinue their use at the boundary line, but they might (within certain limits, at least) pursue and capture the invading force, even beyond that line; and just as the regular Army might be used for that purpose."

Invasion Could Be Repelled. "Then, too," adds the Attorney-Gen "Then, too," adds the Attorney-Gen-eral, "if an armed force were assembled upon our horders, so near and under circumstances which plainly indicated hostility and intended invasion, this Government might attack and capture or defeat such forces, using the regu-lar Army or the militia for that pur-pose. This would be one way of repel-ling an invasion.

pose. This would ling an invasion.

pendent and separate organizations, as the quota of each state may require, including all regimental and brigade officers authorized by law. Every effort is being made by some of the influential members of the mili-tary committees of Senate and House to pass the militia pay bill, with pro-visions attached to overcome the ob-jection raised by the Attorney-General, but the Democratic leaders of the House are understood to be hostile to the whole scheme, though not openly VANCOUVER MAYOR MUST SHOW CAUSE

the whole scheme, though not openly objecting to it. At this date it can hardly be said that the militia pay bill. Irwin Cited to Disclose Why with the accompanying amendments, is in a position to become a law at this session, though it is by no means cer-tain the legislation will be killed off.

Accept This Free Trial Bottle! Gray Hair?

Restorer.

This week you shall have a Trial Bottle of my Gray Hair Restorer.

Now, in order that you give it a fair test, without any expense or embarrassment, I suggest this plan:

Don't put my Gray Hair Restorer all over your head, but merely try a little spot in an inconspicuous place-behind the ear, for instance, and-

Watch the results. Note the change from gray, back to the old-time color of your hair. What a contrast to the common hair dyes, that stain the hair!

Watch that little trial spot-put the Hair Restorer on for a few days-just follow the simple instructions on the bottle. Gradually you will see the former natural color returning to the hair on which you applied the Restorer. Then you will be, as delighted as the thousands upon thousands who have used this great Restorer.

You ask, how is it done?

This is how Mary T. Goldman's Gray Hair Restorer works: It restores the natural activity in the cells around the roots of the hair, thus enabling these exhausted cells to once more perform their functions; the cells are fed and invigorated.

Your hair turning gray proclaims the fact that you are getting old. And maybe you don't feel old at all! You know the advantages of being young-in society or business. So why be reminded all the time that you are becoming old when you need not be thus reminded? Why keep it ever before you? You deprive yourself of business and social advantages by

keeping this fact before the world. It is not necessary.

Your idea that dyeing the hair is vulgar is quite right, but it is certainly the part of common sense and good judgment to

"But this is quite different from and iffords no warrant for sending the militia into a foreign country in time of peace and when no invasion is made threatened." The Attorney-General then shows

that the phrase, "to execute the laws of the Union," does not justify sending the militia to a foreign land, for the laws of the Union do not apply beyond our own boundaries. "When an army of occupation is sent into a foreign country to protect the lives and the sights of our cilizens," says the At-terney-General, "no haw of the Union is being executed by such invasion, for of the Union exists, or can be o law enforced there.

While it is the duty of every nation to afford proper protection to all who are lawfully within its borders, yet this is not because of any law of the mation of which such foreigners are subjects. No one can say in such a case that we are executing or enforcing any law of the Union. We are but aid-ing or compelling the foreign government to execute its own laws or to perform its own duty. As no law of the Union is being executed by such invasion the militia cannot be called out, under this provision, to take part in it. As no law of the Union can exist or be enforced in any foreign country, the militia cannot be called out to enforce any such law there."

All Other Uses Forbidden.

Concluding his opinion the Attorney-General suid

"I think that the constitutional provision here considered not only affords no warrant for the use of the militia by the general Government, except to ppress insurrection, repel invasion to execute the laws of the Union, out, by its careful enumeration of the three occasions or purposes for which the militia may be used, it forbids such use for any other purpose; and your question is answered in the negative." In view of the opinion of the Attorney-General, it becomes necessary to amend the law before the militia can be employed on a basis similar to the

regular Army, Several schemes are new under advisement, and it is prob-able that some provision will be made to this end in the militia pay bill, now before Congress. One proposal is to insert a paragraph providing that those members of the militia who qualify for pay shall enlist as volunteers of the regular Army as well as state troops. The War Department, however, is proposing a somewhat different plan. An amendment suggested by the Secre-tary of War proposes to add to the pay

bill this proviso: "Provided, that in time of war or when war is imminent or in other grave emergencies requiring the use of troops beyond the territorial limits of the United States in excess of the regular Army, the President may draft, transfer to and embody with the regu-lar or volunteer forces of the United States any partition of the security States any portion of the organized militia having received pay under this act; and the portion so drafted, trans-ferred and embodied shall be subject to the same laws and liable to the same duties and entitled to the same pay, empluments and allowances as are the emoluments and allowances as are the volunteer forces of the United States, and all enlistments in force in organirations so drafted and transferred shall continue in force as if they were en listments in the regular Army."

Democrats Hostile to Plan.

Another proviso suggested by the Secretary of War stipulates that or-ganizations taken into the service of the United States shall be taken by regiments, brigades, divisions or inde-

Senator M. A. Miller, of Lebanon, that he will withdraw from the race for the Democratic nomination for United States Senator, his name will appear on the nominating ballots which go before the nominating ballots which go before In a recent opinion of the Attorney-

General it was held that a candidate General it was held that a candidate could not withdraw until some official action on the part of the Secretary of State had been taken. Secretary Ol-cott certified the official ballots to the cout certified the official salids to the County Clerks several days ago and in so doing an official action was taken which would preclude the omitting of the name from the ballot. Mr. Miller's name being among those certified to. W. B. Hansen, County Clerk of Hood River County, telegraphed Secretary Outout today asking if he should omit Olcott today asking if he should omit the name of Miller from the ballot and was advised not to do so because of the certification which constitutes the of-ficial action.

Address

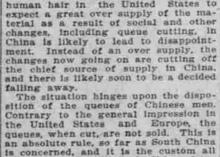

Name

The mortality of my maids is due, as I have hinted above, to the "com-plaint" of matrimony. If old Molly, whose protruding front teeth we chil-dren used to imitate behind our geog-raphies in the old academy, had been marriageable-but she was not. Suitors potential in my mother's kitchen were plentiful enough, but, far from stop-ping, like the filer in the story, they did not even "hesitate." as, in suc-cessive generations, they speeded past the protruding teeth of our Molly's youth, maturity and age. If Molly had been marriageable, she might conceivably have married, and then my mother might have had an-other servant, and another, and yet an. ther servant, and another, and yet an. other servant, and another, and yet an-other. But Molly's being so out of it makes my mother's record out of it too, so far as I am concerned. I am in a different class; my servants have all been marriageable. And they married, too, and that right early-too early for my comfort and satisfaction. And, to cap all, they have held me, to a certain extent, respon-sible for it! "Every girl who lives with yous will want to get married. It seems so nice."

"Every girl who lives with yous will want to get married. It seems so nice." Thus Lizzie announced her engage-ment to a man and canceled her en-gagement with me. Other girls have horne like testimony. I have not been willing to try seriously to discourage them by setting forth the awful chances of the matrimonial lottery. Nor have I, with the practical assur-ance that the happler I seemed with my husband the sooner I should ex-perience the pangs of prematurely

perience the pangs of prematurely parting with my maid, been willing

Antoinetts B. Harvey in the Outlook. I was born, not with a gold spoon, but with a gold servant, in my mouth. During the 23 years I have kept house the maids who have used my home as a halting place on the highroad to matrimony have left pleasant mem-ories. If it were the custom for grate-ful house mothers to eract tablets in kitchen and nursery to their good and faithful servants, there would now be some six or seven of these on my walls with enviable inscriptions. Instead of eracting tablets, I am in this article satisfying my sense of justice and in-cidentally offering a contribution to the literature of the servant problem. Compared with my mother's record of one servant for 50 years, my own tale of seven not servants, but just an absolute rule, so far as South China is concerned, and it is the custom all over those portions of China from which the writer has been able to secure reliable data on this subject. The queues, when cut, are preserved, according to general statement, for

burial with the owner. The chief supply has come from Chi-nese harber shops, where, in the course of shaving portions of the heads of custale of seven servants, but county a few who were not servants, but just employes, in a little over one-third of the time, seems discreditable. As to that I must leave the reader to judge after hearing the facts. The mortality of my maids is due. tomers, considerable long hair is acci-dentally removed. Now that the queues are cut, however, Chinese barbers have no more long hair to dispose of than barbers in the United States. A con-traction of the supply in Hongkong
