To instantly relieve pain has always seemed impossible, but will be proven possible in one short treatment with "Try-New-Life."

If you are suffering from any cause whatsoever, if you are not as strong and healthy as Nature intended you to be, you are unkind to yourself if you do not learn the wonderful health and strength-restoring power of "Try-New-Life."

After a hard day's work—muscular or mental strain—nothing is so invigorating, soothing and strengthening as one short treatment of "Try-New-Life" applied to the spine. Your whole system at once responds to the vitalizing, invigorating effects of the increased blood circulation. You can prove it yourself best by one free treatment, and then you will be convinced.

Don't forget the place of demonstration, 367 Morrison street.

WHAT "TRY-NEW-LIFE" IS.

What is this "Try-New-Life" that does such great things for suffering humanity?

It is a small, compact and very strong machine; operated by electric current, but it does not apply electricity to the body. One gets no more electric shock than in riding in an electric car, or on a streetcar. The electricity merely drives the machinery.

A small arm of the machine is whirled at great velocity—15,000 strokes a minute or more—and this arm conveys this vibration to the body through any one of six different kinds of applicators. Some are of the softest rubber, so that the tenderest skin cannot be injured with them. Some are stronger and are meant for deep-seated muscular trouble. The operators explain carefully to each one just which applicator is best for each ailment. Demonstration every day from 8:30 A. M. until 6 P. M., at No. 367 Morrison street.

STRENGTHEN YOUR BODY.

A weak, thin arm or leg is the proof of poor circulation. If you should exercise this weak arm or leg day after day, it would get strong and healthy. "Try-New-Life" will do this quickly and easier than exercise, without the loss of energy or subsequent fatigue.

Few of us get sufficient exercise, and this is bad for our general health. It causes an accumulation of waste matter in the system, and not enough nourishment to repair the worn-out parts. One treatment of "Try-New-Life" will prove to you the wonderful invigorating effect of the increased blood circulation.

Very few people realize how important the circulation of the blood is to the sustaining, strengthening and building up of our body, and those who do realize it are too weak to exercise. For this reason "Try-New-Life" is an absolute necessity.

The scientific principle of "Try-New-Life" is very simple. It stimulates a good, healthy circulation of the blood

at the moment it is applied, which is the natural way of assisting Nature and accomplishing the most satisfactory results.

Nature alone can cure; this is the highest law of practical medicine. Nature creates and maintains; she must therefore be able to cure without the use of drugs.

The healing and strength-giving power of Nature is in the blood; it is the blood that heals. No trouble or disease can exist in any part of your body if the good, rich, red blood is sent coursing through your veins.

It is the free-flowing circulation of the blood that builds the body of an athlete strong and healthy. "Try-New-Life" stimulates the circulation of the blood the same as exercise, passively exercising all the muscles without fatigue or loss of energy.

It is the blood that distributes all

the strength and nourishment of your food through your entire body; it is the blood that carries away all the waste matter from your body. Just stop and think how important the circulation of your blood is for good health.

If your circulation is poor, your body receives no strength from the food you eat; your blood does not throw out the accumulated waste matter; and, in consequence, you will feel weak, tired and lazy—the forerunners of disease.

You may eat a delicious, juicy steak, full of strength and nourishment, which only passes through your digestive organs; it is the blood which absorbs and distributes its great strength and nourishment through your entire body. Your life depends upon the free-flowing circulation of your blood; congested blood is the cause of disease.

All leading sanitarians, health resorts and hospitals, which have adopted "Try-New-Life," are charging exorbitant prices for its treatment, and the public is perfectly willing to pay these prices, because it gives them such wonderful relief.

Don't forget the place of demonstration, 367 Morrison street.

"THAT TIRED FEELING."

You, who have that lazy, languid feeling, don't know what you miss unless you try "Try-New-Life."

You cannot imagine how strengthening and invigorating "Try-New-Life" is—just think, it is a thousand times more efficient than the hand massage.

It is such a simple and handy little instrument that even a child can use it without assistance—no danger whatsoever.

Simply rub "Try-New-Life" over your body and you feel the wonderful invigorating effect instantly.

One short application of "Try-New-Life" starts your circulation, gives new life, strength and vigor to your whole body.

Because it sends the rich, red blood leaping healthfully through every blood vessel in the body, exercising every muscle, strengthens and rebuilds the tissues, throws out waste, drives out aches, pains and disease matter like magic.

It instantly dispels fatigue, stops headache, neuralgia or any ailment incidental to nervousness or fatigue.

"Try-New-Life" clears the mind, freshens and invigorates the entire system, stimulates and strengthens all the

inactive organs. You ought to try it. If you are suffering from any of the following ailments, you will be more than amazed at the wonderful results you will receive from the first treatment. Try to avail yourself of the free demonstration and be convinced.

"Try-New-Life" instantly relieves rheumatism, swelling in the joints, stiff wrists, and sore muscles. You who suffer from rheumatism can judge best of the merit of this marvelous invention.

Those suffering from lumbago or backache can be convinced in one treatment that "Try-New-Life" will give immediate relief.

If you are suffering from sciatica, just try one treatment, and the relief it gives you will prove its great value in treating this stubborn disease.

"Try-New-Life" will give instant relief for any kind of muscular rheumatism, no matter how stubborn the case or of how long standing.

The natural way of relieving pain or curing any weak organ is "Try-New-Life," and it is impossible to realize the great harm done by the indiscriminate use of drugs.

Nature has provided us with everything, and all the magic healing and strength-building powers of Nature are in the blood; it is the blood that does everything.

The moment you apply "Try-New-Life" it stimulates and invigorates the muscular action of your stomach, toning the nerve centers, increasing the natural flow of the gastric juices, and immediately relieves the pangs of indigestion without drugs or dieting.

Constipation is more dangerous than

many realize—it is the forerunner of disease. Constipation permits your system to reabsorb all the poison of the accumulated waste matter.

"Try-New-Life" stimulates and invigorates the muscular action of your bowels; you get relief the moment it is applied. It starts the blood circulating properly and assists Nature to promptly do her work without drugs.

"Try-New-Life" stimulation rouses the stomach to its normal functions; strengthens the action of the liver, kidneys and bowels and acts as a natural purgative—its soothing, revitalizing influence at once invigorates all the nerve centers which control these organs.

Every person who has difficulty in breathing should try "Try-New-Life." "Try-New-Life" will instantly relieve sore throat, stiff neck, tonsillitis, asth-

ma, or any affection of the throat or bronchial tubes.

If you are troubled with sore feet, stiff ankles, trouble with your instep, "Try-New-Life" will give you immediate relief.

One treatment with "Try-New-Life" will instantly relieve headache, and stimulate and invigorate the action of your kidneys. This treatment is very soothing and beneficial.

"Try-New-Life" increases the circulation of the blood in the scalp, promotes the growth of the hair, and loosens the scalp. Hair tonic will not make hair grow; it is the blood that contains all the elements of nutrition for the roots of the hair, and the only way to make hair grow is to stimulate the circulation of the scalp and supply more nutrition for the roots of the hair.

This is one of the most stubborn

cases to treat, because it requires eight or ten treatments before you notice results. However, one single treatment will stop the noise or ringing in the ear. A remarkable difference can be noticed after the eighth treatment.
