

### BANKER O'NEIL BACK

Former Wallace Financier Is Returned for Trial.

### BAIL SOUGHT IN SPOKANE

Prisoner Looks Spruce, Says He Is "Broke" but Cleaned and Pressed His Clothing White in Vancouver Jail.

SPOKANE, May 25.—B. F. O'Neil, ex-president of the State Bank of Commerce here today in an return for trial after his arraignment at Wallace on charges of receiving deposits after he knew the bank to be solvent, and other violations of the banking laws. He was accompanied by an Idaho officer and taken to Wallace tonight.

O'Neil talked freely about his affairs. "For two weeks prior to the closing of the bank," he said, "I had no more to do with the management than to sign checks. When the trial comes I will enlighten people to their entire satisfaction. I am broke, I left Wallace without anything and I have the same way, but I am confident that if I had been let alone at Vancouver I could have made enough by the first of this year to pay depositors in full. The bank was the idol of my heart and if I had money I would turn it over to the bank rather than use it to fight this case. I have not tried to do anything, I have nothing to hide."

### CHEHALIS CLASS LEAVES

High School Graduating Body One Largest in History.

CHEHALIS, Wash., May 25.—(Special.)—In proportion to the size of the city of Chehalis, the high school last night graduated a class three times as large as that of any other city in the United States. The Chehalis High School also has a membership three times as large as that of any other school in the country in proportion to its size and population. Dr. Edward O. Blason, of the University of Washington, delivered the commencement address, there being 31 members of the senior class.

The 1912 class was pronounced by R. Coffman, president of the school, to be the strongest and best ever completing the work here, according to the reports of the teachers in charge. Superintendent Coffield, who has been in charge for the past two years, and who is to remain here two years longer, has made a most remarkable record with his work. Following is a list of last night's graduates: Anna Abers, Henry Becker, Miriam

Wiskely, Walter Bruhns, Edna and Joyce Clark, John Coffman, Roy Davis, Anna Hansen, Martin Deggeller, Mildred Hermann, Sophia Fechter, George Flood, William Jensen, Percy Goodell, Leo Goodman, Ella and Tilda Jensen, Francis Kennicott, Katherine Polman, Neva Lowry, Noel Lowry, Martha Hasecke, Ethel Laviolette, Bessie and Edith Smith, Hazelina Schelsel, Mabel Shorey, Ruth Reynolds, Edwin Severns, from the high school department. Howard Coul, Frank Miller, Laura Dempsey, Fred Olson.

### WELL-KNOWN OREGON CITY WOMAN DIES AT AGE OF 28 YEARS.

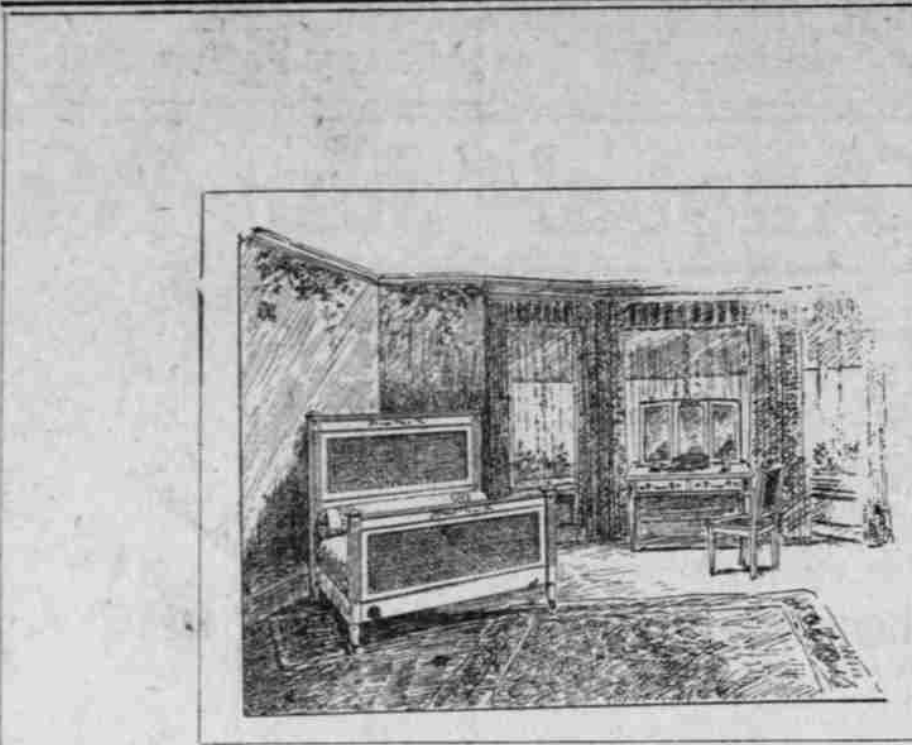

Mrs. John Douhit. OREGON CITY, Or., May 25.—(Special.)—The funeral of Mrs. John Douhit was held here Wednesday, the brief service at the Mountain View Cemetery being in charge of Rev. J. R. Landis, borough pastor of the Presbyterian Church.

### POWER OREGON'S HOPE

THIS STATE EXPECTED TO BE MANUFACTURING CENTER.

Dallas Gilliam, Rachel Walter, Roy Johnson, Alroy Tripp, Mary Makler. Log Rate Case Important. OREGON CITY, Or., May 25.—(Special.)—Word was received today that the State Railroad Commissioners will resume the hearing of the log rate case of the Sumpter Valley Railroad on June 18.

## Why Not Be Proud of Your Furniture?

Buy furniture that you will be proud of. Don't throw away money on the other kind. If you want furniture that is neither too cheap nor too costly, we can show you a lot of it that any woman would be proud to own. It is well made and comfortable, and it has style and distinction in every line.

A beautiful new White Enamel Bedroom Suit is shown in part in the cut. It is in our window this week. It is exactly the type of furniture that is so popular in the Eastern cities for the guest room or a girl's room. It was made by one of America's leading shops; is of fine hardwood, enameled and rubbed to a porcelain-like finish. The Bed has double construction, cane panels. The pieces are prettily ornamented with a hand-painted decoration. It is real life-time furniture. If you buy it you will always be proud of it.

We show many other fine, medium-priced suits in mahogany, Circassian walnut, maple and white, cream and gray enamel, at these prices and less; also matched suits and single pieces for the dining-room. See them. The combination of style and price will please you. For the living-room we have never shown so many comfortable and stylish pieces, nor at such reasonable prices. Many of the new Easy Chairs at \$25.00 to \$50.00 are really rare values, while the display of Davenport, Tables and occasional pieces leaves nothing to be desired, either in variety or price.

FIFTH AND STARK J. G. MACK & CO. FIFTH AND STARK

### POWER OREGON'S HOPE

THIS STATE EXPECTED TO BE MANUFACTURING CENTER.

Cheap Electricity Is Cited as Principal Remedy for Depletion of Rural Population. EUGENE, Or., May 25.—(Special.)—That Oregon may become the greatest manufacturing center of the United States, and greater than Niagara Falls,

was the opinion of W. T. Buchanan, publicity director of the Portland Railway, Light & Power Company, expressed in a paper read before the fourth annual Commonwealth Conference held today in the assembly-room of the University of Oregon. In analyzing his subject, the speaker said in substance: "The depletion of the rural fire-side of the young men and young women is having a deteriorating effect upon our National life. In 1910 approximately 50 per cent of the National population was upon the farms. In 1909 it was 35 per cent, in 1900 about 30 per cent and in 1911 while the official figures are not yet published, it is estimated at 27 per cent. The effect of this movement is to change our sociological condition. The cure lies in two things—primary transportation and improved labor-sav-

ing devices. In labor-saving devices there is one field which presents marvelous possibilities, and that is electricity. The minimum estimate of potential water power development in the United States is 28,000,000 horsepower. Forty-three per cent of this amount is to be found in the states of Oregon, Washington and California. With that of Wyoming, Idaho and Montana the percentage is increased to 49 per cent.

power demands fulfilled by electricity from a central station. And there is every reason to believe that the Oregon farm through its manifold advantages will become the breeding spot for a citizenship whose conservative thought and action the heritages of the Anglo-Saxon race may be maintained and perpetuated.

money at home. Each month since the savings bank opened has shown an increase in the number of new depositors. Vancouver Official Resigns. VANCOUVER, Wash., May 25.—(Special.)—N. W. Merrifield, of the Commissioners of Eminent Domain, has resigned from the Board. As a reason for his action Mr. Merrifield says: "When a man wants any improvements done, he very willingly signs the petition to have it done, but when it comes time to pay he nearly always protests and wants the other fellow to pay." The other two commissioners are Charles W. Hall and Benjamin DeKarnon.

## NEW WAY TO HELP BODY RECOVER ITS HEALTH BY SCIENTIFIC METHOD

Circulation Is Stimulated by "Try-New-Life," Headache, Rheumatism, Nervousness and Many Other Ailments Give Way to Restful Ease

"Try-New-Life" is the very latest scientific method of stimulating a good healthy circulation of the blood through your entire body, giving new life, strength and vigor.

### Every Home Should Have This Marvel

Every home in Portland ought to be supplied with one of the magical little "Try-New-Life" machines. No household should be without it any more than without curl-plaster for cuts and scratches, salve for burns or arnica for bruises.

"Try-New-Life" is destined to supplant the hot-water bottle for all ordinary uses. If there is stagnation of circulation, causing cold hands and feet, "Try-New-Life" will start up the circulation and remove the cause of cold extremities more perfectly than a whole battery of water bottles.

If there is nervousness, a feeling of undefined fear, a feeling of impending disaster without cause, a tormenting desire to be up and moving about when one really wants and needs rest, "Try-New-Life" will calm the sufferer and permit him to rest when nothing else short of some powerful drug, which does more harm than good, would have any effect.

RHEUMATISM GOES SLOWLY. Rheumatism racks many a poor man's frame, despite all that the best-meaning doctors in the world can do with their drugs and their instruments. So often they are told that there really is no cure for rheumatism—all that anyone can do is just to endure it until it

### TAKING AWAY HEADACHE

caused by the terrible headaches peculiar to their sex. Never yet has such a one submitted herself to the gentle operators in attendance, but she has come out in a few minutes with the pain taken away, the nerves soothed, and the whole system seemingly endowed with new life. Hence the name, "Try-New-Life."

## "TRY-NEW-LIFE" Machines Sold on Easy Payments

To place the "Try-New-Life" machines within reach of every sufferer at once, the Hamilton-Beach Sales Company offers to sell them on time, or rent them. A small payment down enables you to take the wonderful little machine to your home and treat yourself as often as you need it. The other payments are made monthly.

HAMILTON-BEACH SALES CO. 367 Morrison Street, Portland, Oregon. STUBBS ELECTRIC CO. Western Distributors, 61 Sixth St., Portland, Or.

## EASE FROM BACKACHE IS GIVEN INSTANTLY

Women Whose Nerves Are Racked Find Relief and Rest in a Moment's Use of "Try-New-Life"

Backache and nervousness, twin evils that make miserable the lives of so many women, can be relieved in a moment by a single application of "Try-New-Life," the magical little machine which the latest discoveries of science have given to the world for the relief of suffering.

Nothing will drag a woman downward into permanent ill-health like the constant tearing, pulling, deadening pain of a weak back. It takes the life and vim out of her, puts dark circles under the eyes, lines of pain across the forehead, and pulls down the corners of the mouth.

No matter how brave, how willing, how cheerful and patient a woman may be to begin with, day after day of the racking, dragging pain in her back will tell on her. She may not complain; she may never lose her temper; she may try to speak kindly all the time—but the point is that she suffers, and every day of suffering puts her that much farther from the perfect health she ought to enjoy.

"Try-New-Life" will positively and instantly take away the ache in the small of the back. In the hands of a skilled operator the little machine is passed along the sore and tired muscles of the spine, and the deep-set nerves and blood vessels that supply these muscles, and in a moment the pain is gone. The sufferer feels a glow of warmth, a thrill of new life and strength and vigor, and in a moment all life seems better worth the living.

HOW TO TREAT DEAFNESS. The first warning symptoms of approaching deafness are a slight ringing or hissing sound in one or both ears, while sometimes a peculiar thumping sensation is experienced with each pulsation of the heart. The eustachian tube is a pipe leading from the throat to the cavity of the middle ear. Its function is to fill the cavity with air at atmospheric pressure so that the pressure may be exactly the same at the front and back of the ear drum. The organ is thus maintained in perfect equilibrium and is entirely free to vibrate in and out when the sound waves impinge upon it.
